The bill requires teachers, assistant principals, and principals to be evaluated every year, either formally or informally, and such evaluations will include student academic progress as a significant component and an overall summative rating. At the option of the local school board, the bill increases from three years to five years the term of probationary service required for a teacher before becoming eligible for a continuing contract. The bill also requires local school boards to provide a new principal with a mentor with such funds as may be appropriated for this purpose by the General Assembly.
