9	Be it enacted by the General Assembly of Virginia:
10	1. That § 22.1-212.14 of the Code of Virginia is amended and reenacted as follows:
11	§ 22.1-212.14. Funding of public charter schools; services provided.
12	A. For the purposes of this article, students enrolled in a public charter school shall be included in
13	the average daily membership of the relevant school division and shall be reported in fall membership
14	for purposes of calculating the state and local shares required to fund the Standards of Quality.
15	B. Insofar as constitutionally valid, a local school board or, in the case of a regional public charter
16 17	school, the relevant school boards may establish by contract an agreement stating the conditions for funding the public charter school, including funding for the educational program to be provided by a
18	residential charter school for at-risk students. In accordance with subsection D, the per pupil funding
19	provided to the charter school by the local school board or, in the case of a regional public charter
20	school, the relevant school boards, shall be negotiated in the charter agreement and shall be
21	commensurate with the average school-based costs of educating the students in the existing schools in
22	the division or divisions unless the cost of operating the charter school is less than that average
23 24	school-based cost. C. Services provided the public charter school by the local school board or the relevant school
2 4 25	boards, in the case of regional public charter schools, may include food services; custodial and
26	maintenance services; curriculum, media, and library services; warehousing and merchandising; and such
27	other services not prohibited by the provisions of this article or state and federal laws.
28	D. Funding and service agreements between local school boards and public charter schools shall not
29 20	provide a financial incentive or constitute a financial disincentive to the establishment of a public charter
30 31	school, including any regional public charter school. E. Any educational and related fees collected from students enrolled at a public charter school shall
32	be credited to the account of such public charter school established by the relevant local school board.
33	F. Notwithstanding any other provision of law, the proportionate share of state and federal resources
34	allocated for students with disabilities and school personnel assigned to special education programs shall
35	be directed to public charter schools enrolling such students. The proportionate share of moneys
36	allocated under other federal or state categorical aid programs shall be directed to public charter schools
37	serving students eligible for such aid. Each local school board shall reimburse each public charter
38 39	school in the school division in an amount equal to the difference between (i) the proportionate share of all state and federal resources allocated for students with disabilities and school personnel assigned to
40	special education programs in the public charter school and (ii) the [actual] cost to the public charter
41	school to educate such students, [as determined by the local school board equal to the cost to the local
42	school board to educate such students].
43	G. The management committee of a public charter school is authorized to accept gifts, donations, or
44	grants of any kind made to the public charter school and to spend such funds in accordance with the
45 46	conditions prescribed by the donor. However, no gift, donation, or grant shall be accepted by the
46 47	management committee of a public charter school if the conditions for such funds are contrary to law or the terms of the agreement between the local school board and the public charter school or, in the case
48	of a regional public charter school, the relevant school boards and the regional public charter school.
49	H. The Department of Education shall provide technical assistance to local school boards relating to
50	receipt, review, and ruling upon applications for public charter schools.
