The Board of Housing and Community Development is hereby empowered to adopt and promulgate a Statewide Fire Prevention Code which shall be cooperatively developed with the Fire Services Board pursuant to procedures agreed to by the two Boards. The Fire Prevention Code shall prescribe regulations to be complied with for the protection of life and property from the hazards of fire or explosion and for the handling, storage, sale and use of fireworks, explosives or blasting agents, and shall provide for the administration and enforcement of such regulations. The Fire Prevention Code shall require manufacturers of fireworks or explosives, as defined in the Code, to register and report information concerning their manufacturing facilities and methods of operation within the Commonwealth in accordance with regulations adopted by the Board. In addition to conducting criminal background checks pursuant to § 27-97.2, the Board shall also establish regulations for obtaining permits for the manufacturing, storage, handling, use, or sales of fireworks or explosives. 183 The Fire Prevention Code shall supersede fire prevention regulations heretofore adopted by local
184 governments or other political subdivisions. Local governments are hereby empowered to adopt fire
185 prevention regulations that are more restrictive or more extensive in scope than the Fire Prevention Code
186 provided such regulations do not affect the manner of construction, or materials to be used in the
187 erection, alteration, repair, or use of a building or structure, including the voluntary installation of smoke
188 alarms and regulation and inspections thereof in commercial buildings where such smoke alarms are not
189 required under the provisions of the Code. The Fire Prevention Code shall prohibit any person not

204 Uniform Statewide Building Code.

205 The Fire Prevention Code shall require that buildings constructed prior to 1973 be maintained in
206 accordance with state fire and public building regulations in effect prior to March 31, 1986, and that any
207 building which is (i) more than 75 feet or more than six stories high and (ii) used, in whole or in part,

211 lowest level of fire department vehicle access. The drills shall be conducted by building staff personnel
212 or the owner of the building in accordance with a plan approved by the appropriate fire official and

221 require a background investigation, to include a national criminal history record information check, of all
222 individual applicants and all designated persons representing an applicant that is not an individual, for a

225 the State Fire Marshal on a form provided by the State Fire Marshal and provide personal descriptive
226 information to be forwarded along with the applicant's fingerprints through the Central Criminal Records

235 other state, the District of Columbia, the United States or any territory thereof, unless his civil rights
236 have been restored by the Governor or other appropriate authority. The provisions of this section shall
237 not apply to the manufacturing, storage, handling, use or sales of ~~permissible~~ fireworks or in connection
238 with any fireworks display conducted by a volunteer fire department provided one member of the
239 volunteer fire department holds a valid certification.

241 issued pursuant to the provisions of Title 45.1.

242 **2. That the provisions of this act shall become effective on January 1, 2015.**

243 **3. That the provisions of this act may result in a net increase in periods of imprisonment or**
244 **commitment. Pursuant to § 30-19.1:4, the estimated amount of the necessary appropriation is \$0**
