5. Summary: Insurance holding companies. Revises the requirements applicable to insurance holding companies to conform to the National Association of Insurance Commissioners' Insurance Holding Company System Regulatory Act and Insurance Holding Company System Model Regulation. The legislation (i) requires the ultimate controlling person of an insurance holding company system to submit a confidential Enterprise Risk filing; (ii) requires the parent company seeking to divest their interest in an insurance company subsidiary to provide notice to the domestic regulator prior to the divestiture; (iii) requires the insurer's board of directors to make statements regarding the corporate governance and internal control responsibilities within the annual holding company registration statement; (iv) subjects the cost-sharing services and management agreements among affiliated entities to minimum reporting requirements to eliminate the potential for capital to flow out of the insurer through these types of agreements; (v) provides regulators with explicit authority to participate in supervisory colleges; and (vi) adds confidentiality protections for information shared. The measure also makes dental and optometric services plans subject to the insurance holding company provisions, and dental plan organizations subject to requirements regarding risk-based capital. The holding companies requirements in effect on June 30, 2014, will continue to apply to any insurance holding company transaction commenced prior to January 1, 2015, unless otherwise provided.
