

15101202D

**HOUSE BILL NO. 1619**

Offered January 14, 2015

Prefiled January 8, 2015

*A BILL to amend and reenact §§ 22.1-253.13:4 and 22.1-254.2 of the Code of Virginia, relating to eleventh and twelfth grade transfer students; graduation requirements.*

Patrons—Scott and Webert; Senator: Reeves

Referred to Committee on Education

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 22.1-253.13:4 and 22.1-254.2 of the Code of Virginia are amended and reenacted as follows:**

**§ 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.**

A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who earn the units of credit prescribed by the Board of Education, pass the prescribed tests, and meet such other requirements as may be prescribed by the local school board and approved by the Board of Education. Provisions shall be made to facilitate the transfer and appropriate grade placement of students from other public secondary schools, from nonpublic schools, or from home instruction as outlined in the standards for accreditation. Course credits earned for online courses taken in the Department of Education's Virtual Virginia program shall transfer to Virginia public schools in accordance with provisions of the standards for accreditation. Further, reasonable accommodation to meet the requirements for diplomas shall be provided for otherwise qualified students with disabilities as needed.

In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school students, a mechanism for calculating class rankings that takes into consideration whether the student has taken a required class more than one time and has had any prior earned grade for such required class expunged.

Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) the number and subject area requirements of standard and verified units of credit required for graduation pursuant to the standards for accreditation and (ii) the remaining number and subject area requirements of such units of credit the individual student requires for graduation.

B. Students identified as disabled who complete the requirements of their individualized education programs shall be awarded special diplomas by local school boards.

Each local school board shall notify the parent of such students with disabilities who have an individualized education program and who fail to meet the requirements for a standard or advanced studies diploma of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ 22.1-213 et seq.) of Chapter 13.

C. Students who have completed a prescribed course of study as defined by the local school board shall be awarded certificates of program completion by local school boards if they are not eligible to receive a Board of Education-approved diploma.

Each local school board shall provide notification of the right to a free public education for students who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 (§ 22.1-1 et seq.), to the parent of students who fail to graduate or who have failed to achieve the number of verified units of credit required for graduation as provided in the standards for accreditation. If such student who does not graduate or achieve such verified units of credit is a student for whom English is a second language, the local school board shall notify the parent of the student's opportunity for a free public education in accordance with § 22.1-5.

D. In establishing course and credit requirements for a high school diploma, the Board shall:

1. Provide for the selection of integrated learning courses meeting the Standards of Learning and approved by the Board to satisfy graduation credit requirements, which shall include Standards of Learning testing, as necessary.

2. Establish the requirements for a standard and an advanced studies high school diploma, which shall each include at least one credit in fine or performing arts or career and technical education and one credit in United States and Virginia history. The requirements for a standard high school diploma shall, however, include at least two sequential electives chosen from a concentration of courses selected from a variety of options that may be planned to ensure the completion of a focused sequence of elective courses. Such focused sequence of elective courses shall provide a foundation for further education or training or preparation for employment. The advanced studies diploma shall be the recommended

INTRODUCED

HB1619

59 diploma for students pursuing baccalaureate study. Both the standard and the advanced studies diploma  
60 shall prepare students for post-secondary education and the career readiness required by the  
61 Commonwealth's economy.

62 Beginning with first-time ninth grade students in the 2013-2014 school year, requirements for the  
63 standard diploma shall include a requirement to earn a career and technical education credential that has  
64 been approved by the Board, that could include, but not be limited to, the successful completion of an  
65 industry certification, a state licensure examination, a national occupational competency assessment, or  
66 the Virginia workplace readiness skills assessment.

67 Beginning with first-time ninth grade students in the 2016-2017 school year, requirements for the  
68 standard and advanced diplomas shall include a requirement to be trained in emergency first aid,  
69 cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on  
70 practice of the skills necessary to perform cardiopulmonary resuscitation.

71 The Board shall make provision in its regulations for students with disabilities to earn a standard  
72 diploma.

73 3. Provide, in the requirements to earn a standard or advanced studies diploma, the successful  
74 completion of one virtual course. The virtual course may be a noncredit-bearing course.

75 4. Provide, in the requirements for the verified units of credit stipulated for obtaining the standard or  
76 advanced studies diploma, that students completing elective classes into which the Standards of Learning  
77 for any required course have been integrated may take the relevant Standards of Learning test for the  
78 relevant required course and receive, upon achieving a satisfactory score on the specific Standards of  
79 Learning assessment, a verified unit of credit for such elective class that shall be deemed to satisfy the  
80 Board's requirement for verified credit for the required course.

81 5. Establish a procedure to facilitate the acceleration of students that allows qualified students, with  
82 the recommendation of the division superintendent, without completing the 140-hour class, to obtain  
83 credit for such class upon demonstration of mastery of the course content and objectives. Having  
84 received credit for the course, the student shall be permitted to sit for the relevant Standards of Learning  
85 assessment and, upon receiving a passing score, shall earn a verified credit. Nothing in this section shall  
86 preclude relevant school division personnel from enforcing compulsory attendance in public schools.

87 6. Provide for the award of verified units of credit for passing scores on industry certifications, state  
88 licensure examinations, and national occupational competency assessments approved by the Board of  
89 Education.

90 School boards shall report annually to the Board of Education the number of Board-approved  
91 industry certifications obtained, state licensure examinations passed, national occupational competency  
92 assessments passed, Virginia workplace readiness skills assessments passed, and the number of career  
93 and technical education completers who graduated. These numbers shall be reported as separate  
94 categories on the School Performance Report Card.

95 For the purposes of this subdivision, "career and technical education completer" means a student who  
96 has met the requirements for a career and technical concentration or specialization and all requirements  
97 for high school graduation or an approved alternative education program.

98 In addition, the Board may:

99 a. For the purpose of awarding verified units of credit, approve the use of additional or substitute  
100 tests for the correlated Standards of Learning assessment, such as academic achievement tests, industry  
101 certifications or state licensure examinations; and

102 b. Permit students completing career and technical education programs designed to enable such  
103 students to pass such industry certification examinations or state licensure examinations to be awarded,  
104 upon obtaining satisfactory scores on such industry certification or licensure examinations, the  
105 appropriate verified units of credit for one or more career and technical education classes into which  
106 relevant Standards of Learning for various classes taught at the same level have been integrated. Such  
107 industry certification and state licensure examinations may cover relevant Standards of Learning for  
108 various required classes and may, at the discretion of the Board, address some Standards of Learning for  
109 several required classes.

110 7. Provide for the waiver of certain graduation requirements (i) upon the Board's initiative or (ii) at  
111 the request of a local school board. Such waivers shall be granted only for good cause and shall be  
112 considered on a case-by-case basis.

113 8. Consider all computer science course credits earned by students to be science course credits,  
114 mathematics course credits, or career and technical education credits. The Board of Education shall  
115 develop guidelines addressing how computer science courses can satisfy graduation requirements.

116 E. Any student who transfers into a public high school from another public high school, a nonpublic  
117 high school, or home instruction during the eleventh grade or between the eleventh and twelfth grades  
118 shall earn the total number of standard and verified units of credit prescribed by the Board but shall  
119 not be required to earn the standard unit of credit in economics and personal finance or complete the  
120 virtual course required by the Board for graduation if the local school board determines that enrolling

*in the economics and personal finance or virtual course would result in the student's carrying a heavier than normal course load, enrolling in summer school, or failing to graduate in four years. Any student who transfers into a public high school from another public high school, a nonpublic high school, or home instruction during the eleventh grade or between the eleventh and twelfth grades and pursues the standard diploma shall not be required to earn the career and technical education credential required by the Board for graduation with a standard diploma if such student earns one verified unit of credit in English and one verified unit of credit of the student's own choosing in excess of the minimum verified units of credit required by the Board for graduation.*

F. In the exercise of its authority to recognize exemplary academic performance by providing for diploma seals, the Board of Education shall develop criteria for recognizing exemplary performance in career and technical education programs by students who have completed the requirements for a Board of Education-approved diploma and shall award seals on the diplomas of students meeting such criteria.

In addition, the Board shall establish criteria for awarding a diploma seal for advanced mathematics and technology for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) technology courses; (ii) technical writing, reading, and oral communication skills; (iii) technology-related training; and (iv) industry, professional, and trade association national certifications.

The Board shall also establish criteria for awarding a diploma seal for excellence in civics education and understanding of our state and federal constitutions and the democratic model of government for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) successful completion of history, government, and civics courses, including courses that incorporate character education; (ii) voluntary participation in community service or extracurricular activities that includes the types of activities that shall qualify as community service and the number of hours required; and (iii) related requirements as it deems appropriate.

~~F.~~ G. The Board shall establish, by regulation, requirements for the award of a general achievement adult high school diploma for those persons who are not subject to the compulsory school attendance requirements of § 22.1-254 and have (i) achieved a passing score on a high school equivalency examination approved by the Board of Education; (ii) successfully completed an education and training program designated by the Board of Education; (iii) earned a Board of Education-approved career and technical education credential such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, or the Virginia workplace readiness skills assessment; and (iv) satisfied other requirements as may be established by the Board for the award of such diploma.

~~G.~~ H. To ensure the uniform assessment of high school graduation rates, the Board shall collect, analyze, and report high school graduation and dropout data using a formula prescribed by the Board.

The Board may promulgate such regulations as may be necessary and appropriate for the collection, analysis, and reporting of such data.

**§ 22.1-254.2. Testing for high school equivalency; eligibility; guidelines.**

A. The Board of Education shall establish a program of testing for high school equivalency through which a person may pass a high school equivalency examination approved by the Board of Education through which persons may earn a high school equivalency certificate or may earn a diploma as provided in subsection ~~F~~ G of § 22.1-253.13:4. The following persons may participate in the testing program:

1. Persons who are at least 18 years of age and not enrolled in public school or not otherwise meeting the school attendance requirements set forth in § 22.1-254;

2. Persons 16 years of age or older who have been instructed by their parents in their home pursuant to § 22.1-254.1 and who have completed such home school instruction;

3. Persons who have been excused from school attendance pursuant to subsections B and D of § 22.1-254;

4. Persons for whom an individual student alternative education plan has been granted pursuant to subsection E of § 22.1-254;

5. Persons 16 through 18 years of age who are housed in adult correctional facilities and who are actively pursuing a passing score on a high school equivalency examination approved by the Board of Education but who are not enrolled in an individual student alternative education plan pursuant to subsection E of § 22.1-254;

6. Persons 16 years of age or older who have been expelled from school pursuant to §§ 22.1-277.06 through 22.1-277.08; and

7. Persons required by court order to participate in the testing program.

Under no circumstances shall persons under the age of 16 be eligible for the testing program.

B. From such funds as may be appropriated for this purpose, local school boards shall implement programs of preparation and testing for high school equivalency consistent with guidelines to be developed by the Board of Education. Such guidelines shall include a provision that allows preparatory

**182** and testing programs to be offered jointly by two or more school boards.
