27	58.1-400 equal to \$700 for each job that is created in either (i) the manufacture of the major	
28	components of the energy storage, energy supply, or engine, motor, and power train mechanisms unique	
29	to a vehicle fueled by clean special fuels; (ii) the manufacture of components uniquely used to convert	
30	vehicles designed to operate on gasoline or diesel fuel to operate on clean special fuels or advanced	
31	biofuels; (iii) the conversion of vehicles designed to operate on gasoline or diesel fuel to operate on	
32 33	clean special fuels or advanced biofuels; (iv) the manufacture of vehicles designed to operate on clean special fuels; (v) the manufacture of components designed to produce, store, and dispense clean special	
33 34	fuels or advanced biofuels; or (vi) the production of advanced biofuels. The credit shall be allowed in	
35	the taxable year in which the job is created and in each of the two succeeding years in which the job is	
36	continued.	
37	C. To qualify for the tax credit provided in subsection B of this section, a corporation must	
38	demonstrate (i) that a job was created during the taxable year for which the credit is claimed or was	
39 40	continued from the previous taxable year in which a credit was claimed and (ii) the employment level in is the defined in subsection. A of this section in the tayable was far which the gradit is first alained has	
40 41	jobs defined in subsection A of this section in the taxable year for which the credit is first claimed has	
41 42	increased in comparison to the previous taxable year. D. Any tax credit not used in the taxable year of job creation or continuation may be carried over	
43	for credit against the corporation's income tax in the five succeeding taxable years until the total credit	
44	amount is used.	
45	E. In case of a partnership or limited liability company, the credit shall be allocated to the corporate	
46	partners or corporate members in proportion to their ownership or interest in the partnership or limited	
47	liability company.
