B. For each such ton of coal described in subsection A that is purchased on or after January 1, 2006, from any person with an economic interest in coal as defined under § 58.1-439.2, the \$3-per-ton credit allowed under subsection A may be allocated between such electricity generator and such person with an economic interest in coal. The allocation of the \$3-per-ton credit may be provided in the contract between such parties for the sale of such coal. Such allocation may be amended by the execution of a written instrument by the parties prior to December 31 of the year of purchase of such coal. Such contracts and written instruments shall be subject to audit by the Department of Taxation to ensure the proper application of credits.

In no case shall the credit allocated for each such ton of coal among such electricity generators and such persons with an economic interest in coal exceed \$3 per ton.

All credits earned on or after January 1, 2006, which are allocated to persons with an economic interest in coal as provided under this subsection may be used as tax credits by such persons against the tax imposed by § 58.1-400 and any other tax imposed by the Commonwealth. If the credits earned on or after January 1, 2006 exceed the state tax liability for the applicable taxable year of such person with an economic interest in coal, the excess shall be redeemable by the Tax Commissioner as set forth in subsection D of § 58.1-439.2, provided that the ability of persons with an economic interest in coal to redeem with the Tax Commissioner credits received pursuant to an allocation under this section shall expire for credits earned under this section on or after July 1, 2016.

A party who only receives an arm's length royalty shall not be considered as having an economic interest in coal mined in the Commonwealth.

D. Persons who qualify for the credit may not apply such credit to their tax returns prior to January 1, 1999, and only one year of credits shall be allowed annually beginning in 1999.

F. The amount of credit allowed pursuant to subsection A shall be the amount of credit earned multiplied by the person's employment factor. The person's employment factor shall be the percentage obtained by dividing the total number of coal mining jobs of the person filing the return, including the jobs of the contract operators of such person, as reflected in the annual tonnage reports filed with the Department of Mines, Minerals and Energy for the year in which the credit was earned by the total number of coal mining jobs of such persons or operators as reflected in the annual tonnage reports for the year immediately prior to the year in which the credit was earned. In no case shall the credit claimed exceed that amount set forth in subsection A.

G. The tax credit allowed under this section shall be claimed in the third taxable year following the taxable year in which the credit was earned and allowed.

**2. That the provisions of this act shall become effective for taxable years beginning on or after January 1, 2015.**
