Summary: The bill provides a new method for the preparation of state legislative and congressional redistricting plans; spells out standards for developing plans, including population equality, compactness, maintenance of cores of existing districts, and respect for locality boundaries; precludes consideration of incumbency and political data in developing plans; assigns responsibility to the Division of Legislative Services (DLS) to prepare plans for submission to the General Assembly; and establishes a temporary redistricting advisory commission to advise DLS, disseminate information on plans, and hold hearings for public reaction to plans. The General Assembly may reject DLS's plans and may ultimately amend the plans. This bill is patterned after the Iowa redistricting process.
