2. Patron: Barker

3. Committee: Courts of Justice

4. Title: Temporary detention for testing, observation, and treatment of person who is the subject of an emergency custody order.

5. Summary: The bill provides that a court or magistrate may issue a temporary detention order for medical testing, observation, and treatment for a person who is also the subject of an emergency custody order for evaluation and treatment of mental illness. Upon completion of any required testing, observation, or treatment, the hospital emergency room or other appropriate facility in which the person is temporarily detained shall notify the community services board responsible for performing an evaluation to determine whether the person meets the criteria for temporary detention for treatment of mental illness, and a designee of the community services board shall complete the evaluation as soon as is practicable but prior to the expiration of the order for temporary detention for testing, observation, or treatment.

6. Budget Amendment Necessary: No

7. Fiscal Impact Estimates: None

8. Fiscal Implications: This bill allows for magistrates to issue Temporary Detention Orders (TDOs) for medical testing for an individual who is subject to an ECO. A medical TDO would not require a Community Services Board (CSB) representative or a member of law enforcement to be present at the hospital or medical facility during this testing. It only requires the hospital to notify the CSB representative when medical testing under the TDO is complete in order that the CSB evaluator can perform an examination. This bill does not require any additional services from the CSB representatives or members of law enforcement and therefore has no fiscal impact.
