16. Railroad rolling stock when sold or leased by the manufacturer thereof.

17. Computer equipment purchased or leased on or before June 30, 2011, used in data centers located in a Virginia locality having an unemployment rate above 4.9 percent for the calendar quarter ending November 2007, for the processing, storage, retrieval, or communication of data, including but not limited to servers, routers, connections, and other enabling hardware when part of a new investment of at least \$75 million in such exempt property, when such investment results in the creation of at least 100 new jobs paying at least twice the prevailing average wage in that locality, so long as such investment was made in accordance with a memorandum of understanding with the Virginia Economic Development Partnership Authority entered into or amended between January 1, 2008, and December 31, 2008. The exemption shall also apply to any such computer equipment purchased or leased to upgrade, add to, or replace computer equipment purchased or leased in the initial investment. The exemption shall not apply to any computer software sold separately from the computer equipment, nor shall it apply to general building improvements or fixtures.

This exemption applies to the data center operator and the tenants of the data center if they collectively meet the requirements listed in this section. Prior to claiming such exemption, any qualifying person claiming the exemption, including a data center operator on behalf of itself and its tenants, must enter into a memorandum of understanding with the Virginia Economic Development Partnership Authority that at a minimum provides the details for determining the amount of capital investment made and the number of new jobs created, the timeline for achieving the capital investment and new job goals, the repayment obligations should those goals not be achieved, and any conditions under which repayment by the qualifying data center or data center tenant claiming the exemption may be required. In addition, the exemption shall apply to any such computer equipment or enabling software purchased or leased to upgrade, supplement, or replace computer equipment or enabling software purchased or leased in the initial investment. The exemption shall not apply to any other computer software otherwise taxable under Chapter 6 of Title 58.1 that is sold or leased separately from the computer equipment, nor shall it apply to general building improvements or other fixtures.

The requirement of at least 50 new jobs is reduced to 25 new jobs if the data center is located in a locality that has an unemployment rate for the preceding year of at least 150 percent of the average statewide unemployment rate for such year as determined by the Virginia Economic Development Partnership or is located in an enterprise zone. Prior to claiming such exemption, any qualifying person claiming the exemption must enter into a memorandum of understanding with the Virginia Economic Development Partnership Authority that at a minimum provides the details for determining the amount of capital investment made and the number of new jobs created, the timeline for achieving the capital investment and new job goals, the repayment obligations should those goals not be achieved, and any conditions under which repayment by the qualifying person claiming the exemption may be required. In addition, the exemption shall apply to any such computer equipment or enabling software purchased or leased to upgrade, supplement, or replace computer equipment or enabling software purchased or leased in the initial investment. The exemption shall not apply to any other computer software otherwise taxable under Chapter 6 of Title 58.1 that is sold or leased separately from the computer equipment, nor shall it apply to general building improvements or other fixtures.
