B. No resolution, ordinance, rule, contract, regulation or motion adopted, passed or agreed to in a closed meeting shall become effective unless the public body, following the meeting, reconvenes in open meeting and takes a vote of the membership on such resolution, ordinance, rule, contract, regulation, or motion that shall have its substance reasonably identified in the open meeting.

C. Public officers improperly selected due to the failure of the public body to comply with the other provisions of this section shall be de facto officers and, as such, their official actions are valid until they obtain notice of the legal defect in their election.

D. Nothing in this section shall be construed to prevent the holding of conferences between two or more public bodies, or their representatives, but these conferences shall be subject to the same procedures for holding closed meetings as are applicable to any other public body.

E. This section shall not be construed to (i) require the disclosure of any contract between the Department of Health Professions and an impaired practitioner entered into pursuant to Chapter 25.1 (§ 54.1-2515 et seq.) of Title 54.1 or (ii) require the board of directors of any authority created pursuant to the Industrial Development and Revenue Bond Act (§ 15.2-4900 et seq.), or any public body empowered to issue industrial revenue bonds by general or special law, to identify a business or industry to which subdivision A 5 applies. However, such business or industry shall be identified as a matter of public record at least 30 days prior to the actual date of the board's authorization of the sale or issuance of such bonds.

§ 23-9.6:1. Duties of Council generally.

In addition to such other duties as may be prescribed elsewhere, the State Council of Higher Education shall:

1. Develop a statewide strategic plan that (i) reflects the goals set forth in subsection B of § 23-38.88 or (ii) once adopted, reflects the goals and objectives developed pursuant to subdivision B 5 of § 23-38.87:20 for higher education in the Commonwealth, identifies a coordinated approach to such state and regional goals, and emphasizes the future needs for higher education in Virginia at both the undergraduate and the graduate levels, as well as the mission, programs, facilities and location of each of the existing institutions of higher education, each public institution's six-year plan, and such other matters as the Council deems appropriate. The Council shall revise such plans at least once every six years and shall submit such recommendations as are necessary for the implementation of the plan to the Governor and the General Assembly.

2. Review and approve or disapprove any proposed change in the statement of mission of any presently existing public institution of higher education and to define the mission of all public institutions of higher education created after the effective date of this provision. The Council shall, within the time prescribed in subdivision 1, make a report to the Governor and the General Assembly

with respect to its actions hereunder. No such actions shall become effective until 30 days after adjournment of the session of the General Assembly next following the filing of such a report. Nothing contained in this provision shall be construed to authorize the Council to modify any mission statement adopted by the General Assembly, nor to empower the Council to affect, either directly or indirectly, the selection of faculty or the standards and criteria for admission of any public institution, whether related to academic standards, residence or other criteria; it being the intention of this section that faculty selection and student admission policies shall remain a function of the individual institutions.

3. Study any proposed escalation of any public institution to a degree-granting level higher than that level to which it is presently restricted and to submit a report and recommendation to the Governor and the General Assembly relating to the proposal. The study shall include the need for and benefits or detriments to be derived from the escalation. No such institution shall implement any such proposed escalation until the Council's report and recommendation have been submitted to the General Assembly and the General Assembly approves the institution's proposal.

4. Review and approve or disapprove all enrollment projections proposed by each public institution of higher education. The Council's projections shall be in numerical terms by level of enrollment and shall be used for budgetary and fiscal planning purposes only. The Council shall develop estimates of the number of degrees to be awarded by each institution and include those estimates in its reports of enrollment projections. The student admissions policies for the institutions and their specific programs shall remain the sole responsibility of the individual boards of visitors; however, all four-year institutions shall adopt dual admissions policies with the community colleges, as required by § 23-9.2:3.02.

5. Review and approve or disapprove all new academic programs which any public institution of higher education proposes. As used herein, "academic programs" include both undergraduate and graduate programs.

6. Review and require the discontinuance of any undergraduate or graduate academic program that is presently offered by any public institution of higher education when the Council determines that such academic program is (i) nonproductive in terms of the number of degrees granted, the number of students served by the program, the program's effectiveness, and budgetary considerations, or (ii) supported by state funds and is unnecessarily duplicative of academic programs offered at other public institutions of higher education in the Commonwealth. The Council shall make a report to the Governor and the General Assembly with respect to the discontinuance of any such academic program. No such discontinuance shall become effective until 30 days after the adjournment of the session of the General Assembly next following the filing of such report.

7. Review and approve or disapprove the creation and establishment of any department, school, college, branch, division or extension of any public institution of higher education that such institution proposes to create and establish. This duty and responsibility shall be applicable to the proposed creation and establishment of departments, schools, colleges, branches, divisions and extensions, whether located on or off the main campus of the institution in question. If any organizational change is determined by the Council to be proposed solely for the purpose of internal management and the institution's curricular offerings remain constant, the Council shall approve the proposed change. Nothing in this provision shall be construed to authorize the Council to disapprove the creation and establishment of any department, school, college, branch, division or extension of any institution that has been created and established by the General Assembly.

8. Review the proposed closure of any academic program in a high demand or critical shortage area, as defined by the Council, by any public institution of higher education and assist in the development of an orderly closure plan, when needed.

9. Develop a uniform, comprehensive data information system designed to gather all information necessary to the performance of the Council's duties. The system shall include information on admissions, enrollments, self-identified students with documented disabilities, personnel, programs, financing, space inventory, facilities and such other areas as the Council deems appropriate. When consistent with the Government Data Collection and Dissemination Practices Act, the Virginia Unemployment Compensation Act, and applicable federal law, the Council, acting solely or in partnership with the Virginia Department of Education or the Virginia Employment Commission, may contract with private entities to create de-identified student records for the purpose of assessing the performance of institutions and specific programs relative to the workforce needs of the Commonwealth. For the purposes of this section, "de-identified student records" means records in which all personally identifiable information has been removed.

10. Develop in cooperation with institutions of higher education guidelines for the assessment of student achievement. An institution shall use an approved program that complies with the guidelines of the Council and is consistent with the institution's mission and educational objectives in the development of such assessment. The Council shall report the institutions' assessments of student achievement in the biennial revisions to the state's master plan for higher education.

11. Develop in cooperation with the appropriate state financial and accounting officials and to establish uniform standards and systems of accounting, record keeping and statistical reporting for the

public institutions of higher education.

12. Review biennially and approve or disapprove all changes in the inventory of educational and general space that any public institution of higher education may propose, and to make a report to the Governor and the General Assembly with respect thereto. No such change shall be made until 30 days after the adjournment of the session of the General Assembly next following the filing of such report.

13. Visit and study the operations of each of the public institutions of higher education at such times as the Council shall deem appropriate and to conduct such other studies in the field of higher education as the Council deems appropriate or as may be requested by the Governor or the General Assembly.

14. Provide advisory services to private, accredited and nonprofit institutions of higher education, whose primary purpose is to provide collegiate or graduate education and not to provide religious training or theological education, on academic, administrative, financial and space utilization matters. The Council may also review and advise on joint activities, including contracts for services between such public and private institutions of higher education or between such private institutions and any agency of the Commonwealth or political subdivision thereof.

15. Adopt such rules and regulations as the Council believes necessary to implement all of the Council's duties and responsibilities as set forth in this Code. The various public institutions of higher education shall comply with such rules and regulations.

16. Issue guidelines consistent with the provisions of the federal Family Education Rights and Privacy Act (FERPA), 20 U.S.C. § 1232g requiring public institutions of higher education to release a student's academic and disciplinary record to a student's parent.

17. Require that each institution of higher education formed, chartered, or established in the Commonwealth after July 1, 1980, shall ensure the preservation of student transcripts in the event of institutional closure or revocation of approval to operate in the Commonwealth of Virginia. An institution may provide for the preservation of student transcripts by binding agreement with another institution of higher education with which it is not corporately connected or in such other way as the Council may authorize by regulation. In the event an institution closes, or has its approval to operate in the Commonwealth revoked, the Council, through its Director, may take such action as is necessary to secure and preserve the student transcripts until such time as an appropriate institution accepts all or some of the transcripts. Nothing in this section shall be deemed to interfere with the right of a student to his own transcripts; nor shall this section authorize disclosure of student records except as may otherwise be authorized by law.

18. Require the development and submission of articulation, dual admissions, and guaranteed admissions agreements between two-year and four-year public institutions of higher education in Virginia.

19. Provide periodic updates of base adequacy funding guidelines adopted by the Joint Subcommittee Studying Higher Education Funding Policies for the various public institutions.

20. Develop a uniform certificate of general studies program, in consultation with the Virginia Community College System and Virginia public institutions of higher education, to be offered at each community college in Virginia. Such program shall ensure that a community college student who completes the one-year certificate program shall be able to transfer all credits earned in academic subject coursework to a four-year public institution of higher education in the Commonwealth upon acceptance to the institution.

21. *Assist the Virginia Research Investment Committee with the administration of the Virginia Research Investment Fund consistent with the provisions of Chapter 28 (§ 23-304 et seq.).*

In carrying out its duties and responsibilities, the Council, insofar as practicable, shall preserve the individuality, traditions and sense of responsibility of the respective institutions. The Council, insofar as practicable, shall seek the assistance and advice of the respective institutions in fulfilling all of its duties and responsibilities.

The State Treasurer shall not be held liable for losses suffered by the Virginia Retirement System on investments made under the authority of this subsection.

2. No more than \$4 million of moneys so invested, net of any administrative fee assessed pursuant to subsection E of § 51.1-124.38, may be awarded through grants or loans in a fiscal year for any purpose permitted by this chapter. At the direction of the Committee, the State Comptroller may annually request a disbursement of \$4 million from the moneys invested by the Board of the Virginia Retirement System, to be held with other moneys in the Fund not subject to such investment. At the end of each fiscal year, if less than \$4 million of such annual allocation is awarded as grants or loans in a calendar year, the Comptroller shall return the remainder of the annual \$4 million allocation to the Board of the Virginia Retirement System for reinvestment pursuant to § 51.1-124.38.

Areas of focus for awards shall be those areas identified in the Commonwealth Research and Technology Strategic Roadmap, and shall include but not be limited to the biosciences, personalized medicine, cybersecurity, data analytics, and other areas designated in the general appropriation act.

D. The disbursement of grants and loans from the Fund shall be made by the State Comptroller at the written request of the Committee.

§ 23-306. Virginia Research Investment Committee established; report.

E. The Committee shall report to the Governor and the Chairmen of the House Committee on Appropriations and the Senate Committee on Finance no later than November 1 of each year. The report shall include details about awards made from the Fund in the immediately preceding fiscal year and updates on the research, development, and commercialization efforts resulting from such awards.

§ 23-307. Award from Virginia Research Investment Fund.

A. The Council, in consultation with the Committee, shall establish guidelines, procedures, and objective criteria for the application for and award of grants and loans from the Fund. Such guidelines, procedures, and criteria, and any updates thereto, shall be submitted to the House Committee on Appropriations and the Senate Committee on Finance. The criteria for the award of grants and loans shall consider other grants, awards, loans, or funds awarded to the proposed program or project by the Commonwealth and shall require an applicant to indicate other applications for state grants, awards, loans, or funds currently pending at the time of the application for an award from the Fund. The criteria shall consider the potential of the program or project for which a grant or loan is sought to (i)

culminate in the commercialization of research; (ii) culminate in the formation or spin-off of viable bioscience, biotechnology, cybersecurity, genomics, or similar companies; (iii) promote the build-out of scientific areas of expertise in science and technology; (iv) promote applied research and development; (v) provide modern facilities or infrastructure for research and development; (vi) result in significant capital investment and job creation; or (vii) promote collaboration among the public institutions of higher education in the Commonwealth. B. Grants and loans may be awarded to public institutions of higher education in the Commonwealth or collaborations between public institutions of higher education in the Commonwealth and private entities. Any award from the Fund shall require a match of funds at least equal to the amount of the award.

C. Applications for grants and loans from the Fund shall be received by the Council in accordance with the procedures developed pursuant to subsection A. Upon confirmation that an application is complete, the Council shall forward the application to an entity with recognized science and technology expertise for a review and certification of the scientific merits of the proposal, including a scoring or prioritization of applicant programs and projects deemed viable by the reviewing entity. Such entities include, but are not limited to, the Virginia Biosciences Health Research Corporation, the Innovation and Entrepreneurship Investment Authority, the Virginia Academy of Science, Engineering and Medicine, or any other entity deemed appropriate by the Council, including a scientific advisory committee created by the Council for the sole purpose of reviewing one or more applications received pursuant to this article.

D. Any proposal receiving a favorable evaluation pursuant to subsection C shall be forwarded, along with the scoring or prioritization, to the Committee for further review and a decision whether to award the proposal a grant or loan from the Fund. The award of a grant or loan from the Fund shall be subject to any terms and conditions set forth by the Committee for the award. All decisions by the Committee shall be final and not subject to further review or appeal. The Governor may announce any award approved by the Committee.

§ 51.1-124.38. Investment of assets of the Virginia Research Investment Fund.

A. In addition to such other powers as shall be vested in the Board, the Board shall have the full power to invest, reinvest, and manage those portions of the Virginia Research Investment Fund (the Fund), established pursuant to Chapter 28 (§ 23-304 et seq.) of Title 23, designated by the General Assembly for investment by the Board pursuant to subsection B of § 23-305. The Board shall maintain a separate accounting for the assets of the Fund invested with it. The Board shall make an annual distribution of such invested moneys to the Comptroller pursuant to subdivision B of § 23-305.

B. The Board shall invest the assets of the Fund with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims. The Board shall also diversify such investments so as to minimize the risk of large losses unless under the circumstances it is clearly prudent not to do so.

C. No officer, director, or member of the Board or of any advisory committee of the Retirement System or any of its tax-exempt subsidiary corporations whose actions are within the standard of care set forth in subsection B shall be held personally liable for losses suffered by the Retirement System on investments made under the authority of this section.

D. The provisions of §§ 51.1-124.32, 51.1-124.33, 51.1-124.34, and 51.1-124.35 shall apply to the Board's activities with respect to moneys in the Fund.

E. The Board may assess the Virginia Research Investment Committee a reasonable administrative fee for its services.
