~~20. 19. To have police powers on all of the properties of the Authority within the Commonwealth, exercised through appointment of an armed conservator of the peace. The President president of the Authority may apply to the circuit court for any locality in which the Authority has property for the appointment of one or more special conservators of the peace under procedures specified by Chapter 2 (§ 19.2-12 et seq.) of Title 19.2 of the Code of Virginia or any successor provisions. Any such special conservator of the peace shall have, within the lands and facilities controlled by the Authority, the powers, functions, duties, responsibilities, and authority of any other armed conservator of the peace. Nothing in this section shall be construed to prevent the conservator of the peace currently serving Bristol Virginia Utilities from continuing as an armed special conservator of the peace for the Authority during the remainder of his term, if not removed for cause; and~~

~~20. To build or facilitate the building of, as the first broadband priority of the Authority, wired broadband infrastructure to serve residents in the Authority's lawful service area who are not served by any wired broadband service provider. The president of the Authority shall annually provide the Board with a report detailing (i) the number of requests for broadband services received from residents in unserved areas, (ii) the number of such requests for which the Authority has provided a connection to broadband services, and (iii) the costs of providing such broadband service.~~

~~B. The Authority is authorized to (i) operate only in Virginia and Tennessee; (ii) offer broadband services only in Sullivan County, Tennessee; the City of Bristol, Virginia; and Buchanan, Dickinson, Russell, Scott, Smyth, Tazewell, Washington, and Wythe Counties in Virginia, together with any towns located in such counties; and (iii) offer cable television services or other video services only within the electric utility service territory of Bristol Virginia Utilities as it existed on December 31, 2009, in the City of Bristol, Virginia, and Washington County.~~

~~C. Whenever any grant, loan, or application for such grant or loan includes or refers to funding for broadband deployment, the Authority shall ensure that (i) funds are allocated to the maximum extent possible to projects that expand broadband deployment to areas, residents, or businesses that are unserved by wired broadband; (ii) in any funding of grants for broadband deployment that include areas already served by wired broadband, such areas already served are incidental to and are crossed only for the purpose of reaching an unserved area; and (iii) any broadband network built will be operated on an open-access basis, available to multiple broadband providers, with dark fibers and capacity sufficient for competitive broadband providers to lease the same from the Authority at commercially reasonable rates.~~

~~D. The Authority shall not seek to become or establish a wireless service authority under the Virginia Wireless Service Authorities Act (§ 15.2-5431.1 et seq.) or contract for services with such an authority.~~

~~E. The Authority shall not solicit or contract with any locality or other entity possessing the power of eminent domain in order to cause such a third party to exercise its power of eminent domain to acquire any easements or other property where the Authority itself lacks such power.~~

~~F. The Authority shall not have the power to make charitable donations.~~

§ 15.2-7208. Powers.

~~The Unless limited elsewhere in this chapter, the Authority shall have those powers possessed by the City of Bristol necessary and convenient for the provision of electric, water and sanitary sewer services, and those powers possessed by the Bristol Virginia Utilities Board and the division of the city known as Bristol Virginia Utilities as they existed on July 1, 2001, in the Charter of the City of Bristol, Virginia, and the general laws of the Commonwealth. The Unless limited elsewhere in this chapter, the Authority shall also possess all those powers, subject to the limitations and restrictions thereon, as granted to the City, the Bristol Virginia Utilities Board, and BVU by Chapter 479 of the Acts of Assembly of 2002, Chapters 539, 546, and 677 of the Acts of Assembly 2003, Chapter 586 of the Acts of Assembly of 2004, Chapter 258 of the Acts of Assembly of 2005, Chapters 607 and 682 of the Acts of Assembly of 2007, and Chapters 99 and 323 of the Acts of Assembly of 2008.~~

§ 56-265.4:4. Certificate to operate as a telephone utility.

A. The Commission may grant certificates to competing telephone companies, or any county, city or

town that operates an electric distribution system, for interexchange service where it finds that such action is justified by public interest, and is in accordance with such terms, conditions, limitations, and restrictions as may be prescribed by the Commission for competitive telecommunications services. A certificate to provide interexchange services shall not authorize the holder to provide local exchange services. The Commission may grant a certificate to a carrier, or any county, city or town that operates an electric distribution system, to furnish local exchange services as provided in subsection B.

B. 1. After notice to all local exchange carriers certificated in the Commonwealth and other interested parties and following an opportunity for hearing, the Commission may grant certificates to any telephone company, or any county, city or town that operates an electric distribution system, proposing to furnish local exchange telephone service in the Commonwealth. In determining whether to grant a certificate under this subsection, the Commission may require that the applicant show that it possesses sufficient technical, financial, and managerial resources. Before granting any such certificate, the Commission shall: (i) consider whether such action reasonably protects the affordability of basic local exchange telephone service, as such service is defined by the Commission, and reasonably assures the continuation of quality local exchange telephone service; and (ii) find that such action will not unreasonably prejudice or disadvantage any class of telephone company customers or telephone service providers, including the new entrant and any incumbent local exchange telephone company, and is in the public interest. Except as provided in subsection A of § 15.2-2160, all local exchange certificates granted by the Commission after July 1, 2002, shall be to provide service in any territory in the Commonwealth unless the applicant specifically requests a different certificated service territory. The Commission shall amend the certificated service territory of each local exchange carrier that was previously certificated to provide service in only part of the Commonwealth to permit such carrier's provision of local exchange service throughout the Commonwealth beginning on September 1, 2002, unless that local exchange carrier notifies the Commission prior to September 1, 2002, that it elects to retain its existing certificated service territory. A local exchange carrier shall only be considered an incumbent in any certificated service territory in which it was considered an incumbent prior to July 1, 2002, except that the Commission may make changes to a local exchange carrier's incumbent certificated service territory at the request of those incumbent local exchange carriers that are directly involved in a proposed change in the certificated service territory.

2. A Commission order, including appropriate findings of fact and conclusions of law, denying or approving, with or without modification, an application for certification of a new entrant shall be entered no more than 180 days from the filing of the application, except that the Commission, upon notice to all parties in interest, may extend that period in additional 30-day increments not to exceed an additional 90 days in all.

3. The Commission shall (i) promote and seek to assure the provision of competitive services to all classes of customers throughout all geographic areas of the Commonwealth by a variety of service providers; (ii) require equity in the treatment of the certificated local exchange telephone companies so as to encourage competition based on service, quality, and price differences between alternative providers; (iii) consider the impact on competition of any government-imposed restrictions limiting the markets to be served or the services offered by any provider; (iv) determine the form of rate regulation, if any, for the local exchange services to be provided by the applicant and, upon application, the form of rate regulation for the comparable services of the incumbent local exchange telephone company provided in the geographical area to be served by the applicant; and (v) promulgate standards to assure that there is no cross-subsidization of the applicant's competitive local exchange telephone services by any other of its services over which it has a monopoly, whether or not those services are telephone services. The Commission shall also adopt safeguards to ensure that the prices charged and the revenue received by a county, city or town for providing telecommunications services shall not be cross-subsidized from other revenues of the county, city or town or affiliated entities, except (i) in areas where no offers exist from for-profit providers of such telecommunications services, or (ii) as authorized pursuant to subdivision 5 of this subsection.

4. The Commission shall discharge the responsibilities of state commissions as set forth in the federal Telecommunications Act of 1996 (P.L. 104-104) (the Act) and applicable law and regulations, including, but not limited to, the arbitration of interconnection agreements between local exchange carriers; however, the Commission may exercise its discretion to defer selected issues under the Act. If the Commission incurs additional costs in arbitrating such agreements or resolving related legal actions or disputes that cannot be recovered through the maximum levy authorized pursuant to § 58.1-2660, that levy shall be increased above the levy authorized by that section to the extent necessary to recover such additional costs.

5. Upon the Commission's granting of a certificate to a county, city or town under this section, such county, city, or town (i) shall be subject to regulation by the Commission for intrastate telecommunications services, (ii) shall have the same duties and obligations as other certificated

920 providers of telecommunications services, (iii) shall separately account for the revenues, expenses,
921 property, and source of investment dollars associated with the provision of such services, and (iv) to
922 ensure that there is no unreasonable advantage gained from a government agency's taxing authority and
923 control of government-owned land, shall charge an amount for such services that (a) does not include
924 any subsidies, unless approved by the Commission, and (b) takes into account, by imputation or
925 allocation, equivalent charges for all taxes, pole rentals, rights of way, licenses, and similar costs
926 incurred by for-profit providers. Each certificated county, city, or town that provides telecommunications
927 services regulated by the Commission shall file an annual report with the Commission demonstrating
928 that the requirements of clauses (iii) and (iv) of this subdivision have been met. The Commission may
929 approve a subsidy under this section if deemed to be in the public interest and provided that such
930 subsidy does not result in a price for the service lower than the price for the same service charged by
931 the incumbent provider in the area.

932 6. A locality that has obtained a certificate pursuant to this section shall (i) comply with all
933 applicable laws and regulations for the provision of telecommunications services; (ii) make a reasonable
934 estimate of the amount of all federal, state, and local taxes (including income taxes and consumer utility
935 taxes) that would be required to be paid or collected for each fiscal year if the locality were a for-profit
936 provider of telecommunications services, (iii) prepare reasonable estimates of the amount of any
937 franchise fees and other state and local fees (including permit fees and pole rental fees), and
938 right-of-way charges that would be incurred in each fiscal year if the locality were a for-profit provider
939 of telecommunications services, (iv) prepare and publish annually financial statements in accordance
940 with generally accepted accounting principles showing the results of operations of its provision of
941 telecommunications services, and (v) maintain records demonstrating compliance with the provisions of
942 this section that shall be made available for inspection and copying pursuant to the Virginia Freedom of
943 Information Act (§ 2.2-3700 et seq.).

944 7. Each locality that has obtained a certificate pursuant to this section shall provide nondiscriminatory
945 access to for-profit providers of telecommunications services on a first-come, first-served basis to
946 rights-of-way, poles, conduits or other permanent distribution facilities owned, leased or operated by the
947 locality unless the facilities have insufficient capacity for such access and additional capacity cannot
948 reasonably be added to the facilities.

949 8. The prices charged and the revenue received by a locality for providing telecommunications
950 services shall not be cross-subsidized by other revenues of the locality or affiliated entities, except (i) in
951 areas where no offers exist from for-profit providers of such telecommunications services, or (ii) as
952 permitted by the provisions of subdivision B 5. The provisions of this subdivision shall not apply to
953 Internet access, broadband, information, and data transmission services provided by any locality
954 providing telecommunications services on March 1, 2002, *except for an authority created pursuant to*
955 *the BVU Authority Act (§ 15.2-7200 et seq.).*

956 9. The Commission shall promulgate rules necessary to implement this section. In no event, however,
957 shall the rules necessary to implement ~~subdivisions B clauses (iii) and (iv) of subdivision 5 iii and iv, B~~
958 ~~clauses (ii) through (v) of subdivision 6 ii through v, and B subdivision 8~~ impose any obligations on a
959 locality that has obtained a certificate pursuant to this section, but is not yet providing
960 telecommunications services regulated by the Commission.

961 10. Public records of a locality that has obtained a certificate pursuant to this section, which records
962 contain confidential proprietary information or trade secrets pertaining to the provision of
963 telecommunications service, shall be exempt from disclosure under the Freedom of Information Act
964 (§ 2.2-3700 et seq.). As used in this subdivision, a public record contains confidential proprietary
965 information or trade secrets if its acquisition by a competing provider of telecommunications services
966 would provide the competing provider with a competitive benefit. *However, the exemption provided by*
967 *this subdivision shall not apply to any authority created pursuant to the BVU Authority Act (§ 15.2-7200*
968 *et seq.).*

969 C. Article 5.1 (§ 56-484.7:1 et seq.) of Chapter 15 of this title shall not apply to a county, city, or
970 town that has obtained a certificate pursuant to this section.

971 D. Any county, city, or town that has obtained a certificate pursuant to this section may construct,
972 own, maintain, and operate a fiber optic or communications infrastructure to provide consumers with
973 Internet services, data transmission services, and any other communications service that its infrastructure
974 is capable of delivering; provided, however, nothing in this subsection shall authorize the provision of
975 cable television services or other multi-channel video programming service. Furthermore, nothing in this
976 subsection shall alter the authority of the Commission.

977 E. Any county, city, or town that has obtained a certificate pursuant to this section and that had
978 installed a cable television headend prior to December 31, 2002, is authorized to own and operate a
979 cable television system or other multi-channel video programming service and shall be exempt from the
980 provisions of §§ 15.2-2108.4 through 15.2-2108.8. Nothing in this subsection shall authorize the
981 Commission to regulate cable television service.

- 982 2. That § 15.2-2108.18 of the Code of Virginia is repealed.
983 3. That this act shall not be construed to affect the contract of employment existing between the
984 BVU Authority or BVU Board of Directors and the Executive Vice-President and Chief Financial
985 Officer of the BVU Authority as of the effective date of this act.
986 4. That the members of the Board of Directors of the BVU Authority in office on June 30, 2016,
987 are hereby removed from office as of July 1, 2016. Notwithstanding the appointment of any
988 director on or before July 1, 2010, or of his successor, any term of office begun before July 1,
989 2016, and scheduled to end after that date is hereby terminated.
990 5. That no later than July 1, 2016, the Auditor of Public Accounts shall examine the accounts and
991 books of the BVU Authority.
992 6. That an emergency exists and this act is in force from its passage.
