The bill also exempts private homes or farms that meet the same conditions from examinations conducted by the State Health Commissioner of establishments in which crustacea, finfish, and shellfish are handled.

**6. Budget Amendment Necessary:** Yes, Item 97 of HB30. A language amendment to exclude home-based food operations from the annual inspection fee is necessary.

**8. Fiscal Implications:** In accordance with Item 94 of Chapter 665, 2015 Acts of Assembly, the Department of Agriculture and Consumer Services collects an annual food establishment registration fee of \$40.00 from food establishments that are subject to inspection. HB30 continues this requirement. Currently, at least 1,100 home kitchen food manufacturers are successfully operating in Virginia with state government oversight and pay the annual fee. The proposed legislation will exempt home and farm establishments from the obligation to pay the fee resulting in a potential nongeneral fund revenue loss of approximately \$44,000

annually. To be consistent with the proposed legislation, the language amendment under Item 97 of HB30 (see item 6, above) is necessary.

The food establishment registration is used for costs associated with investigations of consumer complaints and disease reports. The Department of Agriculture and Consumer Services' food safety program will continue to be required to investigate consumer complaints and disease reports concerning exempt establishments without collecting a fee to offset this cost. The Department of Health does not anticipate any fiscal impact as a result of this legislation.

**9. Specific Agency or Political Subdivisions Affected:** Department of Agriculture and Consumer Services; Department of Health; localities.
