

VIRGINIA ACTS OF ASSEMBLY — CHAPTER

An Act to amend and reenact § 54.1-3408 of the Code of Virginia, relating to dispensing of naloxone; patient-specific order not required.

[H 1750]

Approved

Be it enacted by the General Assembly of Virginia:

1. That § 54.1-3408 of the Code of Virginia is amended and reenacted as follows:

§ 54.1-3408. Professional use by practitioners.

A. A practitioner of medicine, osteopathy, podiatry, dentistry, or veterinary medicine or a licensed nurse practitioner pursuant to § 54.1-2957.01, a licensed physician assistant pursuant to § 54.1-2952.1, or a TPA-certified optometrist pursuant to Article 5 (§ 54.1-3222 et seq.) of Chapter 32 shall only prescribe, dispense, or administer controlled substances in good faith for medicinal or therapeutic purposes within the course of his professional practice.

B. The prescribing practitioner's order may be on a written prescription or pursuant to an oral prescription as authorized by this chapter. The prescriber may administer drugs and devices, or he may cause drugs or devices to be administered by:

1. A nurse, physician assistant, or intern under his direction and supervision;

2. Persons trained to administer drugs and devices to patients in state-owned or state-operated hospitals or facilities licensed as hospitals by the Board of Health or psychiatric hospitals licensed by the Department of Behavioral Health and Developmental Services who administer drugs under the control and supervision of the prescriber or a pharmacist;

3. Emergency medical services personnel certified and authorized to administer drugs and devices pursuant to regulations of the Board of Health who act within the scope of such certification and pursuant to an oral or written order or standing protocol; or

4. A licensed respiratory therapist as defined in § 54.1-2954 who administers by inhalation controlled substances used in inhalation or respiratory therapy.

C. Pursuant to an oral or written order or standing protocol, the prescriber, who is authorized by state or federal law to possess and administer radiopharmaceuticals in the scope of his practice, may authorize a nuclear medicine technologist to administer, under his supervision, radiopharmaceuticals used in the diagnosis or treatment of disease.

D. Pursuant to an oral or written order or standing protocol issued by the prescriber within the course of his professional practice, such prescriber may authorize registered nurses and licensed practical nurses to possess (i) epinephrine and oxygen for administration in treatment of emergency medical conditions and (ii) heparin and sterile normal saline to use for the maintenance of intravenous access lines.

Pursuant to the regulations of the Board of Health, certain emergency medical services technicians may possess and administer epinephrine in emergency cases of anaphylactic shock.

Pursuant to an order or standing protocol issued by the prescriber within the course of his professional practice, any school nurse, school board employee, employee of a local governing body, or employee of a local health department who is authorized by a prescriber and trained in the administration of epinephrine may possess and administer epinephrine.

Pursuant to an order or a standing protocol issued by the prescriber within the course of his professional practice, any employee of a school for students with disabilities, as defined in § 22.1-319 and licensed by the Board of Education, or any employee of a private school that is accredited pursuant to § 22.1-19 as administered by the Virginia Council for Private Education who is authorized by a prescriber and trained in the administration of epinephrine may possess and administer epinephrine.

Pursuant to an order issued by the prescriber within the course of his professional practice, an employee of a provider licensed by the Department of Behavioral Health and Developmental Services or a person providing services pursuant to a contract with a provider licensed by the Department of Behavioral Health and Developmental Services may possess and administer epinephrine, provided such person is authorized and trained in the administration of epinephrine.

Pursuant to an oral or written order or standing protocol issued by the prescriber within the course of his professional practice, such prescriber may authorize pharmacists to possess epinephrine and oxygen for administration in treatment of emergency medical conditions.

E. Pursuant to an oral or written order or standing protocol issued by the prescriber within the course of his professional practice, such prescriber may authorize licensed physical therapists to possess and

57 administer topical corticosteroids, topical lidocaine, and any other Schedule VI topical drug.

58 F. Pursuant to an oral or written order or standing protocol issued by the prescriber within the course
59 of his professional practice, such prescriber may authorize licensed athletic trainers to possess and
60 administer topical corticosteroids, topical lidocaine, or other Schedule VI topical drugs; oxygen for use
61 in emergency situations; and epinephrine for use in emergency cases of anaphylactic shock.

62 G. Pursuant to an oral or written order or standing protocol issued by the prescriber within the
63 course of his professional practice, and in accordance with policies and guidelines established by the
64 Department of Health pursuant to § 32.1-50.2, such prescriber may authorize registered nurses or
65 licensed practical nurses under the immediate and direct supervision of a registered nurse to possess and
66 administer tuberculin purified protein derivative (PPD) in the absence of a prescriber. The Department of
67 Health's policies and guidelines shall be consistent with applicable guidelines developed by the Centers
68 for Disease Control and Prevention for preventing transmission of mycobacterium tuberculosis and shall
69 be updated to incorporate any subsequently implemented standards of the Occupational Safety and
70 Health Administration and the Department of Labor and Industry to the extent that they are inconsistent
71 with the Department of Health's policies and guidelines. Such standing protocols shall explicitly describe
72 the categories of persons to whom the tuberculin test is to be administered and shall provide for
73 appropriate medical evaluation of those in whom the test is positive. The prescriber shall ensure that the
74 nurse implementing such standing protocols has received adequate training in the practice and principles
75 underlying tuberculin screening.

76 The Health Commissioner or his designee may authorize registered nurses, acting as agents of the
77 Department of Health, to possess and administer, at the nurse's discretion, tuberculin purified protein
78 derivative (PPD) to those persons in whom tuberculin skin testing is indicated based on protocols and
79 policies established by the Department of Health.

80 H. Pursuant to a written order or standing protocol issued by the prescriber within the course of his
81 professional practice, such prescriber may authorize, with the consent of the parents as defined in
82 § 22.1-1, an employee of (i) a school board, (ii) a school for students with disabilities as defined in
83 § 22.1-319 licensed by the Board of Education, or (iii) a private school accredited pursuant to § 22.1-19
84 as administered by the Virginia Council for Private Education who is trained in the administration of
85 insulin and glucagon to assist with the administration of insulin or administer glucagon to a student
86 diagnosed as having diabetes and who requires insulin injections during the school day or for whom
87 glucagon has been prescribed for the emergency treatment of hypoglycemia. Such authorization shall
88 only be effective when a licensed nurse, nurse practitioner, physician, or physician assistant is not
89 present to perform the administration of the medication.

90 Pursuant to a written order issued by the prescriber within the course of his professional practice,
91 such prescriber may authorize an employee of a provider licensed by the Department of Behavioral
92 Health and Developmental Services or a person providing services pursuant to a contract with a provider
93 licensed by the Department of Behavioral Health and Developmental Services to assist with the
94 administration of insulin or to administer glucagon to a person diagnosed as having diabetes and who
95 requires insulin injections or for whom glucagon has been prescribed for the emergency treatment of
96 hypoglycemia, provided such employee or person providing services has been trained in the
97 administration of insulin and glucagon.

98 I. A prescriber may authorize, pursuant to a protocol approved by the Board of Nursing, the
99 administration of vaccines to adults for immunization, when a practitioner with prescriptive authority is
100 not physically present, by (i) licensed pharmacists, (ii) registered nurses, or (iii) licensed practical nurses
101 under the immediate and direct supervision of a registered nurse. A prescriber acting on behalf of and in
102 accordance with established protocols of the Department of Health may authorize the administration of
103 vaccines to any person by a pharmacist, nurse, or designated emergency medical services provider who
104 holds an advanced life support certificate issued by the Commissioner of Health under the direction of
105 an operational medical director when the prescriber is not physically present. The emergency medical
106 services provider shall provide documentation of the vaccines to be recorded in the Virginia
107 Immunization Information System.

108 J. A dentist may cause Schedule VI topical drugs to be administered under his direction and
109 supervision by either a dental hygienist or by an authorized agent of the dentist.

110 Further, pursuant to a written order and in accordance with a standing protocol issued by the dentist
111 in the course of his professional practice, a dentist may authorize a dental hygienist under his general
112 supervision, as defined in § 54.1-2722, to possess and administer topical oral fluorides, topical oral
113 anesthetics, topical and directly applied antimicrobial agents for treatment of periodontal pocket lesions,
114 as well as any other Schedule VI topical drug approved by the Board of Dentistry.

115 In addition, a dentist may authorize a dental hygienist under his direction to administer Schedule VI
116 nitrous oxide and oxygen inhalation analgesia and, to persons 18 years of age or older, Schedule VI
117 local anesthesia.

K. Pursuant to an oral or written order or standing protocol issued by the prescriber within the course of his professional practice, such prescriber may authorize registered professional nurses certified as sexual assault nurse examiners-A (SANE-A) under his supervision and when he is not physically present to possess and administer preventive medications for victims of sexual assault as recommended by the Centers for Disease Control and Prevention.

L. This section shall not prevent the administration of drugs by a person who has satisfactorily completed a training program for this purpose approved by the Board of Nursing and who administers such drugs in accordance with a prescriber's instructions pertaining to dosage, frequency, and manner of administration, and in accordance with regulations promulgated by the Board of Pharmacy relating to security and record keeping, when the drugs administered would be normally self-administered by (i) an individual receiving services in a program licensed by the Department of Behavioral Health and Developmental Services; (ii) a resident of the Virginia Rehabilitation Center for the Blind and Vision Impaired; (iii) a resident of a facility approved by the Board or Department of Juvenile Justice for the placement of children in need of services or delinquent or alleged delinquent youth; (iv) a program participant of an adult day-care center licensed by the Department of Social Services; (v) a resident of any facility authorized or operated by a state or local government whose primary purpose is not to provide health care services; (vi) a resident of a private children's residential facility, as defined in § 63.2-100 and licensed by the Department of Social Services, Department of Education, or Department of Behavioral Health and Developmental Services; or (vii) a student in a school for students with disabilities, as defined in § 22.1-319 and licensed by the Board of Education.

In addition, this section shall not prevent a person who has successfully completed a training program for the administration of drugs via percutaneous gastrostomy tube approved by the Board of Nursing and been evaluated by a registered nurse as having demonstrated competency in administration of drugs via percutaneous gastrostomy tube from administering drugs to a person receiving services from a program licensed by the Department of Behavioral Health and Developmental Services to such person via percutaneous gastrostomy tube. The continued competency of a person to administer drugs via percutaneous gastrostomy tube shall be evaluated semiannually by a registered nurse.

M. Medication aides registered by the Board of Nursing pursuant to Article 7 (§ 54.1-3041 et seq.) of Chapter 30 may administer drugs that would otherwise be self-administered to residents of any assisted living facility licensed by the Department of Social Services. A registered medication aide shall administer drugs pursuant to this section in accordance with the prescriber's instructions pertaining to dosage, frequency, and manner of administration; in accordance with regulations promulgated by the Board of Pharmacy relating to security and recordkeeping; in accordance with the assisted living facility's Medication Management Plan; and in accordance with such other regulations governing their practice promulgated by the Board of Nursing.

N. In addition, this section shall not prevent the administration of drugs by a person who administers such drugs in accordance with a physician's instructions pertaining to dosage, frequency, and manner of administration and with written authorization of a parent, and in accordance with school board regulations relating to training, security and record keeping, when the drugs administered would be normally self-administered by a student of a Virginia public school. Training for such persons shall be accomplished through a program approved by the local school boards, in consultation with the local departments of health.

O. In addition, this section shall not prevent the administration of drugs by a person to (i) a child in a child day program as defined in § 63.2-100 and regulated by the State Board of Social Services or a local government pursuant to § 15.2-914, or (ii) a student of a private school that is accredited pursuant to § 22.1-19 as administered by the Virginia Council for Private Education, provided such person (a) has satisfactorily completed a training program for this purpose approved by the Board of Nursing and taught by a registered nurse, licensed practical nurse, nurse practitioner, physician assistant, doctor of medicine or osteopathic medicine, or pharmacist; (b) has obtained written authorization from a parent or guardian; (c) administers drugs only to the child identified on the prescription label in accordance with the prescriber's instructions pertaining to dosage, frequency, and manner of administration; and (d) administers only those drugs that were dispensed from a pharmacy and maintained in the original, labeled container that would normally be self-administered by the child or student, or administered by a parent or guardian to the child or student.

P. In addition, this section shall not prevent the administration or dispensing of drugs and devices by persons if they are authorized by the State Health Commissioner in accordance with protocols established by the State Health Commissioner pursuant to § 32.1-42.1 when (i) the Governor has declared a disaster or a state of emergency or the United States Secretary of Health and Human Services has issued a declaration of an actual or potential bioterrorism incident or other actual or potential public health emergency; (ii) it is necessary to permit the provision of needed drugs or devices; and (iii) such persons have received the training necessary to safely administer or dispense the needed drugs or

179 devices. Such persons shall administer or dispense all drugs or devices under the direction, control, and
180 supervision of the State Health Commissioner.

181 Q. Nothing in this title shall prohibit the administration of normally self-administered drugs by
182 unlicensed individuals to a person in his private residence.

183 R. This section shall not interfere with any prescriber issuing prescriptions in compliance with his
184 authority and scope of practice and the provisions of this section to a Board agent for use pursuant to
185 subsection G of § 18.2-258.1. Such prescriptions issued by such prescriber shall be deemed to be valid
186 prescriptions.

187 S. Nothing in this title shall prevent or interfere with dialysis care technicians or dialysis patient care
188 technicians who are certified by an organization approved by the Board of Health Professions or persons
189 authorized for provisional practice pursuant to Chapter 27.01 (§ 54.1-2729.1 et seq.), in the ordinary
190 course of their duties in a Medicare-certified renal dialysis facility, from administering heparin, topical
191 needle site anesthetics, dialysis solutions, sterile normal saline solution, and blood volumizers, for the
192 purpose of facilitating renal dialysis treatment, when such administration of medications occurs under the
193 orders of a licensed physician, nurse practitioner, or physician assistant and under the immediate and
194 direct supervision of a licensed registered nurse. Nothing in this chapter shall be construed to prohibit a
195 patient care dialysis technician trainee from performing dialysis care as part of and within the scope of
196 the clinical skills instruction segment of a supervised dialysis technician training program, provided such
197 trainee is identified as a "trainee" while working in a renal dialysis facility.

198 The dialysis care technician or dialysis patient care technician administering the medications shall
199 have demonstrated competency as evidenced by holding current valid certification from an organization
200 approved by the Board of Health Professions pursuant to Chapter 27.01 (§ 54.1-2729.1 et seq.).

201 T. Persons who are otherwise authorized to administer controlled substances in hospitals shall be
202 authorized to administer influenza or pneumococcal vaccines pursuant to § 32.1-126.4.

203 U. Pursuant to a specific order for a patient and under his direct and immediate supervision, a
204 prescriber may authorize the administration of controlled substances by personnel who have been
205 properly trained to assist a doctor of medicine or osteopathic medicine, provided the method does not
206 include intravenous, intrathecal, or epidural administration and the prescriber remains responsible for
207 such administration.

208 V. A physician assistant, nurse or a dental hygienist may possess and administer topical fluoride
209 varnish to the teeth of children aged six months to three years pursuant to an oral or written order or a
210 standing protocol issued by a doctor of medicine, osteopathic medicine, or dentistry that conforms to
211 standards adopted by the Department of Health.

212 W. A prescriber, acting in accordance with guidelines developed pursuant to § 32.1-46.02, may
213 authorize the administration of influenza vaccine to minors by a licensed pharmacist, registered nurse,
214 licensed practical nurse under the direction and immediate supervision of a registered nurse, or
215 emergency medical services provider who holds an advanced life support certificate issued by the
216 Commissioner of Health when the prescriber is not physically present.

217 X. Notwithstanding the provisions of § 54.1-3303, pursuant to an oral, written, or standing order
218 issued by a prescriber *or a standing order issued by the Commissioner of Health or his designee*
219 *authorizing the dispensing of naloxone or other opioid antagonist used for overdose reversal in the*
220 *absence of an oral or written order for a specific patient issued by a prescriber*, and in accordance with
221 protocols developed by the Board of Pharmacy in consultation with the Board of Medicine and the
222 Department of Health, a pharmacist may dispense naloxone or other opioid antagonist used for overdose
223 reversal and a person may possess and administer naloxone or other opioid antagonist used for overdose
224 reversal to a person who is believed to be experiencing or about to experience a life-threatening opiate
225 overdose. Law-enforcement officers as defined in § 9.1-101 and firefighters who have completed a
226 training program may also possess and administer naloxone in accordance with protocols developed by
227 the Board of Pharmacy in consultation with the Board of Medicine and the Department of Health.
