

17101318D

**HOUSE BILL NO. 1982**

Offered January 11, 2017

Prefiled January 10, 2017

A *BILL to amend and reenact § 22.1-253.13:4 of the Code of Virginia, relating to high school graduation requirements; verified units of credit; satisfactory score on the PSAT examination.*

Patron—Greason

Referred to Committee on Education

**Be it enacted by the General Assembly of Virginia:****1. That § 22.1-253.13:4 of the Code of Virginia is amended and reenacted as follows:****§ 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.**

A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who meet the requirements prescribed by the Board of Education and meet such other requirements as may be prescribed by the local school board and approved by the Board of Education. Provisions shall be made to facilitate the transfer and appropriate grade placement of students from other public secondary schools, from nonpublic schools, or from home instruction as outlined in the standards for accreditation. The standards for accreditation shall include provisions relating to the completion of graduation requirements through Virtual Virginia. Further, reasonable accommodation to meet the requirements for diplomas shall be provided for otherwise qualified students with disabilities as needed.

In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school students, a mechanism for calculating class rankings that takes into consideration whether the student has taken a required class more than one time and has had any prior earned grade for such required class expunged.

Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) the requirements for graduation pursuant to the standards for accreditation and (ii) the requirements that have yet to be completed by the individual student.

B. Students identified as disabled who complete the requirements of their individualized education programs and meet certain requirements prescribed by the Board pursuant to regulations but do not meet the requirements for any named diploma shall be awarded Applied Studies diplomas by local school boards.

Each local school board shall notify the parent of such students with disabilities who have an individualized education program and who fail to meet the graduation requirements of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ 22.1-213 et seq.) of Chapter 13.

C. Students who have completed a prescribed course of study as defined by the local school board shall be awarded certificates of program completion by local school boards if they are not eligible to receive a Board of Education-approved diploma.

Each local school board shall provide notification of the right to a free public education for students who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 (§ 22.1-1 et seq.), to the parent of students who fail to graduate or who have failed to achieve graduation requirements as provided in the standards for accreditation. If such student who does not graduate or complete such requirements is a student for whom English is a second language, the local school board shall notify the parent of the student's opportunity for a free public education in accordance with § 22.1-5.

D. (For expiration date, see Acts 2016, cc. 720 and 750) In establishing course and credit requirements for a high school diploma, the Board shall:

1. Provide for the selection of integrated learning courses meeting the Standards of Learning and approved by the Board to satisfy graduation credit requirements, which shall include Standards of Learning testing, as necessary.

2. Establish the requirements for a standard and an advanced studies high school diploma, which shall each include at least one credit in fine or performing arts or career and technical education and one credit in United States and Virginia history. The requirements for a standard high school diploma shall, however, include at least two sequential electives chosen from a concentration of courses selected from a variety of options that may be planned to ensure the completion of a focused sequence of elective courses. Such focused sequence of elective courses shall provide a foundation for further education or training or preparation for employment. The advanced studies diploma shall be the recommended

INTRODUCED

HB1982

59 diploma for students pursuing baccalaureate study. Both the standard and the advanced studies diploma  
60 shall prepare students for post-secondary education and the career readiness required by the  
61 Commonwealth's economy.

62 Beginning with first-time ninth grade students in the 2013-2014 school year, requirements for the  
63 standard diploma shall include a requirement to earn a career and technical education credential that has  
64 been approved by the Board, except when a career and technical education credential in a particular  
65 subject area is not readily available or appropriate or does not adequately measure student competency,  
66 in which case the student shall receive satisfactory competency-based instruction in the subject area to  
67 satisfy the standard diploma requirements. The career and technical education credential, when required,  
68 could include the successful completion of an industry certification, a state licensure examination, a  
69 national occupational competency assessment, or the Virginia workplace readiness skills assessment.

70 Beginning with first-time ninth grade students in the 2016-2017 school year, requirements for the  
71 standard and advanced diplomas shall include a requirement to be trained in emergency first aid,  
72 cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on  
73 practice of the skills necessary to perform cardiopulmonary resuscitation.

74 The Board shall make provision in its regulations for students with disabilities to earn a standard  
75 diploma.

76 3. Provide, in the requirements to earn a standard or advanced studies diploma, the successful  
77 completion of one virtual course. The virtual course may be a noncredit-bearing course.

78 4. Provide, in the requirements for the verified units of credit stipulated for obtaining the standard or  
79 advanced studies diploma, that students completing elective classes into which the Standards of Learning  
80 for any required course have been integrated may take the relevant Standards of Learning test for the  
81 relevant required course and receive, upon achieving a satisfactory score on the specific Standards of  
82 Learning assessment, a verified unit of credit for such elective class that shall be deemed to satisfy the  
83 Board's requirement for verified credit for the required course.

84 5. Establish a procedure to facilitate the acceleration of students that allows qualified students, with  
85 the recommendation of the division superintendent, without completing the 140-hour class, to obtain  
86 credit for such class upon demonstration of mastery of the course content and objectives. Having  
87 received credit for the course, the student shall be permitted to sit for the relevant Standards of Learning  
88 assessment and, upon receiving a passing score, shall earn a verified credit. Nothing in this section shall  
89 preclude relevant school division personnel from enforcing compulsory attendance in public schools.

90 6. Provide for the award of verified units of credit for passing scores on industry certifications, state  
91 licensure examinations, and national occupational competency assessments approved by the Board of  
92 Education.

93 School boards shall report annually to the Board of Education the number of Board-approved  
94 industry certifications obtained, state licensure examinations passed, national occupational competency  
95 assessments passed, Virginia workplace readiness skills assessments passed, and the number of career  
96 and technical education completers who graduated. These numbers shall be reported as separate  
97 categories on the School Performance Report Card.

98 For the purposes of this subdivision, "career and technical education completer" means a student who  
99 has met the requirements for a career and technical concentration or specialization and all requirements  
100 for high school graduation or an approved alternative education program.

101 In addition, the Board may:

102 a. For the purpose of awarding verified units of credit, approve the use of additional or substitute  
103 tests for the correlated Standards of Learning assessment, such as academic achievement tests, industry  
104 certifications or state licensure examinations; and

105 b. Permit students completing career and technical education programs designed to enable such  
106 students to pass such industry certification examinations or state licensure examinations to be awarded,  
107 upon obtaining satisfactory scores on such industry certification or licensure examinations, the  
108 appropriate verified units of credit for one or more career and technical education classes into which  
109 relevant Standards of Learning for various classes taught at the same level have been integrated. Such  
110 industry certification and state licensure examinations may cover relevant Standards of Learning for  
111 various required classes and may, at the discretion of the Board, address some Standards of Learning for  
112 several required classes.

113 7. Provide for the waiver of certain graduation requirements (i) upon the Board's initiative or (ii) at  
114 the request of a local school board. Such waivers shall be granted only for good cause and shall be  
115 considered on a case-by-case basis.

116 8. Consider all computer science course credits earned by students to be science course credits,  
117 mathematics course credits, or career and technical education credits. The Board of Education shall  
118 develop guidelines addressing how computer science courses can satisfy graduation requirements.

119 9. Permit local school divisions to waive the requirement for students to receive 140 clock hours of  
120 instruction to earn a standard unit of credit upon providing the Board with satisfactory proof, based on

Board guidelines, that the students for whom such requirements are waived have learned the content and skills included in the relevant Standards of Learning.

10. *Provide for the award of verified units of credit for a satisfactory score on the Preliminary SAT (PSAT) examination.*

D. (For effective date, see Acts 2016, cc. 720 and 750) In establishing graduation requirements, the Board shall:

1. Develop and implement, in consultation with stakeholders representing elementary and secondary education, higher education, and business and industry in the Commonwealth and including parents, policymakers, and community leaders in the Commonwealth, a Profile of a Virginia Graduate that identifies the knowledge and skills that students should attain during high school in order to be successful contributors to the economy of the Commonwealth, giving due consideration to critical thinking, creative thinking, collaboration, communication, and citizenship.

2. Emphasize the development of core skill sets in the early years of high school.

3. Establish multiple paths toward college and career readiness for students to follow in the later years of high school. Each such pathway shall include opportunities for internships, externships, and credentialing.

4. Provide for the selection of integrated learning courses meeting the Standards of Learning and approved by the Board to satisfy graduation requirements, which shall include Standards of Learning testing, as necessary.

5. Require students to complete at least one course in fine or performing arts or career and technical education, one course in United States and Virginia history, and two sequential elective courses chosen from a concentration of courses selected from a variety of options that may be planned to ensure the completion of a focused sequence of elective courses that provides a foundation for further education or training or preparation for employment.

6. ~~Graduation requirements shall include a requirement~~ *Require* that students either (i) complete an Advanced Placement, honors, or International Baccalaureate course or (ii) earn a career and technical education credential that has been approved by the Board, except when a career and technical education credential in a particular subject area is not readily available or appropriate or does not adequately measure student competency, in which case the student shall receive satisfactory competency-based instruction in the subject area to earn credit. The career and technical education credential, when required, could include the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, or the Virginia workplace readiness skills assessment.

7. Beginning with first-time ninth grade students in the 2016-2017 school year, require students to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.

8. Make provision in its regulations for students with disabilities to earn a diploma.

9. Require students to complete one virtual course, which may be a noncredit-bearing course.

10. Provide that students who complete elective classes into which the Standards of Learning for any required course have been integrated and achieve a passing score on the relevant Standards of Learning test for the relevant required course receive credit for such elective class.

11. Establish a procedure to facilitate the acceleration of students that allows qualified students, with the recommendation of the division superintendent, without completing the 140-hour class, to obtain credit for such class upon demonstrating mastery of the course content and objectives and receiving a passing score on the relevant Standards of Learning assessment. Nothing in this section shall preclude relevant school division personnel from enforcing compulsory attendance in public schools.

12. Provide for the award of credit for passing scores on industry certifications, state licensure examinations, and national occupational competency assessments approved by the Board of Education.

School boards shall report annually to the Board of Education the number of Board-approved industry certifications obtained, state licensure examinations passed, national occupational competency assessments passed, Virginia workplace readiness skills assessments passed, and the number of career and technical education completers who graduated. These numbers shall be reported as separate categories on the School Performance Report Card.

For the purposes of this subdivision, "career and technical education completer" means a student who has met the requirements for a career and technical concentration or specialization and all requirements for high school graduation or an approved alternative education program.

In addition, the Board may:

a. For the purpose of awarding credit, approve the use of additional or substitute tests for the correlated Standards of Learning assessment, such as academic achievement tests, industry certifications or state licensure examinations; and

182 b. Permit students completing career and technical education programs designed to enable such  
183 students to pass such industry certification examinations or state licensure examinations to be awarded,  
184 upon obtaining satisfactory scores on such industry certification or licensure examinations, appropriate  
185 credit for one or more career and technical education classes into which relevant Standards of Learning  
186 for various classes taught at the same level have been integrated. Such industry certification and state  
187 licensure examinations may cover relevant Standards of Learning for various required classes and may,  
188 at the discretion of the Board, address some Standards of Learning for several required classes.

189 13. Provide for the waiver of certain graduation requirements (i) upon the Board's initiative or (ii) at  
190 the request of a local school board. Such waivers shall be granted only for good cause and shall be  
191 considered on a case-by-case basis.

192 14. Consider all computer science course credits earned by students to be science course credits,  
193 mathematics course credits, or career and technical education credits. The Board of Education shall  
194 develop guidelines addressing how computer science courses can satisfy graduation requirements.

195 15. Permit local school divisions to waive the requirement for students to receive 140 clock hours of  
196 instruction upon providing the Board with satisfactory proof, based on Board guidelines, that the  
197 students for whom such requirements are waived have learned the content and skills included in the  
198 relevant Standards of Learning.

199 16. *Provide for the award of verified units of credit for a satisfactory score on the Preliminary SAT*  
200 *(PSAT) examination.*

201 E. In the exercise of its authority to recognize exemplary performance by providing for diploma  
202 seals:

203 1. The Board shall develop criteria for recognizing exemplary performance in career and technical  
204 education programs by students who have completed the requirements for a Board of  
205 Education-approved diploma and shall award seals on the diplomas of students meeting such criteria.

206 2. The Board shall establish criteria for awarding a diploma seal for advanced mathematics and  
207 technology for the Board of Education-approved diplomas. The Board shall consider including criteria  
208 for (i) technology courses; (ii) technical writing, reading, and oral communication skills; (iii)  
209 technology-related training; and (iv) industry, professional, and trade association national certifications.

210 3. The Board shall establish criteria for awarding a diploma seal for excellence in civics education  
211 and understanding of our state and federal constitutions and the democratic model of government for the  
212 Board of Education-approved diplomas. The Board shall consider including criteria for (i) successful  
213 completion of history, government, and civics courses, including courses that incorporate character  
214 education; (ii) voluntary participation in community service or extracurricular activities that includes the  
215 types of activities that shall qualify as community service and the number of hours required; and (iii)  
216 related requirements as it deems appropriate.

217 4. The Board shall establish criteria for awarding a diploma seal of biliteracy to any student who  
218 demonstrates proficiency in English and at least one other language for the Board of Education-approved  
219 diplomas. The Board shall consider criteria including the student's (i) score on a College Board  
220 Advanced Placement foreign language examination, (ii) score on an SAT II Subject Test in a foreign  
221 language, (iii) proficiency level on an ACTFL Assessment of Performance toward Proficiency in  
222 Languages (AAPPL) measure or another nationally or internationally recognized language proficiency  
223 test, or (iv) cumulative grade point average in a sequence of foreign language courses approved by the  
224 Board.

225 F. The Board shall establish, by regulation, requirements for the award of a general achievement  
226 adult high school diploma for those persons who are not subject to the compulsory school attendance  
227 requirements of § 22.1-254 and have (i) achieved a passing score on a high school equivalency  
228 examination approved by the Board of Education; (ii) successfully completed an education and training  
229 program designated by the Board of Education; (iii) earned a Board of Education-approved career and  
230 technical education credential such as the successful completion of an industry certification, a state  
231 licensure examination, a national occupational competency assessment, or the Virginia workplace  
232 readiness skills assessment; and (iv) satisfied other requirements as may be established by the Board for  
233 the award of such diploma.

234 G. To ensure the uniform assessment of high school graduation rates, the Board shall collect,  
235 analyze, report, and make available to the public high school graduation and dropout data using a  
236 formula prescribed by the Board.

237 H. The Board shall also collect, analyze, report, and make available to the public high school  
238 graduation and dropout data using a formula that excludes any student who fails to graduate because  
239 such student is in the custody of the Department of Corrections, the Department of Juvenile Justice, or  
240 local law enforcement. For the purposes of the Standards of Accreditation, the Board shall use the  
241 graduation rate required by this subsection.

242 I. The Board may promulgate such regulations as may be necessary and appropriate for the  
243 collection, analysis, and reporting of such data required by subsections G and H.
