14	58.1-1707.1 as follows:
15 16	§ 3.2-6500. Definitions. As used in this chapter unless the context requires a different meaning:
17	"Abandon" means to desert, forsake, or absolutely give up an animal without having secured another
18	owner or custodian for the animal or by failing to provide the elements of basic care as set forth in §
19	3.2-6503 for a period of five consecutive days.
20	"Adequate care" or "care" means the responsible practice of good animal husbandry, handling,
21	production, management, confinement, feeding, watering, protection, shelter, transportation, treatment,
22	and, when necessary, euthanasia, appropriate for the age, species, condition, size and type of the animal
23	and the provision of veterinary care when needed to prevent suffering or impairment of health.
24 25	"Adequate exercise" or "exercise" means the opportunity for the animal to move sufficiently to maintain normal muscle tone and mass for the age, species, size, and condition of the animal.
25 26	"Adequate feed" means access to and the provision of food that is of sufficient quantity and nutritive
27	value to maintain each animal in good health; is accessible to each animal; is prepared so as to permit
28	ease of consumption for the age, species, condition, size and type of each animal; is provided in a clean
29	and sanitary manner; is placed so as to minimize contamination by excrement and pests; and is provided
30	at suitable intervals for the species, age, and condition of the animal, but at least once daily, except as
31	prescribed by a veterinarian or as dictated by naturally occurring states of hibernation or fasting normal
32 33	for the species.
33 34	"Adequate shelter" means provision of and access to shelter that is suitable for the species, age, condition, size, and type of each animal; provides adequate space for each animal; is safe and protects
35	each animal from injury, rain, sleet, snow, hail, direct sunlight, the adverse effects of heat or cold,
36	physical suffering, and impairment of health; is properly lighted; is properly cleaned; enables each
37	animal to be clean and dry, except when detrimental to the species; and, for dogs and cats, provides a
38	solid surface, resting platform, pad, floormat, or similar device that is large enough for the animal to lie

50 51	except when the animal is being walked on a leash or is attached by a tether to a lead line. When

53	the animal according to professionally accepted standards for the species is considered provision of
54	adequate space.
55	"Adequate water" means provision of and access to clean, fresh, potable water of a drinkable
