Sales Tax Holidays

Legislation in the 2015 General Assembly Session combined the three separate sales tax holidays for hurricane preparedness, school supplies and clothing, and Energy Star and WaterSense products into one annual three-day holiday. The holidays are scheduled to expire on July 1, 2017.

Sales Tax Holiday for School Supplies and Clothing

The sales tax holiday for school supplies and clothing was originally enacted in 2006. School supply items, including dictionaries, notebooks, pens, pencils, notebook paper, calculators, and similar items, can be purchased exempt of the Retail Sales and Use Tax, provided that the sales price for each item does not exceed \$20. Articles of clothing with a sales price of \$100 or less per item are also exempt during the holiday period.

Hurricane Preparedness Sales Tax Holiday

The Hurricane Preparedness Sales Tax Holiday was enacted in 2007. Items eligible for the hurricane preparedness exemption during the holiday include portable generators with a selling price of \$1,000 or less per item, gas-powered chainsaws with a sales price of \$350 or less per item, and additional hurricane preparedness equipment, such as carbon monoxide detectors, batteries, radios, and fuel tanks with a selling price of \$60 or less per item.

Energy Star and WaterSense Sales Tax Holiday

The Energy Star Sales Tax Holiday was enacted in 2007 and expanded in 2008 to include qualifying WaterSense items. Qualifying items must be purchased for noncommercial, residential use, and the sales price for each qualifying item must not exceed \$2,500.

Energy Star qualified products include any dishwasher, clothes washer, air conditioner, ceiling fan, compact fluorescent light bulb, dehumidifier, programmable thermostat, or refrigerator, the energy efficiency of which has been designated by the United States Environmental Protection Agency and the United States Department of Energy as meeting or exceeding each such agency's requirements under the Energy Star program. WaterSense qualified products are defined as those products that have been recognized as being water efficient by the WaterSense program, as indicated by a WaterSense label. Qualifying items include bathroom sink faucets, faucet accessories, toilets, showerheads, urinals, and landscape irrigation controllers.

Proposal

This bill would extend the sunset date from July 1, 2017 to July 1, 2022 for the combined sales tax holidays for school supplies and clothing, Energy Star and WaterSense products, and hurricane preparedness products.

The effective date of this bill is not specified.

Similar Legislation

Senate Bill 1018 is identical to this bill.

Senate Bill 1336 would expand the items qualifying for exemption during the sales tax holiday for school supplies and clothing to include laptop, desktop, and tablet computers with a maximum sales price of \$700. The bill would exclude portable generators with a maximum sales price of \$1,000 from the items qualifying for hurricane preparedness sales tax holiday.
