Second House	<input checked="" type="checkbox"/> In Committee	<input type="checkbox"/> Substitute	<input type="checkbox"/> Enrolled

2. Patron: Kilgore

3. Committee: Commerce and Labor

4. Title: Renewable energy power purchase agreements; pilot programs.

5. Summary: Renewable energy power purchase agreements; pilot programs. Expands the pilot program for renewable energy power purchase agreements authorized under legislation enacted in 2013 by directing that a pilot program be conducted by Appalachian Power. Currently, a pilot program is authorized only within Dominion Power's service territory. The measure provides that within the certificated service territory of Appalachian Power, nonprofit, private institutions of higher education that are not being served under a specific renewable generation tariff provision are deemed to be customer-generators eligible to participate in the pilot program, without the requirement that they participate in the utility's net energy metering program. The aggregated capacity of all generation facilities that are subject to third party power purchase agreements in Appalachian Power's pilot program is capped at 7 megawatts.
