8. Fiscal Implications: This bill requires local Departments of Social Services to collect alternative contact information and the preferred method of contact from applicants for public assistance, which will require one-time systems modifications to the Virginia Case Management System (VaCMS) and CommonHelp. There will also be additional one-time costs associated with changes to the Department's centralized printing contract.

The agency estimates that the total cost to implement this legislation is \$282,800 in FY 2018. Because the proposed changes would affect state-administered federal programs, there is a federal match of 60 percent of the total cost (\$93,120 GF / \$139,680 NGF).
