2. Patron: Dunnavant

3. Committee: Passed Both Houses

4. Title: Issuance of a driver's license or learner's permit; minimum standards for vision tests.

5. Summary: The bill increases the minimum visual acuity an applicant must possess for issuance of a driver's license or learner's permit from a field of 100 degrees of horizontal vision in one or both eyes to a field of 110 degrees of horizontal vision in one or both eyes.

6. Budget Amendment Necessary: No.

7. Fiscal Impact Estimates: Final. See Item #8.

8. Fiscal Implications: The bill increases the minimum visual acuity an applicant must possess for issuance of a driver's license or learner's permit from a field of 100 degrees of horizontal vision in one or both eyes to a field of 110 degrees of horizontal vision in one or both eyes. Currently, there are 643 visual screening machines in use at Department of Motor Vehicles (DMV) Customer Service Centers (CSCs), Mobile units, and DMV Connect. The machines utilized for vision screenings have a setting that will allow for measuring a customer's visual field of 110 degrees when there is vision in one or both eyes. The agency will not need to purchase new vision screening machines to implement the bill.

9. Specific Agency or Political Subdivisions Affected: Department of Motor Vehicles.

10. Technical Amendment Necessary: No.

11. Other Comments: This bill is a companion to HB 1504.
