

18102361D

HOUSE BILL NO. 1252

Offered January 10, 2018

Prefiled January 10, 2018

A BILL to amend and reenact the first and third enactments of Chapters 358 and 382 of the Acts of Assembly of 2013, as amended by Chapter 803 of the Acts of Assembly of 2017, relating to pilot programs for certain power purchase agreements.

Patrons—Kilgore, Kory, Lopez and Toscano

Referred to Committee on Commerce and Labor

Be it enacted by the General Assembly of Virginia:

1. That the first and third enactments of Chapters 358 and 382 of the Acts of Assembly of 2013, as amended by Chapter 803 of the Acts of Assembly of 2017, are amended and reenacted as follows:

§ 1. That the State Corporation Commission (Commission) shall conduct pilot programs *within the certificated service territory of each electric utility ("Pilot Utility")* under which a person that owns or operates a solar-powered or wind-powered electricity generation facility located on premises owned or leased by an eligible customer-generator *or eligible agricultural customer-generator*, as defined in § 56-594 of the Code of Virginia, shall be permitted to sell the electricity generated from such facility exclusively to such eligible customer-generator *or eligible agricultural customer-generator* under a power purchase agreement used to provide third party financing of the costs of such a renewable generation facility (~~third party net metering~~ power purchase agreement), subject to the following terms, conditions, and restrictions:

a. A pilot program shall be conducted within the certificated service territory of each investor-owned electric utility other than a utility described in subsection G of § 56-580 of the Code of Virginia ("Pilot Utility"); provided that within the certificated service territory of an investor-owned utility that was not bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, nonprofit, private institutions of higher education as defined in § 23.1-100 of the Code of Virginia that are not being served by generation provided under subdivision A 5 of § 56-577 of the Code of Virginia shall be deemed to be customer-generators eligible to participate in *Notwithstanding any other provision of § 56-594 of the Code of Virginia, after July 1, 2018, only organizations that are exempt from paying federal income taxes under § 501(c) of the Internal Revenue Code of 1954 as amended; elementary and secondary or middle schools as defined in § 22.1-1 of the Code of Virginia; or public and nonprofit private institutions of higher education as defined in § 23.1-100 of the Code of Virginia may enter into net metering power purchase agreements with a third party for the duration of the pilot program programs;*

b. The aggregated capacity of all generation facilities that are subject to such third party power purchase agreements at any time during the pilot program shall not exceed 50 megawatts for an investor-owned utility that was bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, or seven megawatts for an investor-owned utility that was not bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002. Such limitation on the aggregated capacity of such facilities *participating in any pilot program* shall constitute a portion of the existing limit of one percent of each Pilot Utility's adjusted Virginia peak-load forecast for the previous year that is available to eligible customer-generators *or eligible agricultural customer-generators* pursuant to subsection E of § 56-594 of the Code of Virginia. Notwithstanding any provision of this act that incorporates provisions of § 56-594, the seller and the customer shall elect either to (i) enter into their ~~third party net metering~~ power purchase agreement subject to the conditions and provisions of the Pilot Utility's net energy metering program under § 56-594 or (ii) provide that electricity generated from the generation facilities subject to the ~~third party net metering~~ power purchase agreement will not be net metered under § 56-594, provided that an election not to net meter under § 56-594 shall not exempt the ~~third party net metering~~ power purchase agreement and the parties thereto from the requirements of this act that incorporate provisions of § 56-594;

c. A solar-powered or wind-powered generation facility with a capacity of ~~no less than 50 kilowatts~~ and no more than one megawatt shall be eligible for a ~~third party net metering~~ power purchase agreement under the pilot program; however, if the customer under such agreement is an entity with tax-exempt status in accordance with § 501(c) of the Internal Revenue Code of 1954, as amended, then such facility is eligible for the pilot program even if it does not meet the 50 kilowatts minimum size

INTRODUCED

HB1252

requirement. The maximum generation capacity of one megawatt shall not affect the limits on the capacity of electrical generating capacities of 20 kilowatts for residential customers and 500 kilowatts for nonresidential customers set forth in subsection B of § 56-594 of the Code of Virginia, which limitations shall continue to apply to net energy metering generation facilities regardless of whether they are the subject of a third party power purchase agreement under the pilot program programs;

d. A generation facility that is the subject of a third party *net metering* power purchase agreement under the a pilot program shall serve only one customer, and a third party *net metering* power purchase agreement shall not serve multiple customers;

e. The customer under a third party *net metering* power purchase agreement under the a pilot program shall be subject to the interconnection and other requirements imposed on eligible customer-generators pursuant to subsection C of § 56-594 of the Code of Virginia, including the requirement that the customer bear the reasonable costs, as determined by the Commission, of the items described in clauses (i), (ii), and (iii) of such subsection;

f. A third party *net metering* power purchase agreement under the a pilot program shall not be valid unless it conforms in all respects to the requirements of the a pilot program conducted under the provisions of this act and unless the Commission and the Pilot Utility are provided written notice of the parties' intent to enter into a third party *net metering* power purchase agreement not less than 30 days prior to the agreement's proposed effective date; and

g. An affiliate of the Pilot Utility shall be permitted to offer and enter into third party *net metering* power purchase arrangements agreements on the same basis as may any other person that satisfies the requirements of being a seller under a third party *net metering* power purchase agreement under the a pilot program.

§ 2. The Commission shall review the pilot program programs established pursuant to § 1 of this act in 2015 2018 and every two years thereafter during the pilot program. In its review, the Commission shall determine whether the limitations in subdivisions b and e of §-1 should be expanded, reduced, or continued.

§ 3. Any third party *net metering* power purchase agreement that is not entered into pursuant to the during the effective period of a pilot program established pursuant to §-1 of this act is prohibited in the Pilot Utility's service territory, unless such third party power purchase agreement is entered into between a licensed supplier and a retail customer pursuant to §-56-577 of the Code of Virginia where such supplier is responsible for serving 100 percent of the load requirements for each retail customer account it serves conducted pursuant to the pilot program. Nothing in this act shall affect the rights and duties of any eligible customer-generator or any agricultural customer-generator participating in a power purchase agreement entered into prior to July 1, 2018.

§ 4. If the Commission approves a tariff proposed for electric power provided 100 percent from renewable energy that serves 100 percent of the load requirements for each retail customer account it serves under such tariff, hereafter referred to as a "green tariff," such a green tariff shall not be available to any party to a third party power purchase agreement for the account being served by such power purchase agreement, and such an agreement shall remain in effect notwithstanding the approval of the green tariff.

§-5. Nothing in this act shall be construed as (i) rendering any person, by virtue of its selling electric power to an eligible customer-generator or eligible agricultural customer-generator under a third party *net metering* power purchase agreement entered into pursuant to the a pilot program established under this act, a public utility or a competitive service provider, (ii) imposing a requirement that such a person meet 100 percent of the load requirements for each retail customer account it serves, or (iii) affecting third party *net metering* power purchase agreements in effect prior to the effective date of this act.

3. That the State Corporation Commission shall, by December 1, 2013 2018, establish guidelines concerning (i) information to be provided in notices required under subdivision f of § 1 of the first enactment of this act and (ii) procedures for aggregating and posting to the Commission's web site information derived from the aforesaid notices, including total capacity utilized by pilot projects for which notice has been received and capacity remaining available for future pilot projects. In addition, the Commission may adopt such rules or establish such guidelines as may be necessary for its general administration of the pilot program established under this act.

2. That the provisions of this act shall expire on January 1, 2022. Such expiration shall not affect any net metering power purchase agreement entered into during the term of a pilot program conducted under this act.
