communicated to the provider a specific and immediate threat to cause serious bodily injury or death to an identified or readily identifiable person or persons, if the provider reasonably believes, or should believe according to the standards of his profession, that the client has the intent and ability to carry out that threat immediately or imminently. If the third party is a child, in addition to taking precautions to protect the child from the behaviors in the above types of threats, the provider also has a duty to take precautions to protect the child if the client threatens to engage in behaviors that would constitute physical abuse or sexual abuse as defined in § 18.2-67.10. 5. Provides therapy or counseling to the client or patient in the session in which the threat has been communicated until the mental health service provider reasonably believes that the client no longer has the intent or the ability to carry out the threat.

6. In the case of a registered peer recovery specialist, or a qualified mental health professional who is not otherwise licensed by a health regulatory board at the Department of Health Professions, reports immediately to a licensed mental health service provider to take one or more of the actions set forth in this subsection.

D. A mental health service provider shall not be held civilly liable to any person for:

1. Breaching confidentiality with the limited purpose of protecting third parties by communicating the threats described in subsection B made by his clients to potential third party victims or law-enforcement agencies or by taking any of the actions specified in subsection C.

2. Failing to predict, in the absence of a threat described in subsection B, that the client would cause the third party serious physical harm.
