**8. Fiscal Implications:** The revenue impact for FY 2019, estimated by the Department of Taxation, reflects 11 months of revenue. Taxpayers are required to pay the tax on the 20<sup>th</sup> day of the second month following the month in which the activity occurred, but must file and pay both April and May taxes in June. The additional funding would be remitted to the transportation commissions using the existing processes.

The forecast is based on a statewide average distributor charge of \$3.72/gallon, comprised of a statewide average wholesale charge of \$3.22 and a distributor charge of \$0.50. The \$3.22 is a weighted average of the statewide average wholesale price for gasoline (\$3.16/gallon) and diesel (\$3.36/gallon), based on consumption levels of each fuel in the state.

The distributor price of gasoline is expected to rise over time. Therefore, the bill will create less extra revenue as the distributor price comes closer to the floor price. Pursuant to Virginia Code § 58.1-2299.20, the Department of Motor Vehicles will recover the direct

costs of administration of the Motor Vehicle Fuels Sales Tax from the transportation commissions.

- 9. Specific Agency or Political Subdivisions Affected:** Department of Motor Vehicles, Virginia Department of Transportation, Northern Virginia Transportation Commission, Potomac and Rappahannock Transportation Commission, Hampton Roads Transportation Accountability Commission.

**10. Technical Amendment Necessary:** No.

**11. Other Comments:** This bill is a companion to SB 896.
