4. Title: Net energy metering multifamily customer-generators.

5. Summary: Requires the State Corporation Commission, by January 1, 2019, to establish a program of multifamily net energy metering. The program will allow a customer or customers that operate a renewable energy generating facility in a condominium, apartment complex, neighborhood, or homeowners' association served by a common distribution circuit to be an eligible multifamily net metering customer-generator. The generation facility for multifamily net metering shall use as its total source of fuel renewable energy; not have an aggregate generation capacity of more than 500 kilowatts; be located on land owned or controlled by the eligible condominium, apartment complex, or homeowners association or on customers' property within the condominium, apartment complex, neighborhood, or homeowners association; be interconnected and operated in parallel with an electric utility's transmission and distribution facilities; and be used primarily to provide energy to metered accounts of the eligible multifamily net metering customer-generator. Eligible multifamily net metering customer-generators are exempt from the monthly standby charge assessed on other eligible customer-generators.
