

State Corporation Commission 2018 Fiscal Impact Statement

1. Bill Number: SB191

House of Origin	<input checked="" type="checkbox"/> Introduced	<input type="checkbox"/> Substitute	<input type="checkbox"/> Engrossed
Second House	<input type="checkbox"/> In Committee	<input type="checkbox"/> Substitute	<input type="checkbox"/> Enrolled

2. Patron: Favola

3. Committee: Commerce and Labor

4. Title: Net energy metering; eligibility limits.

5. Summary: Increases the cap on the amount of capacity a renewable electric generating facility may have and remain eligible to participate in the net energy metering program. The measure increases a facility's capacity from the expected annual energy consumption to 125 percent of that consumption based on billing history. If the building to be served by the generating facility is newly constructed, the expected annual energy consumption is based on annual energy consumption at similar buildings. Currently, a facility is ineligible to participate in a net energy metering program if its capacity exceeds expected annual energy consumption.

6. Budget Amendment Necessary: No

7. Fiscal Impact Estimates: None on the State Corporation Commission

8. Fiscal Implications: None on the State Corporation Commission

9. Specific Agency or Political Subdivisions Affected: State Corporation Commission

10. Technical Amendment Necessary: No

11. Other Comments: None
