

Fiscal Impact Statement for Proposed Legislation

Virginia Criminal Sentencing Commission

Senate Bill No. 737 **Amendment in the Nature of a Substitute** **(Patron Prior to Substitute – Surovell)**

LD#: 18105741

Date: 1/23/2018

Topic: Driving under the influence

Fiscal Impact Summary:

- **State Adult Correctional Facilities:**
\$50,000 *
- **Local Adult Correctional Facilities:**
Cannot be determined
- **Adult Community Corrections Programs:**
Cannot be determined

- **Juvenile Direct Care:**
None (\$0) **
- **Juvenile Detention Facilities:**
None (\$0) **

** Provided by the Department of Juvenile Justice

* The estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 836 of the 2017 Acts of Assembly requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of \$50,000.

Summary of Proposed Legislation:

The proposal amends §§ 18.2-270.1 and 18.2-271.1, relating to convictions for driving under the influence. Under the proposed modifications to § 18.2-270.1(B), adults convicted for a first offense driving while intoxicated whose blood alcohol content was less than .15 would be prohibited from operating a motor vehicle that is not equipped with an ignition interlock system for twelve consecutive months. This would be the sole condition of the restricted license for these offenders. Currently, the court must prohibit all individuals convicted of driving while intoxicated from operating a vehicle that is not equipped with an ignition interlock system for at least six consecutive months but not to exceed the period of license suspension or restriction. Section 18.2-271 provides that the driver's license of an individual convicted of a first offense for driving while intoxicated must be suspended or restricted for one year from the date of conviction.

Section 18.2-272 of the *Code* establishes base penalties for operating a motor vehicle while a driver's license is revoked or restricted following a conviction for driving while intoxicated (DWI). It is a Class 1 misdemeanor to drive or operate a motor vehicle, engine or train in violation of a revoked or restricted license under § 18.2-272(A). Under § 18.2-272(B), it is a Class 1 misdemeanor for an individual whose driver's license was revoked or restricted as the result of a DWI conviction to operate a motor vehicle with a blood alcohol content of .02 percent or more. Driving without an ignition interlock system that is required by § 46.2-391.01 is also punishable as a Class 1 misdemeanor under § 18.2-272(C). A third or subsequent violation of § 18.2-272 within 10 years is a Class 6 felony.

Analysis:

Existing data do not contain sufficient detail to determine the number of cases that would be affected by the proposed amendments. However, affected offenders may be sentenced similarly to those currently convicted under § 18.2-272 for operating a motor vehicle while a driver's license is revoked or restricted following a DWI conviction.

According to fiscal year (FY) 2016 and FY2017 General District (Traffic) Court Case Management System (CMS) data, 56% of offenders convicted of a Class 1 misdemeanor under § 18.2-272(A) for driving on a revoked or restricted license after a DWI conviction (as the primary, or most serious, offense) were given a local-responsible (jail) term. The median sentence in these cases was 20 days. The remaining offenders did not receive an active term of incarceration to serve after sentencing. For offenders whose primary offense was a misdemeanor violation of § 18.2-272(B) for driving on a revoked or restricted license with a blood alcohol content greater than .02 percent, most (77%) were given a jail term with a median sentence of one month. Of the 50 offenders who were convicted of an interlock violation under § 18.2-272(C), 54% were sentenced to a jail term. The median sentence length for these offenders was also one month.

Sentencing Guidelines data for FY2016 and FY2017 indicate that 107 offenders were convicted of a felony for a third or subsequent violation of § 18.2-272. This was the primary, or most serious, offense in 80 of the cases. Of these, 46.3% were sentenced to a local-responsible (jail) term with a median sentence length of seven months. Another 45.0% were sentenced to state-responsible (prison) terms, for which the median sentence was 1.2 years. The remaining 8.8% did not receive an active term of incarceration to serve after sentencing.

Impact of Proposed Legislation:

State adult correctional facilities. The proposal contains two aspects that may affect the state-responsible (prison) bed space needs of the Commonwealth. First, the proposal would limit the number of restrictions placed upon a subset of individuals subject to a restricted license and, therefore, may reduce the number of individuals who would violate the provisions of § 18.2-272. Second, by increasing the mandatory length of time that certain individuals would be subject to ignition interlock requirements, the proposal may increase the period of time that some individuals could be found in violation of § 18.2-272 for failing to comply with ignition interlock requirements. In this way, the proposal may increase the future state-responsible (prison) bed space needs of the Commonwealth. However, existing databases do not contain sufficient detail to identify cases that would be affected by the proposal or to estimate the net impact of the proposed legislation; therefore, the impact of the proposal on prison bed space needs cannot be determined.

Local adult correctional facilities. Similarly, the impact of the proposal on local-responsible (jail) bed space needs cannot be determined.

Adult community corrections resources. The impact on state community corrections resources and local community-based probation services cannot be estimated.

Virginia's sentencing guidelines. Felony convictions under § 18.2-272 are covered by the current sentencing guidelines. No adjustment to the guidelines would be necessary under the proposal.

Juvenile direct care. According to the Department of Juvenile Justice (DJJ), the proposal will not increase direct care (juvenile correctional center or alternative commitment placement) bed space needs.

Juvenile detention facilities. The Department of Juvenile Justice (DJJ) reports that the proposal will not increase the bed space needs of juvenile detention facilities.

Pursuant to § 30-19.1:4, the estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 836 of the 2017 Acts of Assembly requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of \$50,000.

Pursuant to § 30-19.1:4, the estimated amount of the necessary appropriation is \$0 for periods of commitment to the custody of the Department of Juvenile Justice.
