He shall not allow the ballots to be inspected except (i) by an authorized representative of the State Board or by the electoral board at the direction of the State Board to ensure the accuracy of the returns or the purity of the election, (ii) by the officers of election, and then only at the direction of the electoral board in accordance with § 24.2-672 when the provisions of § 24.2-662 have not been followed, (iii) on the order of a court before which there is pending a proceeding for a contest or recount under Chapter 8 (§ 24.2-800 et seq.) of this title or before whom there is then pending a proceeding in which the ballots are necessary for use in evidence, or (iv) for the purpose of conducting an *a post-election audit as part of a post-election pilot program* pursuant to § ~~24.2-671.1~~ 24.2-671.2. The representatives and observers lawfully present shall be prohibited from interfering with the officers of election in any way. The State Board or local electoral board shall provide such parties and candidates reasonable advance notice of the inspection.

After the counted ballots for a federal election have remained in the clerk's office for two years, if no election contest or other proceeding is pending in which such ballots may be needed as evidence, the clerk shall destroy such ballots. After the counted ballots for any other election have remained in the clerk's office for one year, if no election contest or other proceeding is pending in which such ballots may be needed as evidence, the clerk shall destroy such ballots. After the unused ballots have remained in the clerk's office and the time has expired for initiating a recount, contest, or other proceeding in which such ballots may be needed as evidence and no such contest or proceeding is pending, the clerk may then destroy the unused ballots other than punchcard ballots, which shall be returned to the electoral board.

"Incorrect outcome" means the electoral outcome that differs from the outcome that would be found by a full manual tabulation of the votes on all ballots validly cast in the election.

"Risk limit" means the largest probability that the audit will fail to correct an incorrect outcome in an election.

"Risk-limiting audit" means a procedure that has a pre-specified minimum probability of requiring a full hand tabulation of the votes on all ballots validly cast in an election contest if the voting system reports an incorrect outcome.

The risk-limiting audit shall be completed prior to certifying the results of the election being audited. The purpose of the risk-limiting audits is to provide efficient and cost-effective scientific quality control for election results.

C. All risk-limiting audits conducted pursuant to this section shall be performed by the electoral boards and general registrars and shall be carried out in accordance with the standards set and procedures prescribed by the State Board.
