HOUSE BILL NO. 2789

House Amendments in [] — February 4, 2019

A *BILL to direct the establishment of energy conservation measures providing incentives for the development of electric energy delivered from sunlight.*

Patron Prior to Engrossment—Delegate O'Quinn

Referred to Committee on Commerce and Labor

Be it enacted by the General Assembly of Virginia:

1. *§ 1. Energy conservation measures providing incentives for the development of electric energy derived from sunlight.*

A. *Each Phase I and Phase II Utility, as such terms are defined in subdivision A 1 of § 56-585.1 of the Code of Virginia, shall submit a petition for approval to design, implement and operate a three-year program of energy conservation measures providing [:]*

1. *Incentives to low income, elderly and disabled individuals in an amount not to exceed \$25 million in the aggregate for the installation of measures that reduce residential heating and cooling costs and enhance the health and safety of residents, including repairs and improvements to home heating and cooling systems and installation of energy-saving measures in the house, such as insulation and air sealing. In developing such incentive program, each utility shall utilize the stakeholder process set forth in § 56-596.2 of the Virginia Code. The utility may provide such incentives directly to customers or to organizations that assist low income, elderly and disabled individuals. Such incentive program shall be deemed to be a part of the \$140 million in energy efficiency programs that a Phase I utility is required to develop pursuant to § 56-596.2 of the Virginia Code and a part of the \$870 million in energy efficiency programs that a Phase II utility is required to develop pursuant to § 56-596.2 of the Virginia Code; provided that no portion of such incentive programs shall be deemed to be a part of the required five percent of such energy conservation measures set aside for low income, elderly and disabled individuals.*

2. *Incentives to low income, elderly and disabled individuals, who also participate in the incentive program described above for the installation of measures that reduce residential heating and cooling costs, in an amount not to exceed \$25 million in the aggregate for the installation of equipment to develop electric energy derived from sunlight. The utility may provide such incentives directly to customers or to organizations that assist low income, elderly and disabled individuals. Such incentive program shall not be deemed to be a part of the \$140 million in energy efficiency programs that a Phase I utility is required to develop pursuant to § 56-596.2 of the Virginia Code nor a part of the \$870 million in energy efficiency programs that a Phase II utility is required to develop pursuant to § 56-596.2 of the Virginia Code.*

[B.] *In developing such incentive programs, each utility shall give consideration to low income, elderly and disabled persons residing in housing that a redevelopment and housing authority owns or controls.*
