2019 SESSION

ENROLLED

[S 1346]

1

VIRGINIA ACTS OF ASSEMBLY - CHAPTER

2 An Act to amend and reenact § 56-585.3 of the Code of Virginia, relating to electric cooperatives; rates.

3 4

7

Approved

5 Be it enacted by the General Assembly of Virginia: 6 1. That § 56-585.3 of the Code of Virginia is amended a

1. That § 56-585.3 of the Code of Virginia is amended and reenacted as follows:

§ 56-585.3. Regulation of cooperative rates after rate caps.

8 A. After the expiration or termination of capped rates, the rates, terms and conditions of distribution 9 electric cooperatives subject to Article 1 (§ 56-231.15 et seq.) of Chapter 9.1 of this title shall be 10 regulated in accordance with the provisions of Chapters 9.1 (§ 56-231.15 et seq.) and 10 (§ 56-232 et 11 seq.) of this title, as modified by the following provisions:

12 1. Except for energy related cost (fuel cost), the Commission shall not require any cooperative to adjust, modify, or revise its rates, by means of riders or otherwise, to reflect changes in wholesale power cost which occurred during the capped rate period, other than in a general rate proceeding;

2. Each cooperative may, without Commission approval or the requirement of any filing other than
as provided in this subdivision, upon an affirmative resolution of its board of directors, increase or
decrease all classes of its rates for distribution services at any time, provided, however, that such
adjustments will not effect a cumulative net increase or decrease in excess of 5 *five* percent in such rates
in any three year three-year period. Such adjustments will not affect or be limited by any existing fuel
or wholesale power cost adjustment provisions. The cooperative will promptly file any such revised rates
with the Commission for informational purposes;

3. Each cooperative may, without Commission approval, upon an affirmative resolution of its board
of directors, make any adjustment to its terms and conditions that does not affect the cooperative's
revenues from the distribution or supply of electric energy. In addition, a cooperative may make such
adjustments to any pass-through of third-party service charges and fees, and to any fees, charges and
deposits set out in Schedule F of such cooperative's Terms and Conditions filed as of January 1, 2007.
The cooperative will promptly file any such amended terms and conditions with the Commission for
informational purposes;

29 4. Each cooperative may, without Commission approval or the requirement of any filing other than 30 as provided in this subdivision, upon an affirmative resolution of its board of directors, make any 31 adjustment to its rates reasonably calculated to collect any or all of the fixed costs of owning and operating its electric distribution system, including without limitation, such costs as are identified as 32 33 customer-related costs in a cost of service study, through a new or modified fixed monthly charge, 34 rather than through volumetric charges associated with the use of electric energy; however, such 35 adjustments shall be revenue neutral based on the cooperative's determination of the proper intra-class allocation of the revenues produced by its then current rates. The cooperative may elect, but is not 36 37 required, to implement such adjustments through incremental changes over the course of up to three 38 years. The cooperative shall file promptly revised tariffs reflecting any such adjustments with the 39 Commission for informational purposes; and

5. A cooperative may, at any time after the expiration or termination of capped rates, petition the
Commission for approval of one or more rate adjustment clauses for the timely and current recovery
from customers of the costs described in subdivisions A 5 b and e of § 56-585.1;

43 6. A cooperative that is not a current member of a utility aggregation cooperative may at any time petition the Commission for approval of one or more rate adjustment clauses for the timely and current 44 45 recovery of cost from customers of (i) one or more generation facilities, (ii) one or more major unit modifications of generation facilities, or (iii) one or more pumped hydroelectricity generation and 46 47 storage facilities. A cooperative seeking a rate adjustment clause pursuant to this subdivision shall have 48 the right, after notice and the opportunity for a hearing, to recover the costs of a facility described in 49 clauses (i), (ii), or (iii) in a rate adjustment clause including construction work in progress and 50 allowance for funds during construction, planning, and development costs of infrastructure associated therewith. The costs of the facility other than projected construction work in progress and allowance for 51 funds used during construction shall not be recovered prior to the date that the facility either (a) begins 52 53 commercial operation or (b) comes under the ownership of the cooperative. For the purposes of this 54 subdivision, the cooperative's cost of capital shall be recoverable in such a rate adjustment clause and 55 shall be set as either the cooperative's long-term cost of debt or most recent rate of return authorized 56 by the Commission in a rate proceeding. In any proceeding conducted pursuant to this subdivision, the

2 of 2

57 Commission shall consider that all costs expended and revenues recovered arising out of the 58 procurement of generation resources pursuant to this subdivision will inure to the benefit of the general membership of the cooperative. Nothing in this subdivision shall relieve a cooperative from any 59 60 requirement to obtain a certificate of public convenience and necessity for purposes of constructing 61 generation in the Commonwealth. The Commission's final order regarding any petition filed pursuant to 62 this subdivision shall be entered not more than nine months after the date of filing of such petition. If such petition is approved, the order shall direct that the applicable rate adjustment clause be applied to 63 64 customers' bills not more than 60 days after the date of the order. Any petition filed pursuant to this subdivision shall be considered by the Commission on a stand-alone basis without regard to the other 65 66 costs, revenues, investments, or earnings of the cooperative. Any costs incurred by a cooperative prior 67 to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition, shall be deferred on the books and records of the cooperative until the **68** 69 Commission's final order in the matter, or until the implementation of any applicable approved rate 70 adjustment clause, whichever is later; and

71 7. A cooperative may adopt any other cooperative's voluntary rate, voluntary program (including a
72 pilot program), or voluntary tariff, and cost recovery therefor, by submitting the same to the
73 Commission for administrative approval. The staff of the Commission shall have the authority to
74 approve such administrative filing notwithstanding any other provision of law.
75 B. None of the adjustments described in subdivisions A 2 through A 5 will apply to the rates paid

75 B. None of the adjustments described in subdivisions A 2 through A 5 will apply to the rates paid
76 by any customer that takes service by means of dedicated distribution facilities and had noncoincident
77 peak demand in excess of 90 megawatts in calendar year 2006.

78 C. Nothing in this section shall be deemed to grant to a cooperative any authority to amend or adjust
 79 any terms and conditions of service or agreements regarding pole attachments or the use of the
 80 cooperative's poles or conduits.
