5. Summary: Establishes limits on the ability of a health carrier or third-party administrator to sell or otherwise grant access, as provided in a dentist's or oral surgeon's provider contract, to a third-party carrier. The measure provides that such access may be granted only if it is expressly permitted by the provider contract and notice is given to the affected participating providers. The contracting entity or carrier is required to inform participating providers, upon request, which network plans have been granted access to the contract by the contracting entity.
