As used in this article:

"Authorized person" means a person known to and authorized by the licensee and determined to be necessary and appropriate to have access to the nonpublic information held by the licensee and its information systems.

"Consumer" means an individual, including applicants, policyholders, insureds, beneficiaries, claimants, and certificate holders, who is a resident of the Commonwealth and whose nonpublic information is in the possession, custody, or control of a licensee or an authorized person.

"Cybersecurity event" means an event resulting in unauthorized access to, disruption of, or misuse of an information system or nonpublic information in the possession, custody, or control of a licensee or an authorized person. "Cybersecurity event" does not include (i) the unauthorized acquisition of encrypted nonpublic information if the encryption, process, or key is not also acquired, released, or used without authorization or (ii) an event in which the licensee has determined that the nonpublic information accessed by an unauthorized person has not been used or released and has been returned or destroyed.

"Encrypted" means the transformation of data into a form that results in a low probability of assigning meaning without the use of a protective process or key.

"HIPAA" means the federal Health Insurance Portability and Accountability Act (42 U.S.C. § 1320d et seq.).

"Home state" means the jurisdiction in which the producer maintains its principal place of residence or principal place of business and is licensed by that jurisdiction to act as a resident insurance producer.

"Information system" means a discrete set of electronic information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of electronic information, as well as any specialized system such as industrial or process control systems, telephone switching and private branch exchange systems, and environmental control systems.

"Insurance-support organization" has the same meaning as provided in § 38.2-602.

"Licensee" means any person licensed, authorized to operate, or registered, or required to be licensed, authorized, or registered pursuant to the insurance laws of the Commonwealth. "Licensee" does not include a purchasing group or a risk retention group chartered and licensed in a state other than the Commonwealth or a person that is acting as an assuming insurer that is domiciled in another state or jurisdiction.

"Nonpublic information" means information that is not publicly available information and is:

1. Business-related information of a licensee the tampering with which, or the unauthorized disclosure, access, or use of which, would cause a material adverse impact to the business, operations, or security of the licensee;

2. Any information concerning a consumer that because of name, number, personal mark, or other identifier can be used to identify such consumer, in any combination with a consumer's (i) social security number; (ii) driver's license number or nondriver identification card number; (iii) financial account, credit card, or debit card number; (iv) security code, access code, or password that would permit access to a consumer's financial account; (v) passport number; (vi) military identification number; or (vii) biometric records; or

"Third-party service provider" means (i) a person, not otherwise defined as a licensee, that contracts with a licensee to maintain, process, or store nonpublic information, or otherwise is permitted access to nonpublic information through its provision of services to the licensee or (ii) an insurance-support organization.

2. Design its information security program to mitigate the identified risks, commensurate with the size and complexity of the licensee; the nature and scope of the licensee's activities, including its use of third-party service providers; and the sensitivity of the nonpublic information used by the licensee or in the licensee's possession, custody, or control;

3. Place access controls on information systems, including controls to authenticate and permit access only to authorized persons to protect against the unauthorized acquisition of nonpublic information;

2. If executive management delegates any of its responsibilities under this section, it shall oversee the development, implementation, and maintenance of the licensee's information security program prepared by the delegate and shall receive a report from the delegate complying with the requirements of subdivision 1.

E. Beginning July 1, 2022, if a licensee utilizes a third-party service provider, the licensee shall:

1. Exercise due diligence in selecting its third-party service provider; and

2. Require a third-party service provider to implement appropriate administrative, technical, and physical measures to protect and secure the information systems and nonpublic information that are accessible to, or held by, the third-party service provider.

F. G. As part of its information security program, each licensee shall establish a written incident response plan designed to promptly respond to, and recover from, any cybersecurity event that compromises the confidentiality, integrity, or availability of nonpublic information in its possession; the licensee's information systems; or the continuing functionality of any aspect of the licensee's business or operations. Such incident response plan shall address:

1. The internal process for responding to a cybersecurity event;

insurer has identified areas, systems, or processes that require material improvement, updating, or redesign, the insurer shall document the identification and the remedial efforts planned and underway to address such areas, systems, or processes. Such documentation must be available for inspection by the Commissioner.

§ 38.2-624. Investigation of a cybersecurity event.

A. If a licensee learns that a cybersecurity event has or may have occurred, the licensee or an investigator shall conduct a prompt investigation.

1. Determine whether a cybersecurity event has occurred;
2. Assess the nature and scope of the cybersecurity event;
3. Identify any nonpublic information that may have been involved in the cybersecurity event; and
4. Perform or oversee reasonable measures to restore the security of the information systems compromised in the cybersecurity event in order to prevent further unauthorized acquisition, release, or use of nonpublic information in the licensee's possession, custody, or control.

C. If a licensee learns that a cybersecurity event has or may have occurred in a system maintained by a third-party service provider, the licensee will complete the steps listed in subsection B or make reasonable efforts to confirm and document that the third-party service provider has completed those steps.

D. Each licensee shall maintain records concerning all cybersecurity events for a period of at least five years from the date of the cybersecurity event and shall produce those records upon demand of the Commissioner.

§ 38.2-625. Notice to Commissioner.

A. If a licensee has determined that a cybersecurity event has actually occurred, such licensee shall notify the Commissioner, in accordance with requirements prescribed by the Commission, as promptly as possible but in no event later than three business days from such determination if:

1. The licensee is a domestic insurance company, or in the case of a producer, the Commonwealth is the licensee's home state and the cybersecurity event meets threshold and other requirements prescribed by the Commission; or
2. The licensee reasonably believes that the nonpublic information involved is of 250 or more consumers residing in the Commonwealth or the licensee is required under federal law or the laws of another state to provide notice of the cybersecurity event to any government body, self-regulatory agency, or other supervisory body.

B. Notice provided pursuant to this section shall be in electronic form and shall include as much of the following information as possible:

8. The period during which the information system was compromised by the cybersecurity event;

11. A description of efforts being undertaken to remediate the situation that permitted the cybersecurity event to occur;
12. A copy of the licensee's consumer privacy policy and a statement outlining the steps the licensee will take to investigate and notify consumers affected by the cybersecurity event; and
13. The name of a contact person who is both familiar with the cybersecurity event and authorized to act for the licensee.

C. A licensee shall have a continuing obligation to update and supplement initial and subsequent notifications to the Commissioner concerning the cybersecurity event.

D. Each licensee shall notify consumers in compliance with § 38.2-626, and provide a copy of the notice sent to consumers under such section to the Commissioner, when a licensee is required to notify the Commissioner under this section.

E. If there is a cybersecurity event in a system maintained by a third-party service provider, the licensee, once it has become aware of such cybersecurity event, shall treat such event as it would under this section, unless the third-party service provider provides notice in accordance with this section. The computation of a licensee's deadlines shall begin on the day after the third-party service provider notifies a licensee of the cybersecurity event or the licensee otherwise has actual knowledge of the cybersecurity event, whichever is sooner.

F. If a cybersecurity event involves nonpublic information that is used by a licensee that is acting as an assuming insurer or is in the possession, control, or custody of a licensee that is acting as an assuming insurer or its third-party service provider and the licensee does not have a direct contractual relationship with the affected consumers, the licensee shall notify its affected ceding insurers and the head of its supervisory state agency of its state of domicile within three business days of making the determination or receiving notice from its third-party service provider that a cybersecurity event has occurred. Ceding insurers that have a direct contractual relationship with affected consumers shall fulfill the consumer notification requirements imposed under § 38.2-626 and any other notification requirements relating to a cybersecurity event imposed under this section.

G. If there is a cybersecurity event involving nonpublic information that is in the possession, custody, or control of a licensee that is an insurer or its third-party service provider and for which a consumer accessed the insurer's services through an independent insurance producer, the insurer shall notify the producers of record of all affected consumers as soon as practicable as directed by the Commissioner. The insurer is excused from this obligation for those instances in which it does not have the current producer of record information for any individual consumer.

H. Nothing in this article shall prevent or abrogate an agreement between a licensee and another licensee, a third-party service provider, or any other party to fulfill any of the investigation requirements imposed under § 38.2-624 or notice requirements imposed under this section.

§ 38.2-626. Notice to consumers.

A. A licensee that maintains consumers' nonpublic information shall notify the consumer of any cybersecurity event without unreasonable delay after making a determination or receiving notice the cybersecurity event has occurred, if consumers' nonpublic information was accessed and acquired by an unauthorized person or such licensee reasonably believes consumers' nonpublic information was accessed and acquired by an unauthorized person and the cybersecurity event has a reasonable likelihood of causing or has caused identity theft or other fraud to such consumers. Such notice shall include a description of the following:

5. Advice that directs the consumer to remain vigilant by reviewing account statements and monitoring the consumer's credit reports.

B. Notice to consumers under this section shall be given as written notice to the last known postal address in the records of the licensee, telephone notice, or electronic notice. However, if the licensee required to provide notice demonstrates that the cost of providing notice will exceed \$50,000, the affected class of consumers to be notified exceeds 100,000 consumers, or the licensee does not have sufficient contact information or consent to provide notice, substitute notice may be provided. Substitute notice shall consist of (i) e-mail notice if the licensee has e-mail addresses for the members of the affected class of consumers; (ii) conspicuous posting of the notice on the website of the licensee if the licensee maintains a website; and (iii) notice to major statewide media.
