20101481D HOUSE BILL NO. 1276 1 Offered January 8, 2020 2 3 Prefiled January 8, 2020 4 A BILL to amend and reenact § 22.1-253.13:1 of the Code of Virginia, relating to school boards; career 5 and technical education; academic and career plans; contents. 6 Patrons-O'Quinn and Kilgore 7 8 Referred to Committee on Education 9 10 Be it enacted by the General Assembly of Virginia: 1. That § 22.1-253.13:1 of the Code of Virginia is amended and reenacted as follows: 11 § 22.1-253.13:1. Standard 1. Instructional programs supporting the Standards of Learning and 12 other educational objectives. 13 14 A. The General Assembly and the Board of Education believe that the fundamental goal of the 15 public schools of the Commonwealth must be to enable each student to develop the skills that are 16 necessary for success in school, preparation for life, and reaching their full potential. The General Assembly and the Board of Education find that the quality of education is dependent upon the provision 17 18 of (i) the appropriate working environment, benefits, and salaries necessary to ensure the availability of high-quality instructional personnel; (ii) the appropriate learning environment designed to promote 19 20 student achievement; (iii) quality instruction that enables each student to become a productive and educated citizen of Virginia and the United States of America; and (iv) the adequate commitment of 21 other resources. In keeping with this goal, the General Assembly shall provide for the support of public education as set forth in Article VIII, Section 1 of the Constitution of Virginia. 22 23 24 B. The Board of Education shall establish educational objectives known as the Standards of 25 Learning, which shall form the core of Virginia's educational program, and other educational objectives, which together are designed to ensure the development of the skills that are necessary for success in 26 27 school and for preparation for life in the years beyond. At a minimum, the Board shall establish 28 Standards of Learning for English, mathematics, science, and history and social science. The Standards 29 of Learning shall not be construed to be regulations as defined in \S 2.2-4001. 30 The Board shall seek to ensure that the Standards of Learning are consistent with a high-quality 31 foundation educational program. The Standards of Learning shall include, but not be limited to, the basic skills of communication (listening, speaking, reading, and writing); computation and critical reasoning, 32 including problem solving and decision making; proficiency in the use of computers and related 33 34 technology; computer science and computational thinking, including computer coding; and the skills to 35 manage personal finances and to make sound financial decisions. 36 The English Standards of Learning for reading in kindergarten through grade three shall be based on 37 components of effective reading instruction, to include, at a minimum, phonemic awareness, phonics, 38 fluency, vocabulary development, and text comprehension. The Standards of Learning in all subject areas shall be subject to regular review and revision to 39 maintain rigor and to reflect a balance between content knowledge and the application of knowledge in 40 preparation for eventual employment and lifelong learning. The Board of Education shall establish a 41 regular schedule, in a manner it deems appropriate, for the review, and revision as may be necessary, of 42 the Standards of Learning in all subject areas. Such review of each subject area shall occur at least once 43 44 every seven years. Nothing in this section shall be construed to prohibit the Board from conducting such 45 review and revision on a more frequent basis. 46 To provide appropriate opportunity for input from the general public, teachers, and local school 47 boards, the Board of Education shall conduct public hearings prior to establishing revised Standards of 48 Learning. Thirty days prior to conducting such hearings, the Board shall give notice of the date, time, 49 and place of the hearings to all local school boards and any other persons requesting to be notified of the hearings and publish notice of its intention to revise the Standards of Learning in the Virginia 50 51 Register of Regulations. Interested parties shall be given reasonable opportunity to be heard and present 52 information prior to final adoption of any revisions of the Standards of Learning. 53 In addition, the Department of Education shall make available and maintain a website, either separately or through an existing website utilized by the Department of Education, enabling public 54 55 elementary, middle, and high school educators to submit recommendations for improvements relating to the Standards of Learning, when under review by the Board according to its established schedule, and 56 related assessments required by the Standards of Quality pursuant to this chapter. Such website shall

57 58

facilitate the submission of recommendations by educators.

59 School boards shall implement the Standards of Learning or objectives specifically designed for their
60 school divisions that are equivalent to or exceed the Board's requirements. Students shall be expected to
61 achieve the educational objectives established by the school division at appropriate age or grade levels.
62 The curriculum adopted by the local school division shall be aligned to the Standards of Learning.

63 The Board of Education shall include in the Standards of Learning for history and social science the
64 study of contributions to society of diverse people. For the purposes of this subsection, "diverse"
65 includes consideration of disability, ethnicity, race, and gender.

The Board of Education shall include in the Standards of Learning for health instruction in 66 emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator, 67 including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation. Such 68 instruction shall be based on the current national evidence-based emergency cardiovascular care 69 70 guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator, such as a 71 program developed by the American Heart Association or the American Red Cross. No teacher who is in compliance with subdivision D 3 of § 22.1-298.1 shall be required to be certified as a trainer of 72 cardiopulmonary resuscitation to provide instruction for non-certification. 73

With such funds as are made available for this purpose, the Board shall regularly review and revise
the competencies for career and technical education programs to require the full integration of English,
mathematics, science, and history and social science Standards of Learning. Career and technical
education programs shall be aligned with industry and professional standard certifications, where they
exist.

79 The Board shall establish content standards and curriculum guidelines for courses in career 80 investigation in elementary school, middle school, and high school. Each school board shall (i) require 81 each middle school student to take at least one course in career investigation or (ii) select an alternate means of delivering the career investigation course to each middle school student, provided that such 82 83 alternative is equivalent in content and rigor and provides the foundation for such students to develop their academic and career plans. Any school board may require (a) such courses in career investigation 84 85 at the high school level as it deems appropriate, subject to Board approval as required in subsection A of § 22.1-253.13:4, and (b) such courses in career investigation at the elementary school level as it 86 87 deems appropriate. The Board shall develop and disseminate to each school board career investigation 88 resource materials that are designed to ensure that students have the ability to further explore interest in 89 career and technical education opportunities in middle and high school. In developing such resource 90 materials, the Board shall consult with representatives of career and technical education, industry, skilled 91 trade associations, chambers of commerce or similar organizations, and contractor organizations.

92 C. Local school boards shall develop and implement a program of instruction for grades K through 93 12 that is aligned to the Standards of Learning and meets or exceeds the requirements of the Board of 94 Education. The program of instruction shall emphasize reading, writing, speaking, mathematical concepts 95 and computations, proficiency in the use of computers and related technology, computer science and computational thinking, including computer coding, and scientific concepts and processes; essential skills 96 and concepts of citizenship, including knowledge of Virginia history and world and United States 97 98 history, economics, government, foreign languages, international cultures, health and physical education, 99 environmental issues, and geography necessary for responsible participation in American society and in the international community; fine arts, which may include, but need not be limited to, music and art, 100 101 and practical arts; knowledge and skills needed to qualify for further education, gainful employment, or training in a career or technical field; and development of the ability to apply such skills and knowledge 102 103 in preparation for eventual employment and lifelong learning and to achieve economic self-sufficiency.

104 Local school boards shall also develop and implement programs of prevention, intervention, or 105 remediation for students who are educationally at risk including, but not limited to, those who fail to 106 achieve a passing score on any Standards of Learning assessment in grades three through eight or who 107 fail an end-of-course test required for the award of a verified unit of credit. Such programs shall include 108 components that are research-based.

Any student who achieves a passing score on one or more, but not all, of the Standards of Learning
 assessments for the relevant grade level in grades three through eight may be required to attend a
 remediation program.

Any student who fails to achieve a passing score on all of the Standards of Learning assessments for the relevant grade level in grades three through eight or who fails an end-of-course test required for the award of a verified unit of credit shall be required to attend a remediation program or to participate in another form of remediation. Division superintendents shall require such students to take special programs of prevention, intervention, or remediation, which may include attendance in public summer school programs, in accordance with clause (ii) of subsection A of § 22.1-254 and § 22.1-254.01.

118 Remediation programs shall include, when applicable, a procedure for early identification of students 119 who are at risk of failing the Standards of Learning assessments in grades three through eight or who 120 fail an end-of-course test required for the award of a verified unit of credit. Such programs may also

HB1276

121 include summer school for all elementary and middle school grades and for all high school academic 122 courses, as defined by regulations promulgated by the Board of Education, or other forms of 123 remediation. Summer school remediation programs or other forms of remediation shall be chosen by the 124 division superintendent to be appropriate to the academic needs of the student. Students who are 125 required to attend such summer school programs or to participate in another form of remediation shall 126 not be charged tuition by the school division.

127 The requirement for remediation may, however, be satisfied by the student's attendance in a program 128 of prevention, intervention or remediation that has been selected by his parent, in consultation with the 129 division superintendent or his designee, and is either (i) conducted by an accredited private school or (ii) 130 a special program that has been determined to be comparable to the required public school remediation 131 program by the division superintendent. The costs of such private school remediation program or other 132 special remediation program shall be borne by the student's parent.

133 The Board of Education shall establish standards for full funding of summer remedial programs that 134 shall include, but not be limited to, the minimum number of instructional hours or the equivalent thereof 135 required for full funding and an assessment system designed to evaluate program effectiveness. Based on 136 the number of students attending and the Commonwealth's share of the per pupil instructional costs, 137 state funds shall be provided for the full cost of summer and other remediation programs as set forth in 138 the appropriation act, provided such programs comply with such standards as shall be established by the 139 Board, pursuant to § 22.1-199.2.

140 D. Local school boards shall also implement the following:

141 1. Programs in grades K through three that emphasize developmentally appropriate learning to 142 enhance success.

143 2. Programs based on prevention, intervention, or remediation designed to increase the number of 144 students who earn a high school diploma and to prevent students from dropping out of school. Such 145 programs shall include components that are research-based.

3. Career and technical education programs incorporated into the K through 12 curricula that include: 146 147 a. Knowledge of careers and all types of employment opportunities, including, but not limited to, 148 apprenticeships, entrepreneurship and small business ownership, the military, and the teaching 149 profession, and emphasize the advantages of completing school with marketable skills; 150

b. Career exploration opportunities in the middle school grades;

151 c. Competency-based career and technical education programs that integrate academic outcomes, 152 career guidance, and job-seeking skills for all secondary students. Programs shall be based upon labor 153 market needs and student interest. Career guidance shall include counseling about available employment 154 opportunities and placement services for students exiting school. Each school board shall develop and 155 implement a plan to ensure compliance with the provisions of this subdivision. Such plan shall be 156 developed with the input of area business and industry representatives and local comprehensive 157 community colleges and shall be submitted to the Superintendent of Public Instruction in accordance 158 with the timelines established by federal law; and

159 d. Annual notice on its website to enrolled high school students and their parents of (i) the 160 availability of the postsecondary education and employment data published by the State Council of 161 Higher Education on its website pursuant to § 23.1-204.1 and (ii) the opportunity for such students to 162 obtain a nationally recognized career readiness certificate at a local public high school, comprehensive 163 community college, or workforce center; and

164 e. As part of each student's academic and career plan, a list of (i) the top 100 professions in the 165 Commonwealth by median pay and the education, training, and skills required for each such profession and (ii) the top 10 degree programs at institutions of higher education in the Commonwealth by median 166 167 pay of program graduates. The Department of Education shall annually compile such lists and provide 168 them to each local school board.

169 4. Educational objectives in middle and high school that emphasize economic education and financial 170 literacy pursuant to § 22.1-200.03.

171 5. Early identification of students with disabilities and enrollment of such students in appropriate 172 instructional programs consistent with state and federal law.

6. Early identification of gifted students and enrollment of such students in appropriately 173 174 differentiated instructional programs.

175 7. Educational alternatives for students whose needs are not met in programs prescribed elsewhere in 176 these standards. Such students shall be counted in average daily membership (ADM) in accordance with 177 the regulations of the Board of Education.

178 8. Adult education programs for individuals functioning below the high school completion level. 179 Such programs may be conducted by the school board as the primary agency or through a collaborative 180 arrangement between the school board and other agencies.

181 9. A plan to make achievements for students who are educationally at risk a divisionwide priority 4 of 5

182 that shall include procedures for measuring the progress of such students.

10. An agreement for postsecondary degree attainment with a comprehensive community college in
the Commonwealth specifying the options for students to complete an associate degree or a one-year
Uniform Certificate of General Studies from a comprehensive community college concurrent with a high
school diploma. Such agreement shall specify the credit available for dual enrollment courses and
Advanced Placement courses with qualifying exam scores of three or higher.

188 11. A plan to notify students and their parents of the availability of dual enrollment and advanced 189 placement classes; career and technical education programs, including internships, externships, 190 apprenticeships, credentialing programs, certification programs, licensure programs, and other work-based 191 learning experiences; the International Baccalaureate Program and Academic Year Governor's School 192 Programs; the qualifications for enrolling in such classes, programs, and experiences; and the availability of financial assistance to low-income and needy students to take the advanced placement and 193 194 International Baccalaureate examinations. This plan shall include notification to students and parents of 195 the agreement with a comprehensive community college in the Commonwealth to enable students to 196 complete an associate degree or a one-year Uniform Certificate of General Studies concurrent with a 197 high school diploma.

198 12. Identification of students with limited English proficiency and enrollment of such students in appropriate instructional programs, which programs may include dual language programs whereby such students receive instruction in English and in a second language.

201 13. Early identification, diagnosis, and assistance for students with reading and mathematics problems
 202 and provision of instructional strategies and reading and mathematics practices that benefit the
 203 development of reading and mathematics skills for all students.

204 Local school divisions shall provide reading intervention services to students in kindergarten through 205 grade three who demonstrate deficiencies based on their individual performance on the Standards of 206 Learning reading test or any reading diagnostic test that meets criteria established by the Department of Education. Local school divisions shall report the results of the diagnostic tests to the Department of 207 208 Education on an annual basis, at a time to be determined by the Superintendent of Public Instruction. 209 Each student who receives early intervention reading services will be assessed again at the end of that 210 school year. The local school division, in its discretion, shall provide such reading intervention services 211 prior to promoting a student from grade three to grade four. Reading intervention services may include 212 the use of: special reading teachers; trained aides; volunteer tutors under the supervision of a certified 213 teacher; computer-based reading tutorial programs; aides to instruct in-class groups while the teacher 214 provides direct instruction to the students who need extra assistance; and extended instructional time in 215 the school day or school year for these students. Funds appropriated for prevention, intervention, and 216 remediation; summer school remediation; at-risk; or early intervention reading may be used to meet the 217 requirements of this subdivision.

218 Local school divisions shall provide algebra readiness intervention services to students in grades six 219 through nine who are at risk of failing the Algebra I end-of-course test, as demonstrated by their 220 individual performance on any diagnostic test that has been approved by the Department of Education. 221 Local school divisions shall report the results of the diagnostic tests to the Department of Education on 222 an annual basis, at a time to be determined by the Superintendent of Public Instruction. Each student 223 who receives algebra readiness intervention services will be assessed again at the end of that school 224 year. Funds appropriated for prevention, intervention, and remediation; summer school remediation; 225 at-risk; or algebra readiness intervention services may be used to meet the requirements of this 226 subdivision.

14. Incorporation of art, music, and physical education as a part of the instructional program at theelementary school level.

15. A program of physical activity available to all students in grades kindergarten through five
consisting of at least 20 minutes per day or an average of 100 minutes per week during the regular
school year and available to all students in grades six through 12 with a goal of at least 150 minutes per
week on average during the regular school year. Such program may include any combination of (i)
physical education classes, (ii) extracurricular athletics, (iii) recess, or (iv) other programs and physical
activities deemed appropriate by the local school board. Each local school board shall implement such
program during the regular school year.

236 16. A program of student services for kindergarten through grade 12 that shall be designed to aid237 students in their educational, social, and career development.

238 17. The collection and analysis of data and the use of the results to evaluate and make decisions239 about the instructional program.

18. A program of instruction in the high school Virginia and U.S. Government course on all information and concepts contained in the civics portion of the U.S. Naturalization Test.

E. From such funds as may be appropriated or otherwise received for such purpose, there shall be established within the Department of Education a unit to (i) conduct evaluative studies; (ii) provide the

resources and technical assistance to increase the capacity for school divisions to deliver quality 244 245 instruction; and (iii) assist school divisions in implementing those programs and practices that will 246 enhance pupil academic performance and improve family and community involvement in the public 247 schools. Such unit shall identify and analyze effective instructional programs and practices and 248 professional development initiatives; evaluate the success of programs encouraging parental and family 249 involvement; assess changes in student outcomes prompted by family involvement; and collect and 250 disseminate among school divisions information regarding effective instructional programs and practices, 251 initiatives promoting family and community involvement, and potential funding and support sources. 252 Such unit may also provide resources supporting professional development for administrators and 253 teachers. In providing such information, resources, and other services to school divisions, the unit shall 254 give priority to those divisions demonstrating a less than 70 percent passing rate on the Standards of 255 Learning assessments.

256 F. Each local school board may enter into agreements for postsecondary course credit, credential, 257 certification, or license attainment, hereinafter referred to as College and Career Access Pathways 258 Partnerships (Partnerships), with comprehensive community colleges or other public institutions of higher 259 education or educational institutions established pursuant to Title 23.1 that offer a career and technical 260 education curriculum. Such Partnerships shall (i) specify the options for students to take courses as part of the career and technical education curriculum that lead to course credit or an industry-recognized 261 credential, certification, or license concurrent with a high school diploma; (ii) specify the credit, 262 263 credentials, certifications, or licenses available for such courses; and (iii) specify available options for 264 students to participate in pre-apprenticeship and apprenticeship programs at comprehensive community 265 colleges concurrent with the pursuit of a high school diploma and receive college credit and high school 266 credit for successful completion of any such program.
