

## 2020 SESSION

INTRODUCED

20105941D

### HOUSE BILL NO. 1639

Offered January 16, 2020

A *BILL to direct the Department of Environmental Quality to convene a work group to develop recommendations on the issue of the disposal of construction fill and debris on rural lands.*

Patron—Guzman

Referred to Committee on Agriculture, Chesapeake and Natural Resources

#### Be it enacted by the General Assembly of Virginia:

1. § 1. That the Department of Environmental Quality (DEQ) shall convene a work group to research the issue of the disposal of construction fill and debris on rural lands. The work group shall include representatives of DEQ, the Department of Forestry, the Department of Agriculture and Consumer Services, the Virginia Department of Transportation, nonprofit environmental organizations, the waste disposal industry, the trucking industry, the Virginia Chapter of the American Planning Association, the Virginia Farm Bureau Federation, the Virginia Agribusiness Council, the Virginia Association of Counties, the Home Builders Association of Virginia, and the Virginia Association of Soil and Water Conservation Districts. The work group shall research (i) the need of road construction and development projects to dispose of dirt in a cost-effective manner; (ii) the practice of rural landowners charging a fee to allow the use of their lands as disposal sites; (iii) the extent of monitoring for possible contaminants or effects on groundwater when dirt and rubble is deposited on agricultural fields; and (iv) the use of rural roads by dump trucks traveling to disposal sites and any effects of such travel, including road damage, traffic congestion, noise, and the loss of a portion of the dirt during transit in the form of dust or mud. The work group shall consider recommending (a) regulations for possible adoption by DEQ, including a regulation containing a model ordinance for adoption by localities, and (b) statutory changes, including changes related to agricultural engineering operations and construction of terraces as those terms are used in the State Water Control Law (§ 62.1-44.2 et seq. of the Code of Virginia). The work group shall report its research and recommendations to the Director of DEQ by December 1, 2020.
