"Commercial entity" means a corporation, business trust, estate, trust, partnership, limited partnership, limited liability partnership, limited liability company, association, organization, joint venture, or other legal entity, whether or not for profit, that transacts business in the Commonwealth.

"Confidential health care information" includes all information relating to a patient's health care history, diagnosis, condition, treatment, or evaluation that is obtained from a health care provider who has treated the patient if the information explicitly or by implication identifies a particular patient.

"Consumer" means an individual who enters into a transaction primarily for personal, family, or household purposes.

"Personal identifying information" means a consumer's first name or first initial and last name in combination with any one of the following data elements that relate to the consumer, when either the name or the data elements are not encrypted: Social Security number, passport number, driver's license or state-issued identification card number, insurance policy number, financial services account number, bank account number, credit card number, debit card number, tax or payroll information, or confidential health care information.

"Record" means information that is inscribed on a tangible medium, or that is stored in an electronic or other medium, and is retrievable in perceivable form on which personal identifying information is recorded or preserved. "Record" does not include publicly available directories or sources containing information a consumer has voluntarily consented to have publicly disseminated or listed or that is disseminated as provided for by applicable law or regulation, such as name, address, or telephone number, or other directories or sources as are derived solely from such directories or sources.

§ 59.1-572. Safe destruction of records.

A commercial entity that is in possession of, or has within its custody or control, records that contain consumers' unencrypted, unredacted personal identifying information and are no longer needed by the commercial entity shall take reasonable steps to destroy or arrange for the destruction of each such record by shredding, erasing, or otherwise destroying or modifying the personal identifying information in those records to make it unreadable or indecipherable in order to ensure the security and confidentiality of the personal identifying information.
