20105345D

**SENATE BILL NO. 1050**

Offered January 17, 2020

*A BILL to amend and reenact §§ 32.1-127 and 37.2-808 of the Code of Virginia, relating to hospitals; custody of person subject to emergency custody order; regulations.*

Patron—Deeds

Referred to Committee on Education and Health

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 32.1-127 and 37.2-808 of the Code of Virginia are amended and reenacted as follows:**

**§ 32.1-127. Regulations.**

A. The regulations promulgated by the Board to carry out the provisions of this article shall be in substantial conformity to the standards of health, hygiene, sanitation, construction and safety as established and recognized by medical and health care professionals and by specialists in matters of public health and safety, including health and safety standards established under provisions of Title XVIII and Title XIX of the Social Security Act, and to the provisions of Article 2 (§ 32.1-138 et seq.).

B. Such regulations:

1. Shall include minimum standards for (i) the construction and maintenance of hospitals, nursing homes and certified nursing facilities to ensure the environmental protection and the life safety of its patients, employees, and the public; (ii) the operation, staffing and equipping of hospitals, nursing homes and certified nursing facilities; (iii) qualifications and training of staff of hospitals, nursing homes and certified nursing facilities, except those professionals licensed or certified by the Department of Health Professions; (iv) conditions under which a hospital or nursing home may provide medical and nursing services to patients in their places of residence; and (v) policies related to infection prevention, disaster preparedness, and facility security of hospitals, nursing homes, and certified nursing facilities. For purposes of this paragraph, facilities in which five or more first trimester abortions per month are performed shall be classified as a category of "hospital";

2. Shall provide that at least one physician who is licensed to practice medicine in this Commonwealth shall be on call at all times, though not necessarily physically present on the premises, at each hospital which operates or holds itself out as operating an emergency service;

3. May classify hospitals and nursing homes by type of specialty or service and may provide for licensing hospitals and nursing homes by bed capacity and by type of specialty or service;

4. Shall also require that each hospital establish a protocol for organ donation, in compliance with federal law and the regulations of the Centers for Medicare and Medicaid Services (CMS), particularly 42 C.F.R. § 482.45. Each hospital shall have an agreement with an organ procurement organization designated in CMS regulations for routine contact, whereby the provider's designated organ procurement organization certified by CMS (i) is notified in a timely manner of all deaths or imminent deaths of patients in the hospital and (ii) is authorized to determine the suitability of the decedent or patient for organ donation and, in the absence of a similar arrangement with any eye bank or tissue bank in Virginia certified by the Eye Bank Association of America or the American Association of Tissue Banks, the suitability for tissue and eye donation. The hospital shall also have an agreement with at least one tissue bank and at least one eye bank to cooperate in the retrieval, processing, preservation, storage, and distribution of tissues and eyes to ensure that all usable tissues and eyes are obtained from potential donors and to avoid interference with organ procurement. The protocol shall ensure that the hospital collaborates with the designated organ procurement organization to inform the family of each potential donor of the option to donate organs, tissues, or eyes or to decline to donate. The individual making contact with the family shall have completed a course in the methodology for approaching potential donor families and requesting organ or tissue donation that (a) is offered or approved by the organ procurement organization and designed in conjunction with the tissue and eye bank community and (b) encourages discretion and sensitivity according to the specific circumstances, views, and beliefs of the relevant family. In addition, the hospital shall work cooperatively with the designated organ procurement organization in educating the staff responsible for contacting the organ procurement organization's personnel on donation issues, the proper review of death records to improve identification of potential donors, and the proper procedures for maintaining potential donors while necessary testing and placement of potential donated organs, tissues, and eyes takes place. This process shall be followed, without exception, unless the family of the relevant decedent or patient has expressed opposition to organ donation, the chief administrative officer of the hospital or his designee knows of such opposition, and no donor card or other relevant document, such as an advance directive, can be found;

5. Shall require that each hospital that provides obstetrical services establish a protocol for admission or transfer of any pregnant woman who presents herself while in labor;

6. Shall also require that each licensed hospital develop and implement a protocol requiring written discharge plans for identified, substance-abusing, postpartum women and their infants. The protocol shall require that the discharge plan be discussed with the patient and that appropriate referrals for the mother and the infant be made and documented. Appropriate referrals may include, but need not be limited to, treatment services, comprehensive early intervention services for infants and toddlers with disabilities and their families pursuant to Part H of the Individuals with Disabilities Education Act, 20 U.S.C. § 1471 et seq., and family-oriented prevention services. The discharge planning process shall involve, to the extent possible, the father of the infant and any members of the patient's extended family who may participate in the follow-up care for the mother and the infant. Immediately upon identification, pursuant to § 54.1-2403.1, of any substance-abusing, postpartum woman, the hospital shall notify, subject to federal law restrictions, the community services board of the jurisdiction in which the woman resides to appoint a discharge plan manager. The community services board shall implement and manage the discharge plan;

7. Shall require that each nursing home and certified nursing facility fully disclose to the applicant for admission the home's or facility's admissions policies, including any preferences given;

8. Shall require that each licensed hospital establish a protocol relating to the rights and responsibilities of patients which shall include a process reasonably designed to inform patients of such rights and responsibilities. Such rights and responsibilities of patients, a copy of which shall be given to patients on admission, shall be consistent with applicable federal law and regulations of the Centers for Medicare and Medicaid Services;

9. Shall establish standards and maintain a process for designation of levels or categories of care in neonatal services according to an applicable national or state-developed evaluation system. Such standards may be differentiated for various levels or categories of care and may include, but need not be limited to, requirements for staffing credentials, staff/patient ratios, equipment, and medical protocols;

10. Shall require that each nursing home and certified nursing facility train all employees who are mandated to report adult abuse, neglect, or exploitation pursuant to § 63.2-1606 on such reporting procedures and the consequences for failing to make a required report;

11. Shall permit hospital personnel, as designated in medical staff bylaws, rules and regulations, or hospital policies and procedures, to accept emergency telephone and other verbal orders for medication or treatment for hospital patients from physicians, and other persons lawfully authorized by state statute to give patient orders, subject to a requirement that such verbal order be signed, within a reasonable period of time not to exceed 72 hours as specified in the hospital's medical staff bylaws, rules and regulations or hospital policies and procedures, by the person giving the order, or, when such person is not available within the period of time specified, co-signed by another physician or other person authorized to give the order;

12. Shall require, unless the vaccination is medically contraindicated or the resident declines the offer of the vaccination, that each certified nursing facility and nursing home provide or arrange for the administration to its residents of (i) an annual vaccination against influenza and (ii) a pneumococcal vaccination, in accordance with the most recent recommendations of the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention;

13. Shall require that each nursing home and certified nursing facility register with the Department of State Police to receive notice of the registration or reregistration of any sex offender within the same or a contiguous zip code area in which the home or facility is located, pursuant to § 9.1-914;

14. Shall require that each nursing home and certified nursing facility ascertain, prior to admission, whether a potential patient is a registered sex offender, if the home or facility anticipates the potential patient will have a length of stay greater than three days or in fact stays longer than three days;

15. Shall require that each licensed hospital include in its visitation policy a provision allowing each adult patient to receive visits from any individual from whom the patient desires to receive visits, subject to other restrictions contained in the visitation policy including, but not limited to, those related to the patient's medical condition and the number of visitors permitted in the patient's room simultaneously;

16. Shall require that each nursing home and certified nursing facility shall, upon the request of the facility's family council, send notices and information about the family council mutually developed by the family council and the administration of the nursing home or certified nursing facility, and provided to the facility for such purpose, to the listed responsible party or a contact person of the resident's choice up to six times per year. Such notices may be included together with a monthly billing statement or other regular communication. Notices and information shall also be posted in a designated location within the nursing home or certified nursing facility. No family member of a resident or other resident representative shall be restricted from participating in meetings in the facility with the families or resident representatives of other residents in the facility;

17. Shall require that each nursing home and certified nursing facility maintain liability insurance coverage in a minimum amount of $1 million, and professional liability coverage in an amount at least equal to the recovery limit set forth in § 8.01-581.15, to compensate patients or individuals for injuries and losses resulting from the negligent or criminal acts of the facility. Failure to maintain such minimum insurance shall result in revocation of the facility's license;

18. Shall require each hospital that provides obstetrical services to establish policies to follow when a stillbirth, as defined in § 32.1-69.1, occurs that meet the guidelines pertaining to counseling patients and their families and other aspects of managing stillbirths as may be specified by the Board in its regulations;

19. Shall require each nursing home to provide a full refund of any unexpended patient funds on deposit with the facility following the discharge or death of a patient, other than entrance-related fees paid to a continuing care provider as defined in § 38.2-4900, within 30 days of a written request for such funds by the discharged patient or, in the case of the death of a patient, the person administering the person's estate in accordance with the Virginia Small Estates Act (§ 64.2-600 et seq.);

20. Shall require that each hospital that provides inpatient psychiatric services establish a protocol that requires, for any refusal to admit (i) a medically stable patient referred to its psychiatric unit, direct verbal communication between the on-call physician in the psychiatric unit and the referring physician, if requested by such referring physician, and prohibits on-call physicians or other hospital staff from refusing a request for such direct verbal communication by a referring physician and (ii) a patient for whom there is a question regarding the medical stability or medical appropriateness of admission for inpatient psychiatric services due to a situation involving results of a toxicology screening, the on-call physician in the psychiatric unit to which the patient is sought to be transferred to participate in direct verbal communication, either in person or via telephone, with a clinical toxicologist or other person who is a Certified Specialist in Poison Information employed by a poison control center that is accredited by the American Association of Poison Control Centers to review the results of the toxicology screen and determine whether a medical reason for refusing admission to the psychiatric unit related to the results of the toxicology screen exists, if requested by the referring physician;

21. Shall require that each hospital that is equipped to provide life-sustaining treatment shall develop a policy governing determination of the medical and ethical appropriateness of proposed medical care, which shall include (i) a process for obtaining a second opinion regarding the medical and ethical appropriateness of proposed medical care in cases in which a physician has determined proposed care to be medically or ethically inappropriate; (ii) provisions for review of the determination that proposed medical care is medically or ethically inappropriate by an interdisciplinary medical review committee and a determination by the interdisciplinary medical review committee regarding the medical and ethical appropriateness of the proposed health care; and (iii) requirements for a written explanation of the decision reached by the interdisciplinary medical review committee, which shall be included in the patient's medical record. Such policy shall ensure that the patient, his agent, or the person authorized to make medical decisions pursuant to § 54.1-2986 (a) are informed of the patient's right to obtain his medical record and to obtain an independent medical opinion and (b) afforded reasonable opportunity to participate in the medical review committee meeting. Nothing in such policy shall prevent the patient, his agent, or the person authorized to make medical decisions pursuant to § 54.1-2986 from obtaining legal counsel to represent the patient or from seeking other remedies available at law, including seeking court review, provided that the patient, his agent, or the person authorized to make medical decisions pursuant to § 54.1-2986, or legal counsel provides written notice to the chief executive officer of the hospital within 14 days of the date on which the physician's determination that proposed medical treatment is medically or ethically inappropriate is documented in the patient's medical record;

22. Shall require every hospital with an emergency department to establish protocols to ensure that security personnel of the emergency department, if any, receive training appropriate to the populations served by the emergency department, which may include training based on a trauma-informed approach in identifying and safely addressing situations involving patients or other persons who pose a risk of harm to themselves or others due to mental illness or substance abuse or who are experiencing a mental health crisis;

23. Shall require that each hospital establish a protocol requiring that, before a health care provider arranges for air medical transportation services for a patient who does not have an emergency medical condition as defined in 42 U.S.C. § 1395dd(e)(1), the hospital shall provide the patient or his authorized representative with written or electronic notice that the patient (i) may have a choice of transportation by an air medical transportation provider or medically appropriate ground transportation by an emergency medical services provider and (ii) will be responsible for charges incurred for such transportation in the event that the provider is not a contracted network provider of the patient's health insurance carrier or such charges are not otherwise covered in full or in part by the patient's health insurance plan; ~~and~~

24. Shall establish an exemption, for a period of no more than 30 days, from the requirement to

obtain a license to add temporary beds in an existing hospital or nursing home when the Commissioner has determined that a natural or man-made disaster has caused the evacuation of a hospital or nursing home and that a public health emergency exists due to a shortage of hospital or nursing home beds*; and*

*25. Shall require each hospital to be licensed to provide the level of security necessary to accept the transfer of custody of individuals who are the subject of an emergency custody order and actually capable of accepting custody of individuals who are the subject of an emergency custody order in accordance with the requirements of § 37.2-808. Such regulations (i) shall require each hospital to enter into memorandums of understanding with local law-enforcement agencies for jurisdictions served by the hospital setting forth the terms and conditions for the transfer of custody of individuals who are the subject of an emergency custody order and (ii) shall provide that no hospital may require a local law-enforcement agency from which custody of an individual who is the subject of an emergency custody order is transferred to pay any fee for or cost of the transfer of custody*.

C. Upon obtaining the appropriate license, if applicable, licensed hospitals, nursing homes, and certified nursing facilities may operate adult day care centers.

D. All facilities licensed by the Board pursuant to this article which provide treatment or care for hemophiliacs and, in the course of such treatment, stock clotting factors, shall maintain records of all lot numbers or other unique identifiers for such clotting factors in order that, in the event the lot is found to be contaminated with an infectious agent, those hemophiliacs who have received units of this contaminated clotting factor may be apprised of this contamination. Facilities which have identified a lot which is known to be contaminated shall notify the recipient's attending physician and request that he notify the recipient of the contamination. If the physician is unavailable, the facility shall notify by mail, return receipt requested, each recipient who received treatment from a known contaminated lot at the individual's last known address.

**§ 37.2-808. Emergency custody; issuance and execution of order.**

A. Any magistrate shall issue, upon the sworn petition of any responsible person, treating physician, or upon his own motion, an emergency custody order when he has probable cause to believe that any person (i) has a mental illness and that there exists a substantial likelihood that, as a result of mental illness, the person will, in the near future, (a) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (b) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs, (ii) is in need of hospitalization or treatment, and (iii) is unwilling to volunteer or incapable of volunteering for hospitalization or treatment. Any emergency custody order entered pursuant to this section shall provide for the disclosure of medical records pursuant to § 37.2-804.2. This subsection shall not preclude any other disclosures as required or permitted by law.

When considering whether there is probable cause to issue an emergency custody order, the magistrate may, in addition to the petition, consider (1) the recommendations of any treating or examining physician or psychologist licensed in Virginia, if available, (2) any past actions of the person, (3) any past mental health treatment of the person, (4) any relevant hearsay evidence, (5) any medical records available, (6) any affidavits submitted, if the witness is unavailable and it so states in the affidavit, and (7) any other information available that the magistrate considers relevant to the determination of whether probable cause exists to issue an emergency custody order.

B. Any person for whom an emergency custody order is issued shall be taken into custody and transported to a convenient location to be evaluated to determine whether the person meets the criteria for temporary detention pursuant to § 37.2-809 and to assess the need for hospitalization or treatment. The evaluation shall be made by a person designated by the community services board who is skilled in the diagnosis and treatment of mental illness and who has completed a certification program approved by the Department.

C. The magistrate issuing an emergency custody order shall specify the primary law-enforcement agency and jurisdiction to execute the emergency custody order and provide transportation. However, the magistrate shall consider any request to authorize transportation by an alternative transportation provider in accordance with this section, whenever an alternative transportation provider is identified to the magistrate, which may be a person, facility, or agency, including a family member or friend of the person who is the subject of the order, a representative of the community services board, or other transportation provider with personnel trained to provide transportation in a safe manner, upon determining, following consideration of information provided by the petitioner; the community services board or its designee; the local law-enforcement agency, if any; the person's treating physician, if any; or other persons who are available and have knowledge of the person, and, when the magistrate deems appropriate, the proposed alternative transportation provider, either in person or via two-way electronic video and audio or telephone communication system, that the proposed alternative transportation provider is available to provide transportation, willing to provide transportation, and able to provide transportation in a safe manner. When transportation is ordered to be provided by an alternative transportation provider, the magistrate shall order the specified primary law-enforcement agency to

execute the order, to take the person into custody, and to transfer custody of the person to the alternative transportation provider identified in the order. In such cases, a copy of the emergency custody order shall accompany the person being transported pursuant to this section at all times and shall be delivered by the alternative transportation provider to the community services board or its designee responsible for conducting the evaluation. The community services board or its designee conducting the evaluation shall return a copy of the emergency custody order to the court designated by the magistrate as soon as is practicable. Delivery of an order to a law-enforcement officer or alternative transportation provider and return of an order to the court may be accomplished electronically or by facsimile.

Transportation under this section shall include transportation to a medical facility as may be necessary to obtain emergency medical evaluation or treatment that shall be conducted immediately in accordance with state and federal law. Transportation under this section shall include transportation to a medical facility for a medical evaluation if a physician at the hospital in which the person subject to the emergency custody order may be detained requires a medical evaluation prior to admission.

D. In specifying the primary law-enforcement agency and jurisdiction for purposes of this section, the magistrate shall order the primary law-enforcement agency from the jurisdiction served by the community services board that designated the person to perform the evaluation required in subsection B to execute the order and, in cases in which transportation is ordered to be provided by the primary law-enforcement agency, provide transportation. If the community services board serves more than one jurisdiction, the magistrate shall designate the primary law-enforcement agency from the particular jurisdiction within the community services board's service area where the person who is the subject of the emergency custody order was taken into custody or, if the person has not yet been taken into custody, the primary law-enforcement agency from the jurisdiction where the person is presently located to execute the order and provide transportation.

E. The law-enforcement agency or alternative transportation provider providing transportation pursuant to this section may transfer custody of the person to the facility or location to which the person is transported for the evaluation required in subsection B, G, or H if the facility or location (i) is licensed to provide the level of security necessary to protect both the person and others from harm, (ii) is actually capable of providing the level of security necessary to protect the person and others from harm, and (iii) in cases in which transportation is provided by a law-enforcement agency, has entered into an agreement or memorandum of understanding with the law-enforcement agency setting forth the terms and conditions under which it will accept a transfer of custody, provided, however, that the facility or location may not require the law-enforcement agency to pay any fees or costs for the transfer of custody.

F. A law-enforcement officer may lawfully go or be sent beyond the territorial limits of the county, city, or town in which he serves to any point in the Commonwealth for the purpose of executing an emergency custody order pursuant to this section.

G. A law-enforcement officer who, based upon his observation or the reliable reports of others, has probable cause to believe that a person meets the criteria for emergency custody as stated in this section may take that person into custody and transport that person to an appropriate location to assess the need for hospitalization or treatment without prior authorization. A law-enforcement officer who takes a person into custody pursuant to this subsection or subsection H may lawfully go or be sent beyond the territorial limits of the county, city, or town in which he serves to any point in the Commonwealth for the purpose of obtaining the assessment. Such evaluation shall be conducted immediately. The period of custody shall not exceed ~~eight~~ *24* hours from the time the law-enforcement officer takes the person into custody.

H. A law-enforcement officer who is transporting a person who has voluntarily consented to be transported to a facility for the purpose of assessment or evaluation and who is beyond the territorial limits of the county, city, or town in which he serves may take such person into custody and transport him to an appropriate location to assess the need for hospitalization or treatment without prior authorization when the law-enforcement officer determines (i) that the person has revoked consent to be transported to a facility for the purpose of assessment or evaluation, and (ii) based upon his observations, that probable cause exists to believe that the person meets the criteria for emergency custody as stated in this section. The period of custody shall not exceed ~~eight~~ *24* hours from the time the law-enforcement officer takes the person into custody.

I. Nothing herein shall preclude a law-enforcement officer or alternative transportation provider from obtaining emergency medical treatment or further medical evaluation at any time for a person in his custody as provided in this section.

J. A representative of the primary law-enforcement agency specified to execute an emergency custody order or a representative of the law-enforcement agency employing a law-enforcement officer who takes a person into custody pursuant to subsection G or H shall notify the community services

board responsible for conducting the evaluation required in subsection B, G, or H as soon as practicable after execution of the emergency custody order or after the person has been taken into custody pursuant to subsection G or H.

K. The person shall remain in custody until a temporary detention order is issued, until the person is released, or until the emergency custody order expires. An emergency custody order shall be valid for a period not to exceed ~~eight~~ *24* hours from the time of execution.

L. Nothing in this section shall preclude the issuance of an order for temporary detention for testing, observation, or treatment pursuant to § 37.2-1104 for a person who is also the subject of an emergency custody order issued pursuant to this section. In any case in which an order for temporary detention for testing, observation, or treatment is issued for a person who is also the subject of an emergency custody order, the person may be detained by a hospital emergency room or other appropriate facility for testing, observation, and treatment for a period not to exceed 24 hours, unless extended by the court as part of an order pursuant to § 37.2-1101, in accordance with subsection A of § 37.2-1104. Upon completion of testing, observation, or treatment pursuant to § 37.2-1104, the hospital emergency room or other appropriate facility in which the person is detained shall notify the nearest community services board, and the designee of the community services board shall, as soon as is practicable and prior to the expiration of the order for temporary detention issued pursuant to § 37.2-1104, conduct an evaluation of the person to determine if he meets the criteria for temporary detention pursuant to § 37.2-809.

M. Any person taken into emergency custody pursuant to this section shall be given a written summary of the emergency custody procedures and the statutory protections associated with those procedures.

N. If an emergency custody order is not executed within eight hours of its issuance, the order shall be void and shall be returned unexecuted to the office of the clerk of the issuing court or, if such office is not open, to any magistrate serving the jurisdiction of the issuing court.

O. ~~In addition to the eight-hour period of emergency custody set forth in subsection G, H, or K, if the individual is detained in a state facility pursuant to subsection E of § 37.2-809, the state facility and an employee or designee of the community services board as defined in § 37.2-809 may, for an additional four hours, continue to attempt to identify an alternative facility that is able and willing to provide temporary detention and appropriate care to the individual.~~

~~P.~~ Payments shall be made pursuant to § 37.2-804 to licensed health care providers for medical screening and assessment services provided to persons with mental illnesses while in emergency custody.

~~Q.~~ *P.* No person who provides alternative transportation pursuant to this section shall be liable to the person being transported for any civil damages for ordinary negligence in acts or omissions that result from providing such alternative transportation.
