

1 VIRGINIA ACTS OF ASSEMBLY — CHAPTER

2 An Act to amend the Code of Virginia by adding in Article 5 of Chapter 1 of Title 32.1 a section
3 numbered 32.1-34.3, relating to cooperative local health budget; report.

4 [H 1963]

5 Approved

6 Be it enacted by the General Assembly of Virginia:

7 1. That the Code of Virginia is amended by adding in Article 5 of Chapter 1 of Title 32.1 a
8 section numbered 32.1-34.3 as follows:

9 § 32.1-34.3. *Funding local health departments; cooperative local health budget; report.*

10 A. As used in this section:

11 "Cooperative local health budget" means the total amount of state funds, local matching funds, and
12 estimated self-generated local service revenues allocated to support a local department of health.

13 "Estimated self-generated local service revenues" means the amount of funds projected to be received
14 by a local department of health from fees charged to individuals or third-party payment sources for
15 services and permits.

16 "Local matching funds" means the amount of funds that a county or city shall be required to
17 contribute to the cooperative local health budget for the local health department that serves that county
18 or city.

19 "Revenue generation capacity factor" means the result of a formula that (i) determines a county's or
20 city's revenue capacity relative to the state revenue capacity, (ii) determines a county's or city's median
21 household income relative to the statewide median household income, and (iii) adjusts the amount
22 determined in clause (i) by the amount determined in clause (ii).

23 B. Funding for local health departments shall consist of such state funds as may be allocated for the
24 operation of the local health department together with local matching funds and estimated self-generated
25 local service revenues, the total amount of which shall constitute the collective local health budget
26 available to a local department of health.

27 C. The amount of local matching funds a county or city shall be required to contribute to the
28 cooperative local health budget shall be determined by the Department on the basis of the county's or
29 city's revenue generation capacity factor. However, in no case shall the amount of local matching funds
30 required be greater than 45 percent or less than 18 percent of the total amount of the cooperative local
31 health budget for the local health department that serves the county or city, after deducting estimated
32 self-generated local service revenues.

33 D. The Department shall biennially review the local matching fund amount for each county and city
34 in the Commonwealth and determine whether such amount should be revised as a result of changes to
35 the county's or city's revenue generation capacity factor. The Department shall report the results of such
36 review and any recommendations for changes to a county's or city's local matching fund amount to the
37 Governor and the General Assembly.
