8. Fiscal Implications: It is anticipated that this bill will result in a fiscal impact to the Department of Mines, Minerals and Energy (DMME); however, the fiscal impact is reflected in HB1800/SB1100 as Introduced. It is anticipated that the reorganization of the agency will

result in general fund savings of \$547,780 beginning in FY 2022 and ongoing, and that any expenditure impact associated with the reorganization can be absorbed with existing resources.

As part of the reorganization toward a focus on renewable energy development, the name of the agency will change as will the names of several divisions. Additionally, the agency will eliminate 11 existing positions, and establish eight new positions, and close a field office. Most of the savings anticipated to be generated as a result of the elimination of positions in the regulatory divisions and the closure of a field office will be reinvested primarily in the agency's re-named Division of Renewable Energy and Energy Development, and any savings that result after reinvestment in the Division of Renewable Energy and Energy Development are eliminated from the agency's budget beginning in FY 2022 as reflected in HB1800/SB800, as Introduced.

9. Specific Agency or Political Subdivisions Affected: Department of Mines, Minerals and Energy.
