4. Title: Advanced recycling; not considered solid waste management; definition.

5. Summary: Defines "advanced recycling" as a manufacturing process for the conversion of post-use polymers and recovered feedstocks into basic hydrocarbon raw materials and other materials. The bill provides that advanced recycling facilities are subject to all applicable federal and state environmental laws and regulations. The bill also defines "gasification," "post-use polymer," and other terms related to advanced recycling. The bill provides that "waste management" does not include pyrolysis, gasification, depolymerization, solvolysis, or any other advanced recycling process if the source materials used in such process are composed of post-use polymers or recovered feedstocks.

6. Budget Amendment Necessary: No.

7. Fiscal Impact Estimates: Final. See item 8.

8. Fiscal Implications: It is anticipated that any fiscal impact on the Department of Environmental Quality as a result of this bill can be absorbed within existing resources.

9. Specific Agency or Political Subdivisions Affected: Department of Environmental Quality

10. Technical Amendment Necessary: No.

11. Other Comments: None.
