to student outcomes or the efficient operation of the public schools, provided that the Department of Education may require such schools and local school divisions to provide any such information or complete any such forms if the Department of Education demonstrates a compelling need or demonstrates that it does not have a more expeditious method for obtaining the information or completing the forms.

~~B. The Department of Education shall study the transition to electronic submission of all information and forms to the Department of Education by public elementary and secondary schools and local school divisions and submit a report of its findings to the Chairmen of the House Committee on Education and the Senate Committee on Education and Health no later than November 1, 2016.~~

To avoid unnecessary duplication of public broadcasting services, the Board shall consider: (i) the adequacy of existing programming, coverage, and other public broadcasting services in the geographic area to be served and the extent to which those services would be duplicated by an additional public broadcasting station and (ii) the sufficiency of funds administered by the Board to support existing or proposed public broadcasting stations;

5. Coordinate such strategic planning by the public broadcasting stations as the Board deems appropriate and identify and communicate to the Governor and the General Assembly the funding and other requirements of Virginia's public broadcasting stations; and

The Governor shall approve the adjustment to the state share prior to the disbursement of funds. The Department of Education shall annually report to the Chairmen of the House Committee on Appropriations and Senate Committee on Finance and Appropriations the cost-savings agreements made and the adjusted state shares so approved.

B. The local school board receiving the adjusted state share shall not use the additional funds received to supplant local funds appropriated for education. The adjusted state share shall be used solely for educational purposes and shall not be used to reduce local operating expenditures for public education from the prior fiscal year. However, no school division shall be required to maintain a per pupil expenditure for operations that exceeds the per pupil expenditure in the prior fiscal year. The superintendent of the school division shall inform the Superintendent of Public Instruction of the public education purpose for which these local funds shall be used.

C. Nothing in this section shall prohibit the Commonwealth from terminating or modifying any program or function under which distribution to a local school board has been made, and if so terminated or modified all obligations hereunder shall cease or be reduced in proportion with such modifications, as the case may be.

D. Except as provided in subsection C, such contractual agreements shall remain in effect until terminated by the relevant school divisions. If any such contractual agreements between the relevant school divisions terminate, the Commonwealth's obligation under this section shall cease.

E. This agreement and adjusted state payment shall be in lieu of any existing funds a locality receives from a Small School Division Assistance grant.

To convey the title, the school board shall adopt a resolution that such real property is surplus and shall record such resolution along with the deed to the property with the clerk of the circuit court for the county or city where such property is located. Upon the recording of the resolution and the deed, the title shall vest in the appropriate county, city or town.

B. A school board shall have the power to exchange real and personal property, to lease real and personal property either as lessor or lessee, to grant easements on real property, to convey real property in trust to secure loans, to convey real property to adjust the boundaries of the property and to sell personal property in such manner and upon such terms as it deems proper. D. School boards may donate obsolete educational technology hardware and software that is being replaced pursuant to subdivision subsection B 4 of § 22.1-199.1. Any such donations shall be offered to other school divisions, to students, as provided in Board of Education guidelines, and to preschool programs in the Commonwealth. In addition, elected school boards may donate such obsolete educational technology hardware and software and other obsolete personal property to a Virginia nonprofit organization which is exempt from taxation under § 501(c)(3) of the Internal Revenue Code.

§ 22.1-175.4. Application for grants.

A. All funds appropriated for financial assistance for the purposes of this chapter during fiscal years 1998-1999 and 1999-2000 pursuant to Item 554 of the 1998-2000 Appropriation Act shall be apportioned and distributed among the school divisions of the Commonwealth as follows: (i) there shall be apportioned and distributed equally to every school division grants in the sum of \$200,000 each and (ii) the balance of all available funds shall be apportioned and distributed to each school division on a pro rata basis according to the school division's average daily membership adjusted by the locality's composite index of ability to pay as set forth in the general appropriation act.

Local governing bodies may establish a separate escrow fund for the deposit of such funds as provided in § 22.1-175.5.

B. All funds appropriated for financial assistance for the purposes of this chapter for subsequent fiscal years shall be apportioned and distributed among the school divisions of the Commonwealth in accordance with eligibility and needs criteria to be established by the 2000 Session of the General Assembly. In developing such eligibility and needs criteria, the 2000 Session of the General Assembly shall consider the recommendations of the Commission on State Funding of Public School Construction.

§ 22.1-178. Requirements for persons employed to drive school buses.

A. No school board shall hire, employ, or enter into any agreement with any person for the purposes of operating a school bus transporting pupils unless the person proposed to so operate such school bus shall:

1. Have a physical examination of a scope prescribed by the Board of Education with the advice of the Medical Society of Virginia and furnish a form prescribed by the Board of Education showing the results of such examination.

2. Furnish a statement or copy of records from the Department of Motor Vehicles showing that the records of such Department do not disclose that the person, within the preceding five years, has been convicted upon a charge of driving under the influence of alcohol or drugs, convicted of a felony or assigned to any alcohol safety action program or driver alcohol rehabilitation program pursuant to § 18.2-271.1 or, within the preceding 12 months, has been convicted of two or more moving traffic violations or required to attend a driver improvement clinic by the Commissioner of the Department of Motor Vehicles pursuant to § 46.2-498.

3. Furnish a statement signed by two reputable persons who reside in the school division or in the applicant's community that the person is of good moral character.

4. Exhibit a license showing the person has successfully undertaken the examination prescribed by § 46.2-339.

5. Have reached the age of 18 on by the first day of the school year.

B. Any school board may require proof of current certification or training in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator as a condition to employment to operate a school bus transporting pupils.

C. School boards may require persons accepting employment after July 1, 1994, as a driver of a school bus transporting pupils to agree, as a condition of employment, to submit to alcohol and controlled substance testing. Any such tests shall be conducted in compliance with Board of Education regulations.

D. The documents required pursuant to subdivisions A 1 and A 2 shall be furnished annually prior to the anniversary date of the employment agreement as a condition to continuing employment to operate a school bus.

E. The documents required pursuant to this section shall be filed with, and made a part of, the records of the school board employing such person as a school bus operator.

F. The State Department of Education shall furnish to the several division superintendents the necessary forms to be used by applicants in furnishing the information required by this section. Insofar as practicable, such forms shall be designed to limit paperwork, avoid the possibility of mistake, and furnish all parties involved with a complete and accurate record of the information required.

G. The physical examination required by subsection A may be performed and the report of the results signed by a licensed nurse practitioner or physician assistant.

§ 22.1-199.1. Programs designed to promote educational opportunities.

A. The General Assembly finds that Virginia educational research supports the conclusion that poor children are more at risk of educational failure than children from more affluent homes and that reduced pupil/teacher ratios and class sizes result in improved academic performance among young children; to this end, the General Assembly establishes a long-term goal of reducing pupil/teacher ratios and class sizes for grades K through three in those schools in the Commonwealth with high or moderate concentrations of at-risk students.

With such funds as are provided in the appropriation act for this purpose, there is hereby established the statewide voluntary pupil/teacher ratio and class size reduction program for the purpose of reaching the long-term goal of statewide voluntary pupil/teacher ratio and class size reductions for grades K through three in schools with high or moderate concentrations of at-risk students, consistent with the provisions provided in the appropriation act.

In order to facilitate these primary grade ratio and class size reductions, the Department of Education shall calculate the state funding of these voluntary ratio and class size reductions based on the incremental cost of providing the lower class sizes according to the greater of the division average per-pupil cost of all divisions or the actual division per-pupil cost. Localities shall provide matching funds for these voluntary ratio and class size reductions based on the composite index of local ability to pay. School divisions shall notify the Department of Education of their intention to implement the reduced ratios and class sizes in one or more of their qualifying schools by August 1 of each year. By March 31 of each year, school divisions shall forward data substantiating that each participating school

has a complying pupil/teacher ratio.

In developing each proposed biennium budget for public education, the Board of Education shall include funding for these ratios and class sizes. These ratios and class sizes shall be included in the annual budget for public education.

B. The General Assembly finds that educational technology is one of the most important components, along with highly skilled teachers, in ensuring the delivery of quality public school education throughout the Commonwealth. Therefore, the Board of Education shall strive to incorporate technological studies within the teaching of all disciplines. Further, the General Assembly notes that educational technology can only be successful if teachers and administrators are provided adequate training and assistance. To this end, the following program is established.

With such funds as are appropriated for this purpose, the Board of Education shall award to the several school divisions grants for expanded access to educational technology. Funding for educational technology training for instructional personnel shall be provided as set forth in the appropriation act.

Funds for improving the quality and capacity of educational technology shall also be provided as set forth in the appropriation act, including, ~~but not limited to~~, (i) funds for providing a technology resource assistant to serve every elementary school in this Commonwealth beginning on July 1, 1998, and (ii) funds to maintain the currency of career and technical education programs. Any local school board accepting funds to hire technology resource assistants or maintain currency of career and technical education programs shall commit to providing the required matching funds, based on the composite index of local ability to pay.

Each qualifying school board shall establish an individualized technology plan, which shall be approved by the Superintendent of Public Instruction, for integrating technology into the classroom and into schoolwide instructional programs, including career and technical education programs. The grants shall be prioritized as follows:

1. In the 1994 biennium, the first priority for these funds shall be to automate the library media centers and provide network capabilities in Virginia's elementary, middle and high schools, or combination thereof, in order to ensure access to the statewide library and other information networks. If any elementary, middle or high school has already met this priority, the 1994 biennium grant shall be used to provide other educational technologies identified in the relevant division's approved technology plan, such as multimedia and telecomputing packages, integrated learning systems, laptop computer loan programs, career and technical education laboratories or other electronic techniques designed to enhance public education and to facilitate teacher training in and implementation of effective instructional technology. The Board shall also distribute, as provided in the appropriation act, funds to support the purchase of electronic reference materials for use in the statewide automated reference system.

2. In the 1996 biennium and thereafter, the first priority for funding shall be consistent with those components of the Board of Education's *Board's* revised six-year technology plan ~~which that~~ focus on (i) retrofitting and upgrading existing school buildings to efficiently use educational technology; (ii) providing (a) one network-ready multimedia microcomputer for each classroom, (b) a five-to-one ratio of pupils to network-ready microcomputers, (c) graphing calculators and relevant scientific probes/sensors as required by the Standards of Learning, and (d) training and professional development on available technologies and software to all levels and positions, including professional development for personnel delivering career and technical education at all levels and positions; and (iii) assisting school divisions in developing integrated voice-, video-, and data-connectivity to local, national, and international resources.

This funding may be used to implement a local school division's long-range technology plan, at the discretion of the relevant school board, if the local plan meets or exceeds the goals and standards of the Board's revised six-year technology plan and has been approved by the Superintendent of Public Instruction.

3. The ~~Departments~~ Department of Education, ~~Information Technology~~, and the Department of General Services, and the Virginia Information Technologies Agency shall coordinate master contracts for the purchase by local school boards of the aforementioned educational technologies and reference materials.

4. Beginning on July 1, 1998, a A technology replacement program shall be, with such funds as may be appropriated for this purpose, implemented to replace obsolete educational hardware and software. As provided in subsection D of § 22.1-129, school boards may donate obsolete educational technology hardware and software ~~which that~~ are being replaced. Any such donations shall be offered to other school divisions and to preschool programs in the Commonwealth, or to public school students as provided in guidelines to be promulgated by the Board of Education. Such guidelines shall include criteria for determining student eligibility and need, a reporting system for the compilation of information concerning the number and socioeconomic characteristics of recipient students, and notification of parents of the availability of such donations of obsolete educational hardware and software.

5. In fiscal year 2000, the Board of Education shall, with such funds as are appropriated for this purpose, contract for the development or purchase of interactive educational software and other instructional materials designed as tutorials to improve achievement on the Standards of Learning

assessments. Such interactive educational software and other instructional materials may be used in media centers, computer laboratories, libraries, after-school or before-school programs or remedial programs by teachers and other instructional personnel or provided to parents and students to be used in the home. This interactive educational software and other instructional materials shall only be used as supplemental tools for instruction, remediation, and acceleration of the learning required by the K through 12 Standards of Learning objectives.

Consistent with school board policies designed to improve school-community communications and guidelines for providing instructional assistance in the home, each school division shall strive to establish a voice mail communication system after regular school hours for parents, families, and teachers by the year 2000.

C. The General Assembly finds that local autonomy in making decisions on local educational needs and priorities results in effective ~~grass-roots~~ *grassroots* efforts to improve education in the Commonwealth's public schools only when coupled with sufficient state funding; to this end, the following block grant program is hereby established. With such funds as are provided in the appropriation act, the Department of Education shall distribute block grants to localities to enable compliance with the Commonwealth's requirements for school divisions in effect on January 1, 1995. Therefore, for the purpose of such compliance, the block grant herein established shall consist of a sum equal to the amount appropriated in the appropriation act for the covered programs, including the at-risk add-on program; dropout prevention, specifically Project YES; Project Discovery; English as a second language programs, including programs for overage, nonschooled students; Advancement Via Individual Determination (AVID); the Homework Assistance Program; programs initiated under the Virginia Guaranteed Assistance Program, except that such funds shall not be used to pay any expenses of participating students at institutions of higher education; Reading Recovery; and school/community health centers. Each school board may use any funds received through the block grant to implement the covered programs and other programs designed to save the Commonwealth's children from educational failure.

D. In order to reduce pupil/teacher ratios and class sizes in elementary schools, from such funds as may be appropriated for this purpose, each school board may employ additional classroom teachers, remedial teachers, and reading specialists for each of its elementary schools over the requirements of the Standards of Quality. State and local funding for such additional classroom teachers, remedial teachers, and reading specialists shall be apportioned as provided in the appropriation act.

E. Pursuant to a turnaround specialist program administered by the Department of Education, local school boards may enter into agreements with individuals to be employed as turnaround specialists to address those conditions at the school that may impede educational progress and effectiveness and academic success. Local school boards may offer such turnaround specialists or other administrative personnel incentives such as increased compensation, improved retirement benefits in accordance with Chapter 6.2 (§ 51.1-617 et seq.) of Title 51.1, increased deferred compensation in accordance with § 51.1-603, relocation expenses, bonuses, and other incentives as may be determined by the board.

F. The General Assembly finds that certain schools have particular difficulty hiring teachers for certain subject areas and that the need for such teachers in these schools is particularly strong. Accordingly in an effort to attract and retain high quality teachers, local school boards may offer instructional personnel serving in such schools as a member of a middle school teacher corps administered by the Department of Education incentives such as increased compensation, improved retirement benefits in accordance with Chapter 6.2 (§ 51.1-617 et seq.) of Title 51.1, increased deferred compensation in accordance with § 51.1-603, relocation expenses, bonuses, and other incentives as may be determined by the board.

For purposes of this subsection, "middle school teacher corps" means licensed instructional personnel who are assigned to a local school division to teach in a subject matter in grades six, seven, or eight where there is a critical need, as determined by the Department of Education. The contract between such persons and the relevant local school board shall specify that the contract is for service in the middle school teacher corps.

§ 22.1-207.3. School breakfast programs.

A. ~~By July 1, 1994, upon~~ *Upon* the appropriation and authorization of federal funds for the reimbursement of school breakfast programs, each school board shall establish a school breakfast program in any public school in which ~~twenty-five~~ 25 percent or more of enrolled school-age children were approved eligible to receive free or reduced price meals in the federally funded lunch program during the previous school year.

B. The Board of Education shall promulgate regulations for the implementation of the program. Such regulations shall include, but not be limited to, criteria for eligibility and exemptions; a reporting system for the compilation and analysis of information concerning the number and socioeconomic characteristics of participating school-age children; standards for food services; program evaluation; the investigation of complaints; an appeals process; notification of parents and guardians of the availability of the school breakfast program; and provision to teachers, children, and their parents or guardians of nutrition information describing the relationship between good nutrition, learning, and health.

C. Each school board subject to the provisions of this section shall develop and implement a plan to ensure compliance with the provisions of subsection A and submit the plan to the Department of Education no later than ~~thirty~~ 30 days prior to the commencement of the program. ~~Beginning by June 30, 1995, and thereafter annually,~~ *Each* school board shall *annually* report such information as required in subsection B to the Department of Education on such forms and in the manner to be prescribed by the Board. In the event that federal funding for school breakfast programs is reduced or eliminated, a school board may support the program with such state or local funds as may be appropriated for such purposes.

§ 22.1-209.2. Programs and teachers in regional detention homes, certain local detention homes and state agencies and institutions.

The Board of Education shall prepare and supervise the implementation in the regional detention homes and those local detention homes ~~having teachers whose salaries were being funded by the Commonwealth on January 1, 1984,~~ a program designed to educate and train the children detained in the homes. In addition, the Board shall supervise those programs of evaluation, education, and training provided to school-age children by the Department of Health, the Department of Behavioral Health and Developmental Services, the children's teaching hospital associated with the Eastern Virginia Medical School, the Virginia Commonwealth University Health System Authority, the children's teaching hospital associated with the Virginia Commonwealth University Health System Authority, and the University of Virginia Hospitals pursuant to the Board's standards and regulations as required by § 22.1-7.

The Board shall promulgate such rules and regulations as may be necessary to conform these programs with the applicable federal and state laws and regulations including, ~~but not limited to,~~ teacher/student ratios and special education requirements for children with disabilities. The education programs in the relevant detention homes and state agencies and institutions shall be approved by the Board, and the Board shall prepare a budget for these educational programs ~~which~~ *that* shall be solely supported by such general funds as are appropriated by the General Assembly for this purpose. Teacher staffing ratios for regional or local detention homes shall be based on a ratio of one teacher for every ~~twelve~~ 12 beds based on the capacity of the facility; however, if the previous year's average daily attendance exceeds this bed capacity, the ratio shall be based on the average daily attendance at the facility as calculated by the Department of Education from the previous school year.

The Board of Education shall enter into contracts with the relevant state agency or institution or detention facility or the local school divisions in which the state agencies or institutions or the regional detention homes and the relevant local detention homes are located for the hiring and supervision of teachers.

In any case in which the Board enters into a contract with the relevant state agency or institution, the Department of Human Resource Management shall establish salary schedules for the teachers ~~which~~ *that* are competitive with those in effect for the school divisions in which the agency or institution is located.

§ 22.1-212.24. Approval of multidivision online providers; contracts with local school boards.

A. The Superintendent of ~~Public Instruction~~ shall develop, and the Board of Education shall approve, (i) the criteria and application process for approving multidivision online providers; (ii) a process for monitoring approved multidivision online providers; (iii) a process for revocation of the approval of a previously approved multidivision online provider; and (iv) an appeals process for a multidivision online provider whose approval was revoked or whose application was denied. The process developed under this subsection shall require approvals and revocations to be determined by the Superintendent of ~~Public Instruction~~, and either the denial of an application or revocation of approval may be appealed to the Board of Education for review. The approval of a multidivision online provider under this section shall be effective until the approval is revoked, for cause, pursuant to the terms of this section. Any notice of revocation of approval of a multidivision online provider or rejection of an application by a multidivision online provider shall state the grounds for such action with reasonable specificity and give reasonable notice to the multidivision online provider to appeal. ~~These criteria and processes shall be adopted by January 31, 2011.~~

B. In developing the criteria for approval pursuant to subsection A, the Superintendent of ~~Public Instruction~~ shall (i) require multidivision online providers to be accredited by a national, regional, or state accreditation program approved by the Board; (ii) require such courses or programs, pupil performance standards, and curriculum to meet or exceed any applicable Standards of Learning and Standards of Accreditation; (iii) require any educational objectives and assessments used to measure pupil progress toward achievement of the school's pupil performance standards to be in accordance with the Board's Standards of Accreditation and all applicable state and federal laws; (iv) require such courses or programs to maintain minimum staffing requirements appropriate for virtual school programs; and (v) publish the criteria for approval of multidivision online providers on its website, including any applicable deadlines, fees, and guidelines.

C. The Department of ~~Education~~ may charge a multidivision online provider applicant or a local school board requesting to offer a course through Virtual Virginia a fee not to exceed the costs required to ensure proper evaluation and approval of such requests. The Department shall establish and publish a fee schedule for purposes of this subsection.

D. Local school boards may enter into contracts, consistent with the criteria approved by the Board pursuant to this section, with approved private or nonprofit organizations to provide multidivision online courses and virtual school programs. Such contracts shall be exempt from the Virginia Public Procurement Act (§ 2.2-4300 et seq.).

§ 22.1-212.25. Information regarding online courses and virtual programs; report.

A. The Department of ~~Education~~ shall develop and maintain a website that provides objective information for students, parents, and educators regarding online courses and virtual programs offered through local school boards by multidivision online providers that have been approved in accordance with § 22.1-212.24 and courses offered through the Virtual Virginia Program. The website shall include information regarding the overall instructional programs, the specific content of individual online courses and online programs, a direct link to each multidivision online provider's website, how to register for online learning programs and courses, teacher qualifications, course completion rates, and other evaluative and comparative information. The website shall also provide information regarding the process and criteria for approving multidivision online providers. Multidivision online providers shall provide the Department of ~~Education~~ the required information for the website as a condition of maintaining Board approval.

B. The Superintendent of ~~Public Instruction~~ shall develop model policies and procedures regarding student access to online courses and online learning programs that may be used by local school divisions.

Nothing in this article shall be deemed to require a local school division to adopt model policies or procedures developed pursuant to this section.

C. ~~Beginning November 1, 2011, and annually thereafter, the~~ The Board of ~~Education~~ shall include in its annual report to the Governor and the General Assembly information regarding multidivision online learning during the previous school year. The information shall include but not be limited to student demographics, course enrollment data, parental satisfaction, aggregated student course completion and passing rates, and activities and outcomes of course and provider approval reviews. ~~The November 1, 2011, report shall be an interim progress report and include information on the criteria and processes adopted by the Board and outcomes of provider applications.~~

D. ~~By July 1, 2011,~~ local *Local* school boards shall post on their websites information regarding online courses and programs that are available through the school division and Virtual Virginia. Such information shall include but not be limited to the types of online courses and programs available to students through the school division, when the school division will pay course fees and other costs for nonresident students, and the granting of high school credit.

§ 22.1-215.1. Information regarding procedures and rights relating to special education placement and withdrawal.

~~Effective July 1, 2001,~~ the *The* Board of ~~Education~~ shall publicize and disseminate to parents of students who are enrolled in special education programs or for whom a special education placement has been recommended information regarding current federal law and regulation addressing procedures and rights related to the placement and withdrawal of children in special education.

§ 22.1-253.13.3. Standard 3. Accreditation, other standards, assessments, and releases from state regulations.

A. The Board shall promulgate regulations establishing standards for accreditation pursuant to the Administrative Process Act (§ 2.2-4000 et seq.), which shall include (i) student outcome and growth measures, (ii) requirements and guidelines for instructional programs and for the integration of educational technology into such instructional programs, (iii) administrative and instructional staffing levels and positions, including staff positions for supporting educational technology, (iv) student services, (v) auxiliary education programs such as library and media services, (vi) requirements for graduation from high school, (vii) community relations, and (viii) the philosophy, goals, and objectives of public education in the Commonwealth.

The Board shall promulgate regulations establishing standards for accreditation of public virtual schools under the authority of the local school board that enroll students full time.

The Board's regulations establishing standards for accreditation shall ensure that the accreditation process is transparent and based on objective measurements and that any appeal of the accreditation status of a school is heard and decided by the Board.

The Board shall review annually the accreditation status of all schools in the Commonwealth. The Board shall review the accreditation status of a school once every three years if the school has been fully accredited for three consecutive years. Upon such triennial review, the Board shall review the accreditation status of the school for each individual year within that triennial review period. If the Board finds that the school would have been accredited every year of that triennial review period the Board shall accredit the school for another three years. The Board may review the accreditation status of any other school once every two years or once every three years, provided that any school that receives a multiyear accreditation status other than full accreditation shall be covered by a Board-approved multiyear corrective action plan for the duration of the period of accreditation. Such multiyear corrective action plan shall include annual written progress updates to the Board. A multiyear accreditation status

shall not relieve any school or division of annual reporting requirements.

Each local school board shall maintain schools that are fully accredited pursuant to the standards for accreditation as prescribed by the Board. Each local school board shall report the accreditation status of all schools in the local school division annually in public session.

The Board shall establish a review process to assist any school that does not meet the standards established by the Board. The relevant school board shall report the results of such review and any annual progress reports in public session and shall implement any actions identified through such review and utilize them for improvement planning.

The Board shall establish a corrective action plan process for any school that does not meet the standards established by the Board. Such process shall require (a) each school board to submit a corrective action plan for any school in the local school division that does not meet the standards established by the Board and (b) any school board that fails to demonstrate progress in developing or implementing any such corrective action plan to enter into a memorandum of understanding with the Board.

When the Board determines through its review process that the failure of schools within a division to meet the standards established by the Board is related to division-level failure to implement the Standards of Quality or other division-level action or inaction, the Board may require a division-level academic review. After the conduct of such review and within the time specified by the Board, each school board shall enter into a memorandum of understanding with the Board and shall subsequently submit to the Board for approval a corrective action plan, consistent with criteria established by the Board setting forth specific actions and a schedule designed to ensure that schools within its school division meet the standards established by the Board. If the Board determines that the proposed corrective action plan is not sufficient to enable all schools within the division to meet the standards established by the Board, the Board may return the plan to the local school board with directions to submit an amended plan pursuant to Board guidance. Such corrective action plans shall be part of the relevant school division's comprehensive plan pursuant to § 22.1-253.13:6.

B. The Superintendent of ~~Public Instruction~~ shall develop, subject to revision by the Board, criteria for determining and recognizing educational performance in the Commonwealth's local school divisions and public schools. The portion of such criteria that measures individual student growth shall become an integral part of the accreditation process for schools in which any grade level in the grade three through eight range is taught. The Superintendent of ~~Public Instruction~~ shall annually report to the Board on the accreditation status of all school divisions and schools. Such report shall include an analysis of the strengths and weaknesses of public education programs in the various school divisions in Virginia and recommendations to the General Assembly for further enhancing student learning uniformly across the Commonwealth. In recognizing educational performance and individual student growth in the school divisions, the Board shall include consideration of special school division accomplishments, such as numbers of dual enrollments and students in Advanced Placement and International Baccalaureate courses, and participation in academic year Governor's Schools.

The Superintendent of ~~Public Instruction~~ shall assist local school boards in the implementation of action plans for increasing educational performance and individual student growth in those school divisions and schools that are identified as not meeting the approved criteria. The Superintendent of ~~Public Instruction~~ shall monitor the implementation of and report to the Board on the effectiveness of the corrective actions taken to improve the educational performance in such school divisions and schools.

C. With such funds as are available for this purpose, the Board shall prescribe assessment methods to determine the level of achievement of the Standards of Learning objectives by all students. Such assessments shall evaluate knowledge, application of knowledge, critical thinking, and skills related to the Standards of Learning being assessed. The Board shall, with the assistance of independent testing experts, conduct a regular analysis and validation process for these assessments. In lieu of a one-time end-of-year assessment, the Board shall establish, for the purpose of providing measures of individual student growth over the course of the school year, a through-year growth assessment system, aligned with the Standards of Learning, for the administration of reading and mathematics assessments in grades three through eight. Such through-year growth assessment system shall include at least one beginning-of-year, one mid-year, and one end-of-year assessment in order to provide individual student growth scores over the course of the school year, but the total time scheduled for taking all such assessments shall not exceed 150 percent of the time scheduled for taking a single end-of-year proficiency assessment. The Department shall ensure adequate training for teachers and principals on how to interpret and use student growth data from such assessments to improve reading and mathematics instruction in grades three through eight throughout the school year. With such funds and content as are available for such purpose, such through-year growth assessment system shall provide accurate measurement of a student's performance, through computer adaptive technology, using test items at, below, and above the student's grade level as necessary.

The Board shall also provide the option of industry certification and state licensure examinations as a student-selected credit.

The Department shall make available to school divisions Standards of Learning assessments typically administered by high schools by December 1 of the school year in which such assessments are to be administered or when newly developed assessments are available, whichever is later.

The Board shall make publicly available such assessments in a timely manner and as soon as practicable following the administration of such tests, so long as the release of such assessments does not compromise test security or deplete the bank of assessment questions necessary to construct subsequent tests, or limit the ability to test students on demand and provide immediate results in the web-based assessment system.

The Board shall prescribe alternative methods of Standards of Learning assessment administration for children with disabilities, as that term is defined in § 22.1-213, who meet criteria established by the Board to demonstrate achievement of the Standards of Learning. An eligible student's Individual Education Program team shall make the final determination as to whether an alternative method of administration is appropriate for the student.

The Board shall include in the student outcome and growth measures that are required by the standards of accreditation the required assessments for various grade levels and classes, including the completion of the alternative assessments implemented by each local school board, in accordance with the Standards of Learning. These assessments shall include end-of-course or end-of-grade tests for English, mathematics, science, and history and social science and may be integrated to include multiple subject areas.

The Standards of Learning assessments administered to students in grades three through eight shall not exceed (i) reading and mathematics in grades three and four; (ii) reading, mathematics, and science in grade five; (iii) reading and mathematics in grades six and seven; (iv) reading, writing, and mathematics in grade eight; (v) science after the student receives instruction in the grade six science, life science, and physical science Standards of Learning and before the student completes grade eight; and (vi) Virginia Studies and Civics and Economics once each at the grade levels deemed appropriate by each local school board. The reading and mathematics assessments administered to students in grades three through eight shall be through-year growth assessments.

Each school board shall annually certify that it has provided instruction and administered an alternative assessment, consistent with Board guidelines, to students in grades three through eight in each Standards of Learning subject area in which a Standards of Learning assessment was not administered during the school year. Such guidelines shall (a) incorporate options for age-appropriate, authentic performance assessments and portfolios with rubrics and other methodologies designed to ensure that students are making adequate academic progress in the subject area and that the Standards of Learning content is being taught; (b) permit and encourage integrated assessments that include multiple subject areas; and (c) emphasize collaboration between teachers to administer and substantiate the assessments and the professional development of teachers to enable them to make the best use of alternative assessments.

Local school divisions shall provide targeted mathematics remediation and intervention to students in grades six through eight who show computational deficiencies as demonstrated by their individual performance on any diagnostic test or grade-level Standards of Learning mathematics test that measures non-calculator computational skills.

The Department shall award recovery credit to any student in grades three through eight who performs below grade level on a Standards of Learning assessment in English reading or mathematics, receives remediation, and subsequently retakes and performs at or above grade level on such an assessment, including any such student who subsequently retakes such an assessment on an expedited basis.

In addition, to assess the educational progress of students, the Board shall (1) develop appropriate assessments, which may include criterion-referenced tests and other assessment instruments that may be used by classroom teachers; (2) select appropriate industry certification and state licensure examinations; and (3) prescribe and provide measures, which may include nationally normed tests to be used to identify students who score in the bottom quartile at selected grade levels. ~~An annual justification that includes evidence that the student meets the participation criteria defined by the Department shall be provided for each student considered for the Virginia Grade Level Alternative. Each Individual Education Program team shall review such justification and make the final determination as to whether or not the Virginia Grade Level Alternative is appropriate for the student. The superintendent and the school board chairman shall certify to the Board, as a part of certifying compliance with the Standards of Quality, that there is a justification in the Individual Education Program for every student who takes the Virginia Grade Level Alternative. Compliance with this requirement shall be monitored as a part of the special education monitoring process conducted by the Department. The Board shall report to the Governor and General Assembly in its annual reports pursuant to § 22.1-18 any school division that is not in compliance with this requirement.~~

The Standards of Learning requirements, including all related assessments, shall be waived for any student awarded a scholarship under the Brown v. Board of Education Scholarship Program, pursuant to § 30-231.2, who is enrolled in a preparation program for a high school equivalency examination

approved by the Board or in an adult basic education program or an adult secondary education program to obtain the high school diploma or a high school equivalency certificate.

The Department shall develop processes for informing school divisions of changes in the Standards of Learning.

The Board may adopt special provisions related to the administration and use of any Standards of Learning test or tests in a content area as applied to accreditation ratings for any period during which the Standards of Learning content or assessments in that area are being revised and phased in. Prior to statewide administration of such tests, the Board shall provide notice to local school boards regarding such special provisions.

The Board shall not include in its calculation of the passage rate for a Standards of Learning assessment or the level of achievement of the Standards of Learning objectives for an individual student growth assessment for the purposes of state accountability any student whose parent has decided to not have his child take such Standards of Learning assessment, unless such exclusions would result in the school's not meeting any required state or federal participation rate.

D. The Board may pursue all available civil remedies pursuant to § 22.1-19.1 or administrative action pursuant to § 22.1-292.1 for breaches in test security and unauthorized alteration of test materials or test results.

The Board may initiate or cause to be initiated a review or investigation of any alleged breach in security, unauthorized alteration, or improper administration of tests, including the exclusion of students from testing who are required to be assessed, by local school board employees responsible for the distribution or administration of the tests.

Records and other information furnished to or prepared by the Board during the conduct of a review or investigation may be withheld pursuant to subdivision 10 of § 2.2-3705.3. However, this section shall not prohibit the disclosure of records to (i) a local school board or division superintendent for the purpose of permitting such board or superintendent to consider or to take personnel action with regard to an employee or (ii) any requester, after the conclusion of a review or investigation, in a form that (a) does not reveal the identity of any person making a complaint or supplying information to the Board on a confidential basis and (b) does not compromise the security of any test mandated by the Board. Any local school board or division superintendent receiving such records or other information shall, upon taking personnel action against a relevant employee, place copies of such records or information relating to the specific employee in such person's personnel file.

Notwithstanding any other provision of state law, no test or examination authorized by this section, including the Standards of Learning assessments, shall be released or required to be released as minimum competency tests, if, in the judgment of the Board, such release would breach the security of such test or examination or deplete the bank of questions necessary to construct future secure tests.

E. With such funds as may be appropriated, the Board may provide, through an agreement with vendors having the technical capacity and expertise to provide computerized tests and assessments, and test construction, analysis, and security, for (i) web-based computerized tests and assessments, including computer-adaptive Standards of Learning assessments, for the evaluation of student progress during and after remediation and (ii) the development of a remediation item bank directly related to the Standards of Learning.

F. To assess the educational progress of students as individuals and as groups, each local school board shall require the use of Standards of Learning assessments, alternative assessments, and other relevant data, such as industry certification and state licensure examinations, to evaluate student progress and to determine educational performance. Each local school shall require the administration of appropriate assessments to students, which may include criterion-referenced tests and teacher-made tests and shall include the Standards of Learning assessments, the local school board's alternative assessments, and the National Assessment of Educational Progress state-by-state assessment. Each school board shall analyze and report annually, in compliance with any criteria that may be established by the Board, the results from ~~the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, if administered,~~ industry certification examinations, and the Standards of Learning Assessments to the public.

~~The Board shall not require administration of the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, except as may be selected to facilitate compliance with the requirements for home instruction pursuant to § 22.1-254.1.~~

The Board shall include requirements for the reporting of the Standards of Learning assessment data, regardless of accreditation frequency, as part of the Board's requirements relating to the School Performance Report Card. Such scores shall be disaggregated for each school by student subgroups on the Virginia assessment program as appropriate and shall be reported to the public within three months of their receipt. These reports (i) shall be posted on the portion of the Department's website relating to the School Performance Report Card, in a format and in a manner that allows year-to-year comparisons, and (ii) may include the National Assessment of Educational Progress state-by-state assessment.

G. Each local school division superintendent shall regularly review the division's submission of data and reports required by state and federal law and regulations to ensure that all information is accurate

and submitted in a timely fashion. The Superintendent of ~~Public Instruction~~ shall provide a list of the required reports and data to division superintendents annually. The status of compliance with this requirement shall be included in the Board's annual report to the Governor and the General Assembly as required by § 22.1-18.

H. Any school board may request the Board for release from state regulations or, on behalf of one or more of its schools, for approval of an Individual School Accreditation Plan for the evaluation of the performance of one or more of its schools as authorized for certain other schools by the Standards for Accreditation pursuant to 8VAC20-131-280 C of the Virginia Administrative Code. Waivers of regulatory requirements may be granted by the Board based on submission of a request from the division superintendent and chairman of the local school board. The Board may grant, for a period up to five years, a waiver of regulatory requirements that are not (i) mandated by state or federal law or (ii) designed to promote health or safety. The school board shall provide in its waiver request a description of how the releases from state regulations are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The Department shall provide (a) guidance to any local school division that requests releases from state regulations and (b) information about opportunities to form partnerships with other agencies or entities to any local school division in which the school or schools granted releases from state regulations have demonstrated improvement in the quality of instruction and the achievement of students.

The Board may also grant local school boards waivers of specific requirements in § 22.1-253.13:2, based on submission of a request from the division superintendent and chairman of the local school board, permitting the local school board to assign instructional personnel to the schools with the greatest needs, so long as the school division employs a sufficient number of personnel divisionwide to meet the total number required by § 22.1-253.13:2 and all pupil/teacher ratios and class size maximums set forth in subsection C of § 22.1-253.13:2 are met. The school board shall provide in its request a description of how the waivers from specific Standards of Quality staffing standards are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The waivers may be renewed in up to five-year increments, or revoked, based on student achievement results in the affected school or schools.

§ 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.

A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who meet the requirements prescribed by the Board of ~~Education~~ and meet such other requirements as may be prescribed by the local school board and approved by the Board of ~~Education~~. Provisions shall be made to facilitate the transfer and appropriate grade placement of students from other public secondary schools, from nonpublic schools, or from home instruction as outlined in the standards for accreditation. The standards for accreditation shall include provisions relating to the completion of graduation requirements through Virtual Virginia. Further, reasonable accommodation to meet the requirements for diplomas shall be provided for otherwise qualified students with disabilities as needed.

In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school students, a mechanism for calculating class rankings that takes into consideration whether the student has taken a required class more than one time and has had any prior earned grade for such required class expunged.

Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) the requirements for graduation pursuant to the standards for accreditation and (ii) the requirements that have yet to be completed by the individual student.

B. Students identified as disabled who complete the requirements of their individualized education programs and meet certain requirements prescribed by the Board pursuant to regulations but do not meet the requirements for any named diploma shall be awarded Applied Studies diplomas by local school boards. The Board shall develop and implement statewide requirements for earning an Applied Studies diploma for implementation at the beginning of the 2022-2023 school year.

Each local school board shall notify the parent of such students with disabilities who have an individualized education program and who fail to meet the graduation requirements of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ 22.1-213 et seq.) of Chapter 13.

The Department shall develop guidance, in multiple languages, for students and parents conveying (i) the limitations of the applied studies diploma, (ii) key curriculum and testing decisions that reduce the likelihood that a student will be able to obtain a standard diploma, and (iii) a statement that the pursuit of an applied studies diploma may preclude a student's ability to pursue a standard diploma.

Each local school board shall provide guidance from the Department to parents of students with disabilities regarding the Applied Studies diploma and its limitations at a student's annual individualized education program meeting corresponding to grades three through 12 when curriculum or statewide assessment decisions are being made that impact the type of diploma for which the student can qualify.

C. Students who have completed a prescribed course of study as defined by the local school board shall be awarded certificates of program completion by local school boards if they are not eligible to

receive a Board of Education-approved diploma.

Each local school board shall provide notification of the right to a free public education for students who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 (§ 22.1-1 et seq.), to the parent of students who fail to graduate or who have failed to achieve graduation requirements as provided in the standards for accreditation. If such student who does not graduate or complete such requirements is a student for whom English is a second language, the local school board shall notify the parent of the student's opportunity for a free public education in accordance with § 22.1-5.

D. In establishing graduation requirements, the Board shall:

1. Develop and implement, in consultation with stakeholders representing elementary and secondary education, higher education, and business and industry in the Commonwealth and including parents, policymakers, and community leaders in the Commonwealth, a Profile of a Virginia Graduate that identifies the knowledge and skills that students should attain during high school in order to be successful contributors to the economy of the Commonwealth, giving due consideration to critical thinking, creative thinking, collaboration, communication, and citizenship.

2. Emphasize the development of core skill sets in the early years of high school.

3. Establish multiple paths toward college and career readiness for students to follow in the later years of high school. Each such pathway shall include opportunities for internships, externships, and credentialing.

4. Provide for the selection of integrated learning courses meeting the Standards of Learning and approved by the Board to satisfy graduation requirements, which shall include Standards of Learning testing, as necessary.

5. Require students to complete at least one course in fine or performing arts or career and technical education, one course in United States and Virginia history, and two sequential elective courses chosen from a concentration of courses selected from a variety of options that may be planned to ensure the completion of a focused sequence of elective courses that provides a foundation for further education or training or preparation for employment.

6. Require that students (i) complete an Advanced Placement, honors, International Baccalaureate, or dual enrollment course; (ii) complete a high-quality work-based learning experience, as defined by the Board; or (iii) earn a career and technical education credential that has been approved by the Board, except when a career and technical education credential in a particular subject area is not readily available or appropriate or does not adequately measure student competency, in which case the student shall receive satisfactory competency-based instruction in the subject area to earn credit. The career and technical education credential, when required, could include the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, the Armed Services Vocational Aptitude Battery, or the Virginia workplace readiness skills assessment. The Department of Education shall develop, maintain, and make available to each local school board a catalogue of the testing accommodations available to English language learners for each such certification, examination, assessment, and battery. Each local school board shall develop and implement policies to require each high school principal or his designee to notify each English language learner of the availability of such testing accommodations prior to the student's participation in any such certification, examination, assessment, or battery.

7. ~~Beginning with first-time ninth grade students in the 2016-2017 school year, require~~ *Require* students to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.

8. Make provision in its regulations for students with disabilities to earn a diploma.

9. Require students to complete one virtual course, which may be a noncredit-bearing course.

10. Provide that students who complete elective classes into which the Standards of Learning for any required course have been integrated and achieve a passing score on the relevant Standards of Learning test for the relevant required course receive credit for such elective class.

11. Establish a procedure to facilitate the acceleration of students that allows qualified students, with the recommendation of the division superintendent, without completing the 140-hour class, to obtain credit for such class upon demonstrating mastery of the course content and objectives and receiving a passing score on the relevant Standards of Learning assessment. Nothing in this section shall preclude relevant school division personnel from enforcing compulsory attendance in public schools.

12. Provide for the award of credit for passing scores on industry certifications, state licensure examinations, and national occupational competency assessments approved by the Board of Education.

School boards shall report annually to the Board of Education the number of Board-approved industry certifications obtained, state licensure examinations passed, national occupational competency assessments passed, Armed Services Vocational Aptitude Battery assessments passed, and Virginia workplace readiness skills assessments passed, and the number of career and technical education completers who graduated. These numbers shall be reported as separate categories on the School Performance Report Card.

For the purposes of this subdivision, "career and technical education completer" means a student who has met the requirements for a career and technical concentration or specialization and all requirements for high school graduation or an approved alternative education program.

In addition, the Board may:

a. For the purpose of awarding credit, approve the use of additional or substitute tests for the correlated Standards of Learning assessment, such as academic achievement tests, industry certifications, or state licensure examinations; and

b. Permit students completing career and technical education programs designed to enable such students to pass such industry certification examinations or state licensure examinations to be awarded, upon obtaining satisfactory scores on such industry certification or licensure examinations, appropriate credit for one or more career and technical education classes into which relevant Standards of Learning for various classes taught at the same level have been integrated. Such industry certification and state licensure examinations may cover relevant Standards of Learning for various required classes and may, at the discretion of the Board, address some Standards of Learning for several required classes.

13. Provide for the waiver of certain graduation requirements (i) upon the Board's initiative or (ii) at the request of a local school board. Such waivers shall be granted only for good cause and shall be considered on a case-by-case basis.

14. Consider all computer science course credits earned by students to be science course credits, mathematics course credits, or career and technical education credits. The Board of Education shall develop guidelines addressing how computer science courses can satisfy graduation requirements.

15. Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction upon providing the Board with satisfactory proof, based on Board guidelines, that the students for whom such requirements are waived have learned the content and skills included in the relevant Standards of Learning.

16. Provide for the award of verified units of credit for a satisfactory score, as determined by the Board, on the Preliminary ACT (PreACT) or Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT) examination.

17. Permit students to exceed a full course load in order to participate in courses offered by an institution of higher education that lead to a degree, certificate, or credential at such institution.

18. Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction after the student has completed the course curriculum and relevant Standards of Learning end-of-course assessment, or Board-approved substitute, provided that such student subsequently receives instruction, coursework, or study toward an industry certification approved by the local school board.

19. Permit any English language learner who previously earned a sufficient score on an Advanced Placement or International Baccalaureate foreign language examination or an SAT II Subject Test in a foreign language to substitute computer coding course credit for any foreign language course credit required to graduate, except in cases in which such foreign language course credit is required to earn an advanced diploma offered by a nationally recognized provider of college-level courses.

20. Permit a student who is pursuing an advanced diploma and whose individualized education program specifies a credit accommodation for world language to substitute two standard units of credit in computer science for two standard units of credit in a world language. For any student that elects to substitute a credit in computer science for credit in world language, his or her school counselor must provide notice to the student and parent or guardian of possible impacts related to college entrance requirements.

E. In the exercise of its authority to recognize exemplary performance by providing for diploma seals:

1. The Board shall develop criteria for recognizing exemplary performance in career and technical education programs by students who have completed the requirements for a Board of Education-approved diploma and shall award seals on the diplomas of students meeting such criteria.

2. The Board shall establish criteria for awarding a diploma seal for science, technology, engineering, and mathematics (STEM) for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) relevant coursework; (ii) technical writing, reading, and oral communication skills; (iii) relevant training; and (iv) industry, professional, and trade association national certifications.

3. The Board shall establish criteria for awarding a diploma seal for excellence in civics education and understanding of our state and federal constitutions and the democratic model of government for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) successful completion of history, government, and civics courses, including courses that incorporate character education; (ii) voluntary participation in community service or extracurricular activities that includes the types of activities that shall qualify as community service and the number of hours required; and (iii) related requirements as it deems appropriate.

4. The Board shall establish criteria for awarding a diploma seal of biliteracy to any student who demonstrates proficiency in English and at least one other language for the Board of Education-approved diplomas. The Board shall consider criteria including the student's (i)

score on a College Board Advanced Placement foreign language examination, (ii) score on an SAT II Subject Test in a foreign language, (iii) proficiency level on an ACTFL Assessment of Performance toward Proficiency in Languages (AAPPL) measure or another nationally or internationally recognized language proficiency test, or (iv) cumulative grade point average in a sequence of foreign language courses approved by the Board.

F. The Board shall establish, by regulation, requirements for the award of a general achievement adult high school diploma for those persons who are not subject to the compulsory school attendance requirements of § 22.1-254 and have (i) achieved a passing score on a high school equivalency examination approved by the Board of Education; (ii) successfully completed an education and training program designated by the Board of Education; (iii) earned a Board of Education-approved career and technical education credential such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, the Armed Services Vocational Aptitude Battery, or the Virginia workplace readiness skills assessment; and (iv) satisfied other requirements as may be established by the Board for the award of such diploma.

G. To ensure the uniform assessment of high school graduation rates, the Board shall collect, analyze, report, and make available to the public high school graduation and dropout data using a formula prescribed by the Board.

H. The Board shall also collect, analyze, report, and make available to the public high school graduation and dropout data using a formula that excludes any student who fails to graduate because such student is in the custody of the Department of Corrections, the Department of Juvenile Justice, or local law enforcement. For the purposes of the Standards of Accreditation, the Board shall use the graduation rate required by this subsection.

I. The Board may promulgate such regulations as may be necessary and appropriate for the collection, analysis, and reporting of such data required by subsections G and H.

§ 22.1-254.1. Declaration of policy; requirements for home instruction of children.

A. When the requirements of this section have been satisfied, instruction of children by their parents is an acceptable alternative form of education under the policy of the Commonwealth of Virginia. Any parent of any child who will have reached the fifth birthday on or before September 30 of any school year and who has not passed the eighteenth birthday may elect to provide home instruction in lieu of school attendance if he (i) holds a high school diploma; (ii) is a teacher of qualifications prescribed by the Board of Education; (iii) provides the child with a program of study or curriculum, which may be delivered through a correspondence course or distance learning program or in any other manner; or (iv) provides evidence that he is able to provide an adequate education for the child.

B. Any parent who elects to provide home instruction in lieu of school attendance shall annually notify the division superintendent in August of his intention to so instruct the child and provide a description of the curriculum, limited to a list of subjects to be studied during the coming year, and evidence of having met one of the criteria for providing home instruction as required by subsection A. ~~Effective July 1, 2000, parents~~ Parents electing to provide home instruction shall provide such annual notice no later than August 15. Any parent who moves into a school division or begins home instruction after the school year has begun shall notify the division superintendent of his intention to provide home instruction as soon as practicable and shall thereafter comply with the requirements of this section within 30 days of such notice. The division superintendent shall notify the Superintendent of Public Instruction of the number of students in the school division receiving home instruction.

C. The parent who elects to provide home instruction shall provide the division superintendent by August 1 following the school year in which the child has received home instruction with either (i) evidence that the child has attained a composite score in or above the fourth stanine on any nationally normed standardized achievement test, or an equivalent score on the ACT, SAT, or PSAT test or (ii) an evaluation or assessment ~~which~~ that the division superintendent determines to indicate that the child is achieving an adequate level of educational growth and progress, including ~~but not limited to~~ (a) an evaluation letter from a person licensed to teach in any state, or a person with a master's degree or higher in an academic discipline, having knowledge of the child's academic progress, stating that the child is achieving an adequate level of educational growth and progress or (b) a report card or transcript from an institution of higher education, college distance learning program, or home-education correspondence school.

In the event that evidence of progress as required in this subsection is not provided by the parent, the home instruction program for that child may be placed on probation for one year. Parents shall file with the division superintendent evidence of their ability to provide an adequate education for their child in compliance with subsection A and a remediation plan for the probationary year ~~which~~ that indicates their program is designed to address any educational deficiency. Upon acceptance of such evidence and plan by the division superintendent, the home instruction may continue for one probationary year. If the remediation plan and evidence are not accepted or the required evidence of progress is not provided by August 1 following the probationary year, home instruction shall cease and the parent shall make other arrangements for the education of the child ~~which~~ that comply with § 22.1-254. The requirements of *this* subsection ~~C~~ shall not apply to children who are under the age of six as of September 30 of the school

year.

D. Nothing in this section shall prohibit a pupil and his parents from obtaining an excuse from school attendance by reason of bona fide religious training or belief pursuant to subdivision B 1 of § 22.1-254.

E. Any party aggrieved by a decision of the division superintendent may appeal his decision within 30 days to an independent hearing officer. The independent hearing officer shall be chosen from the list maintained by the Executive Secretary of the Supreme Court for hearing appeals of the placements of children with disabilities. The costs of the hearing shall be apportioned among the parties by the hearing officer in a manner consistent with his findings.

F. School boards shall make Advanced Placement (AP), Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT), and PreACT examinations available to students receiving home instruction pursuant to this section. School boards shall adopt written policies that specify the date by which such students shall register to participate in such examinations. School boards shall notify such students and their parents of such registration deadline and the availability of financial assistance to low-income and needy students to take such examinations.

G. No division superintendent or local school board shall disclose to the Department of Education or any other person or entity outside of the local school division information that is provided by a parent or student to satisfy the requirements of this section or subdivision B 1 of § 22.1-254. However, a division superintendent or local school board may disclose, with the written consent of a student's parent, such information to the extent provided by the parent's consent. Nothing in this subsection shall prohibit a division superintendent from notifying the Superintendent of Public Instruction of the number of students in the school division receiving home instruction as required by subsection B.

§ 22.1-271.3. Guidelines for school attendance for children infected with human immunodeficiency virus; school personnel training required; notification of school personnel in certain cases.

A. The Board of Education, in cooperation with the Board of Health, shall develop, and revise as necessary, model guidelines for school attendance for children infected with human immunodeficiency virus. ~~The first such guidelines shall be completed by December 1, 1989.~~ The Board shall distribute copies of these guidelines to each division superintendent and every school board member in the Commonwealth immediately following ~~completion~~ *development or revision*.

B. Each school board shall, ~~by July 1, 1990,~~ adopt guidelines for school attendance for children with human immunodeficiency virus. Such guidelines shall be consistent with the model guidelines for such school attendance developed by the Board of Education.

C. Every school board shall ensure that all school personnel having direct contact with students receive appropriate training in the etiology, prevention, transmission modes, and effects of blood-borne pathogens, specifically, hepatitis B and human immunodeficiency viruses or any other infections that are the subject of regulations promulgated by the Safety and Health Codes Board of the Virginia Occupational Safety and Health Program within the Department of Labor and Industry.

D. Upon notification by a school employee who believes he has been involved in a possible exposure-prone incident ~~which~~ *that* may have exposed the employee to the blood or body fluids of a student, the division superintendent shall contact the local health director who, upon immediate investigation of the incident, shall determine if a potentially harmful exposure has occurred and make recommendations, based upon all information available to him, regarding how the employee can reduce any risks from such exposure. The division superintendent shall share these recommendations with the school employee. Except as permitted by § 32.1-45.1, the division superintendent and the school employee shall not divulge any information provided by the local health director regarding such student. The information provided by the local health director shall be subject to any applicable confidentiality requirements set forth in Chapter 2 (§ 32.1-35 et seq.) of Title 32.1.

§ 22.1-274. School health services.

A. A school board shall provide pupil personnel and support services in compliance with § 22.1-253.13:2. A school board may employ school nurses, physicians, physical therapists, occupational therapists, and speech therapists. No such personnel shall be employed unless they meet such standards as may be determined by the Board of Education. Subject to the approval of the appropriate local governing body, a local health department may provide personnel for health services for the school division.

B. In implementing subsection P of § 22.1-253.13:2, relating to providing support services that are necessary for the efficient and cost-effective operation and maintenance of its public schools, each school board may strive to employ, or contract with local health departments for, nursing services consistent with a ratio of at least one nurse (i) ~~per 2,500 students by July 1, 1996;~~ (ii) ~~per 2,000 students by July 1, 1997;~~ (iii) ~~per 1,500 students by July 1, 1998;~~ and (iv) ~~per 1,000 students by July 1, 1999.~~ In those school divisions in which there are more than 1,000 students in average daily membership in school buildings, this section shall not be construed to encourage the employment of more than one nurse per school building. Further, this section shall not be construed to mandate the aspired-to ratios.

C. The Board of Education shall monitor the progress in achieving the ~~ratios~~ ratio set forth in subsection B and any subsequent increase in prevailing statewide costs, and the mechanism for funding health services, pursuant to subsection P of § 22.1-253.13:2 and the appropriation act. The Board shall also determine how school health funds are used and school health services are delivered in each locality and shall provide, by December 1, 1994, a detailed analysis of school health expenditures to the House Committee on Education, the House Committee on Appropriations, the Senate Committee on Education and Health, and the Senate Committee on Finance and Appropriations.

D. With the exception of school administrative personnel and persons employed by school boards who have the specific duty to deliver health-related services, no licensed instructional employee, instructional aide, or clerical employee shall be disciplined, placed on probation, or dismissed on the basis of such employee's refusal to (i) perform nonemergency health-related services for students or (ii) obtain training in the administration of insulin and glucagon. However, instructional aides and clerical employees may not refuse to dispense oral medications.

For the purposes of this subsection, "health-related services" means those activities that, when performed in a health care facility, must be delivered by or under the supervision of a licensed or certified professional.

E. Each school board shall ensure that in school buildings with an instructional and administrative staff of 10 or more (i) at least three employees have current certification or training in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator and (ii) if one or more students diagnosed as having diabetes attend such school, at least two employees have been trained in the administration of insulin and glucagon. In school buildings with an instructional and administrative staff of fewer than 10, school boards shall ensure that (a) at least two employees have current certification or training in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator and (b) if one or more students diagnosed as having diabetes attend such school, at least one employee has been trained in the administration of insulin and glucagon. ~~"Employee"~~ For purposes of this subsection, "employee" includes any person employed by a local health department who is assigned to the public school pursuant to an agreement between the local health department and the school board. When a registered nurse, nurse practitioner, physician, or physician assistant is present, no employee who is not a registered nurse, nurse practitioner, physician, or physician assistant shall assist with the administration of insulin or administer glucagon. Prescriber authorization and parental consent shall be obtained for any employee who is not a registered nurse, nurse practitioner, physician, or physician assistant to assist with the administration of insulin and administer glucagon.

§ 22.1-280.2. School crime line defined; development of school crime lines authorized; local school boards' authority; Board to promulgate regulations.

A. As used in this section: "School, "school crime line" means a confidential, anonymous system providing inducements for students to report any unlawful act occurring in school buildings or on school grounds or during school-sponsored activities to local law-enforcement authorities ~~which~~ that is established as a cooperative alliance between the local school board, news media, the community, and law-enforcement officials or through a separate, nonprofit corporation governed by a board of directors or as part of a local "Crime Stoppers" program.

B. In order to reduce crime and violence within the school divisions in the Commonwealth, any local school board may develop a school crime line program as a joint, self-sustaining, cooperative alliance with news media, the community, and law-enforcement authorities to receive, screen, and reward student reports of unlawful acts committed in school buildings or on school grounds or at school functions, when such reports lead to arrests or recovery of contraband or stolen property. Police or other law-enforcement personnel shall staff every school crime line program, receive reported information from anonymous student callers, screen such information, and direct information for further investigation, as may be appropriate.

C. Such programs may be established (i) by a local school board as a joint, self-sustaining, cooperative alliance with news media, the community, and law-enforcement authorities; (ii) through a separate nonprofit corporation initiated jointly by the local school board, news media, the community, and law-enforcement authorities and governed by a board of directors; or (iii) as part of a local "Crime Stoppers" program.

The governing board of any separate nonprofit school crime line corporation shall include broad-based community representation and shall, through its bylaws, set the policy, coordinate fund raising, and formulate a system of rewards. Prior to implementation of any school crime line program and annually thereafter, the local school board shall review and approve, as complying with the Board of Education's Board's regulations for implementation of school crime lines, its regulations or the bylaws of any nonprofit school crime line corporation or the bylaws of any nonprofit "Crime Stoppers" corporation operating a school crime line. No school crime line program shall be implemented or revised without first obtaining the local school board's approval. Every local school board developing a school crime line program shall also notify all students and their parents or other custodian of the procedures and policies governing the program prior to implementation and annually thereafter.

D. ~~By July 1, 1994, the~~ *The* Board of Education shall promulgate regulations for the implementation of school crime lines, including, ~~but not limited to,~~ appropriate fund raising, and the appropriateness of and limitations on rewards. In developing the regulations, the Board shall, in consultation with the Office of the Attorney General, address issues relating to civil rights, privacy, and any other question of law, including the civic duty to report crime without compensation.

E. Local school boards may establish, as a separate account, a school crime line fund, consisting of private contributions, local appropriations specifically designated for such purposes, and such funds as may be appropriated for this purpose by the Commonwealth pursuant to the appropriation act. No state or local funds appropriated for educational purposes shall be used to implement a school crime line.

§ 22.1-280.2:2. Public School Security Equipment Grant Act of 2013.

A. This section shall be known and may be cited as the "Public School Security Equipment Grant Act of 2013."

B. For purposes of this section:

"Authority" means the Virginia Public School Authority.

~~"Department" means the Department of Education.~~

"Eligible school division" means a (i) local school division or (ii) regional vocational center, special education center, alternative education center, or academic year Governor's School serving public school students in grades K through 12. ~~The term shall also include~~ *"Eligible school division" includes* the Virginia School for the Deaf and the Blind.

"Local school division" means a school division with schools subject to state accreditation and whose students are required to be reported in fall membership for grades K through 12.

"Security equipment" includes building modifications and fixtures, including security vestibules, vapping detectors, security-related devices located outside of the school building on school property, and security-related devices located on school buses.

C. The Authority shall issue bonds for the purpose of grant payments to eligible school divisions of the Commonwealth to be used exclusively for purchasing security equipment for schools, including any related installation, ~~which that~~ is designed to improve and help ensure the safety of students attending public schools in ~~Virginia~~ *the Commonwealth*. Such grants shall not be used to pay for security equipment that is not included or described in a grant application approved by the Department pursuant to subsection D. The amount of grants provided to each eligible school division pursuant to this section shall not exceed \$100,000 for each fiscal year of the Commonwealth. Funds for the payment of such grants shall be provided from the issuance of bonds by the Authority, provided that the Authority shall not issue more than an aggregate of \$6 million in bonds, after all costs, for such grants during each fiscal year of the Commonwealth. In addition, the Authority shall ensure that no more than an aggregate principal amount of \$30 million in bonds issued under this section shall be outstanding at any time. Eligible school divisions seeking a grant shall apply to the Department, which shall be responsible for administering the grant program.

The Authority shall work with the Department to determine the schedule for the issuance of the bonds, which shall be based in part upon eligible school divisions having sufficient funds to purchase such security equipment. The payment of debt service on such bonds shall be as provided in the general appropriation act.

Such grants shall be in addition to all other grants made to local governments, school boards, or school divisions according to law. In addition, such grants shall not replace or be in lieu of loans to local school boards or interest rate subsidy payments to local school boards pursuant to Chapter 11.1 (§ 22.1-175.1 et seq.) of ~~Title 22-1~~, and the issuance of such bonds and the payment of such grants shall not, except as herein provided, affect or otherwise amend the provisions of such chapter as they relate to the powers and duties of the Authority, local school boards, local governments, or any other entity.

D. Based on the criteria developed by the Department in collaboration with the Department of Criminal Justice Services, eligible school divisions shall apply for a grant by August 1 of each year. As a condition of receiving a grant, a local match of 25 percent of the grant amount shall be required. The Superintendent of ~~Public Instruction~~ is authorized to reduce the local match for local school divisions with a composite index of local ability-to-pay less than 0.2000, including any such school division participating in a regional vocational center, special education center, alternative education center, or academic year Governor's School. The Virginia School for the Deaf and the Blind shall be exempt from the match requirement.

Grants shall be awarded by the Department on a competitive basis. As part of the application for a grant, each eligible school division shall (i) identify with specificity the security equipment for which grants are being sought, as well as the estimated costs to purchase and install the security equipment, and (ii) certify that it is the intent of the eligible school division to purchase the security equipment within six months of approval of any grant by the Department.

If the Department determines that a grant shall be paid to an eligible school division under this section, it shall provide a written certification to the chairman of the Authority directing him to make a grant payment in a specific amount to the eligible school division. The Department, however, shall not make such written certification until it has established that the Authority has sufficient funds to make

such grant payment. The Authority shall only make grant payments to an eligible school division for the grants provided under this section upon receipt of such written certification. The Authority shall make such grant payments, and in the amounts as directed by the Department, within 30 days of receipt of the certification.

E. The Department shall develop guidelines concerning the requirements for applying for a grant and the administration of such grants. Such guidelines shall not be subject to the Administrative Process Act (§ 2.2-4000 et seq.).

F. In the event that two or more local school divisions became one local school division, whether by consolidation of only the local school divisions or by consolidation of the local governments, such resulting local school division shall be eligible for grants on the basis of the same number of local school divisions as existed prior to September 30, 2012.

G. The Authority shall take all necessary and proper steps as it is authorized to take under law to carry out the provisions of this section.

H. ~~Beginning in 2014, the~~ The Department shall make an annual report to the General Assembly by September 1 of each year reporting (i) the total grants paid during the immediately prior fiscal year to each eligible school division and (ii) a general description of the security equipment purchased by eligible school divisions.

§ 22.1-296.2. Fingerprinting required; reciprocity permitted.

A. As a condition of employment, the school boards of the Commonwealth shall require any applicant who is offered or accepts employment ~~after July 1, 1989, whether full-time full time or part-time, part time or~~ permanent; or temporary, to submit to fingerprinting and to provide personal descriptive information to be forwarded along with the applicant's fingerprints through the Central Criminal Records Exchange to the Federal Bureau of Investigation for the purpose of obtaining criminal history record information regarding such applicant. The school board may (i) pay for all or a portion of the cost of the fingerprinting or criminal records check or (ii) in its discretion, require the applicant to pay for all or a portion of the cost of such fingerprinting or criminal records check.

The Central Criminal Records Exchange, upon receipt of an applicant's record or notification that no record exists, shall report to the school board whether or not the applicant has ever been convicted of a felony or a Class 1 misdemeanor or an equivalent offense in another state.

To conserve the costs of conducting criminal history record checks to applicants and school boards, upon the written request and permission of the applicant, a school board shall inform another school board with which reciprocity has been established, and to which the applicant also has applied for employment, of the results of the criminal history record information conducted within the previous ~~ninety~~ 90 days that it obtained concerning the applicant. Criminal history record information pertaining to an applicant for employment by a school board shall be exchanged only between school boards in the Commonwealth in which a current agreement of reciprocity for the exchange of such information has been established and is in effect. Reciprocity agreements between school boards shall provide for the apportionment of the costs of the fingerprinting or criminal records check between the applicant and the school board, as prescribed in this section. However, school boards that enter into reciprocity agreements shall not each levy the costs of the fingerprinting or criminal records check on the applicant.

B. The division superintendent shall inform the relevant school board of any notification of arrest of a school board employee received pursuant to § 19.2-83.1. The school board shall require such employee, whether ~~full-time full time or part-time, part time or~~ permanent; or temporary, to submit to fingerprinting and to provide personal descriptive information to be forwarded along with the employee's fingerprints through the Central Criminal Records Exchange to the Federal Bureau of Investigation for the purpose of obtaining criminal history record information regarding such employee. The school board may (i) pay for all or a portion of the cost of the fingerprinting or criminal records check or (ii) in its discretion, require the applicant to pay for all or a portion of the cost of such fingerprinting or criminal records check.
