# **2022 RECONVENED SESSION**

#### REENROLLED

[S 130]

### 1

## VIRGINIA ACTS OF ASSEMBLY - CHAPTER

2 An Act to amend and reenact §§ 32.1-102.2 and 32.1-127 of the Code of Virginia, relating to public 3 health emergency; hospitals and nursing homes; addition of beds.

4 5

### Approved

#### 6 Be it enacted by the General Assembly of Virginia:

#### 7 1. That §§ 32.1-102.2 and 32.1-127 of the Code of Virginia are amended and reenacted as follows: 8 § 32.1-102.2. Regulations. 9

A. The Board shall promulgate regulations that are consistent with this article and:

10 1. Shall establish concise procedures for the prompt review of applications for certificates consistent with the provisions of this article which may include a structured batching process which incorporates, 11 12 but is not limited to, authorization for the Commissioner to request proposals for certain projects. In any 13 structured batching process established by the Board, applications, combined or separate, for computed tomographic (CT) scanning, magnetic resonance imaging (MRI), positron emission tomographic (PET) 14 15 scanning, radiation therapy, stereotactic radiotherapy other than radiotherapy performed using a linear accelerator or other medical equipment that uses concentrated doses of high-energy X-rays to perform 16 17 external beam radiation therapy, and proton beam therapy shall be considered in the radiation therapy batch. A single application may be filed for a combination of (i) radiation therapy, stereotactic 18 19 radiotherapy other than radiotherapy performed using a linear accelerator or other medical equipment 20 that uses concentrated doses of high-energy X-rays to perform external beam radiation therapy, and 21 proton beam therapy and (ii) any or all of the computed tomographic (CT) scanning, magnetic resonance 22 imaging (MRI), and positron emission tomographic (PET) scanning;

23 2. May classify projects and may eliminate one or more or all of the procedures prescribed in 24 § 32.1-102.6 for different classifications:

3. May provide for exempting from the requirement of a certificate projects determined by the 25 26 Commissioner, upon application for exemption, to be subject to the economic forces of a competitive 27 market or to have no discernible impact on the cost or quality of health services;

4. May establish a schedule of fees for applications for certificates or registration of a project to be 28 29 applied to expenses for the administration and operation of the Certificate of Public Need Program;

30 5. Shall establish an expedited application and review process for any certificate for projects reviewable pursuant to subdivision B 8 of § 32.1-102.1:3. Regulations establishing the expedited 31 32 application and review procedure shall include provisions for notice and opportunity for public comment 33 on the application for a certificate, and criteria pursuant to which an application that would normally 34 undergo the review process would instead undergo the full certificate of public need review process set 35 forth in § 32.1-102.6;

6. Shall establish an exemption from the requirement for a certificate for a project involving a 36 37 temporary increase in the total number of beds in an existing hospital or nursing home, including a 38 temporary increase in the total number of beds resulting from the addition of beds at a temporary 39 structure or satellite location operated by the hospital or nursing home, provided that the ability 40 remains to safely staff services across the existing hospital or nursing home, (i) for a period of no more 41 than the duration of the Commissioner's determination plus 30 days, for projects involving a temporary 42 increase in the total number of beds in an existing hospital or nursing home when the Commissioner has 43 determined that a natural or man-made disaster has caused the evacuation of a hospital or nursing home and that a public health emergency exists due to a shortage of hospital or nursing home beds or (ii) for 44 45 a period of no more than the duration of the emergency order entered pursuant to § 32.1-13 or 32.1-20 plus 30 days when the Board, pursuant to § 32.1-13, or the Commissioner, pursuant to § 32.1-20, has 46 47 entered an emergency order for the purpose of suppressing a nuisance dangerous to public health or a communicable, contagious, or infectious disease or other danger to the public life and health; and **48** 

49 7. Shall require every medical care facility subject to the requirements of this article, other than a 50 nursing home, that is not a medical care facility for which a certificate with conditions imposed pursuant to subsection B of § 32.1-102.4 has been issued and that provides charity care, as defined in 51 § 32.1-102.1, to annually report the amount of charity care provided. 52

53 B. The Board shall promulgate regulations providing for time limitations for schedules for 54 completion and limitations on the exceeding of the maximum capital expenditure amount for all 55 reviewable projects. The Commissioner shall not approve any such extension or excess unless it 56 complies with the Board's regulations. However, the Commissioner may approve a significant change in

**SB130ER2** 

cost for an approved project that exceeds the authorized capital expenditure by more than 20 percent, 57 58 provided the applicant has demonstrated that the cost increases are reasonable and necessary under all 59 the circumstances and do not result from any material expansion of the project as approved.

60 C. The Board shall also promulgate regulations authorizing the Commissioner to condition approval 61 of a certificate on the agreement of the applicant to provide a level of charity care to indigent persons or 62 accept patients requiring specialized care. Such regulations shall include a methodology and formulas for 63 uniform application of, active measuring and monitoring of compliance with, and approval of alternative 64 plans for satisfaction of such conditions. In addition, the Board's licensure regulations shall direct the 65 Commissioner to condition the issuing or renewing of any license for any applicant whose certificate was approved upon such condition on whether such applicant has complied with any agreement to 66 provide a level of charity care to indigent persons or accept patients requiring specialized care. Except in 67 the case of nursing homes, the value of charity care provided to individuals pursuant to this subsection 68 shall be based on the provider reimbursement methodology utilized by the Centers for Medicare and 69 Medicaid Services for reimbursement under Title XVIII of the Social Security Act, 42 U.S.C. § 1395 et 70 71 seq.

72 D. The Board shall also promulgate regulations to require the registration of a project; for 73 introduction into an existing medical care facility of any new lithotripsy, stereotactic radiosurgery, 74 stereotactic radiotherapy performed using a linear accelerator or other medical equipment that uses 75 concentrated doses of high-energy X-rays to perform external beam radiation therapy, obstetrical, or 76 nuclear imaging services that the facility has never provided or has not provided in the previous 12 months; and for the addition by an existing medical care facility of any medical equipment for 77 78 lithotripsy, stereotactic radiosurgery, stereotactic radiotherapy performed using a linear accelerator or 79 other medical equipment that uses concentrated doses of high-energy X-rays to perform external beam 80 radiation therapy, or nuclear imaging services. Replacement of existing equipment for lithotripsy, stereotactic radiosurgery, stereotactic radiotherapy other than radiotherapy performed using a linear 81 accelerator or other medical equipment that uses concentrated doses of high-energy X-rays to perform 82 external beam radiation therapy, or nuclear imaging services shall not require registration. Such 83 84 regulations shall include provisions for (i) establishing the agreement of the applicant to provide a level of care in services or funds that matches the average percentage of indigent care provided in the 85 appropriate health planning region and to participate in Medicaid at a reduced rate to indigents, (ii) 86 obtaining accreditation from a nationally recognized accrediting organization approved by the Board for 87 88 the purpose of quality assurance, and (iii) reporting utilization and other data required by the Board to 89 monitor and evaluate effects on health planning and availability of health care services in the 90 Commonwealth. 91

#### § 32.1-127. Regulations.

92 A. The regulations promulgated by the Board to carry out the provisions of this article shall be in 93 substantial conformity to the standards of health, hygiene, sanitation, construction and safety as 94 established and recognized by medical and health care professionals and by specialists in matters of 95 public health and safety, including health and safety standards established under provisions of Title 96 XVIII and Title XIX of the Social Security Act, and to the provisions of Article 2 (§ 32.1-138 et seq.). 97

B. Such regulations:

98 1. Shall include minimum standards for (i) the construction and maintenance of hospitals, nursing 99 homes and certified nursing facilities to ensure the environmental protection and the life safety of its 100 patients, employees, and the public; (ii) the operation, staffing and equipping of hospitals, nursing homes and certified nursing facilities; (iii) qualifications and training of staff of hospitals, nursing homes and 101 102 certified nursing facilities, except those professionals licensed or certified by the Department of Health Professions; (iv) conditions under which a hospital or nursing home may provide medical and nursing 103 104 services to patients in their places of residence; and (v) policies related to infection prevention, disaster 105 preparedness, and facility security of hospitals, nursing homes, and certified nursing facilities;

2. Shall provide that at least one physician who is licensed to practice medicine in this 106 107 Commonwealth shall be on call at all times, though not necessarily physically present on the premises, 108 at each hospital which operates or holds itself out as operating an emergency service;

109 3. May classify hospitals and nursing homes by type of specialty or service and may provide for 110 licensing hospitals and nursing homes by bed capacity and by type of specialty or service;

4. Shall also require that each hospital establish a protocol for organ donation, in compliance with 111 federal law and the regulations of the Centers for Medicare and Medicaid Services (CMS), particularly 112 113 42 C.F.R. § 482.45. Each hospital shall have an agreement with an organ procurement organization 114 designated in CMS regulations for routine contact, whereby the provider's designated organ procurement organization certified by CMS (i) is notified in a timely manner of all deaths or imminent deaths of 115 patients in the hospital and (ii) is authorized to determine the suitability of the decedent or patient for 116 organ donation and, in the absence of a similar arrangement with any eye bank or tissue bank in 117

**SB130ER2** 

Virginia certified by the Eye Bank Association of America or the American Association of Tissue 118 119 Banks, the suitability for tissue and eye donation. The hospital shall also have an agreement with at least 120 one tissue bank and at least one eye bank to cooperate in the retrieval, processing, preservation, storage, 121 and distribution of tissues and eyes to ensure that all usable tissues and eyes are obtained from potential 122 donors and to avoid interference with organ procurement. The protocol shall ensure that the hospital 123 collaborates with the designated organ procurement organization to inform the family of each potential 124 donor of the option to donate organs, tissues, or eyes or to decline to donate. The individual making 125 contact with the family shall have completed a course in the methodology for approaching potential 126 donor families and requesting organ or tissue donation that (a) is offered or approved by the organ 127 procurement organization and designed in conjunction with the tissue and eye bank community and (b) 128 encourages discretion and sensitivity according to the specific circumstances, views, and beliefs of the 129 relevant family. In addition, the hospital shall work cooperatively with the designated organ procurement organization in educating the staff responsible for contacting the organ procurement organization's 130 131 personnel on donation issues, the proper review of death records to improve identification of potential 132 donors, and the proper procedures for maintaining potential donors while necessary testing and 133 placement of potential donated organs, tissues, and eyes takes place. This process shall be followed, 134 without exception, unless the family of the relevant decedent or patient has expressed opposition to 135 organ donation, the chief administrative officer of the hospital or his designee knows of such opposition, 136 and no donor card or other relevant document, such as an advance directive, can be found;

137 5. Shall require that each hospital that provides obstetrical services establish a protocol for admission138 or transfer of any pregnant woman who presents herself while in labor;

6. Shall also require that each licensed hospital develop and implement a protocol requiring written 139 140 discharge plans for identified, substance-abusing, postpartum women and their infants. The protocol shall 141 require that the discharge plan be discussed with the patient and that appropriate referrals for the mother 142 and the infant be made and documented. Appropriate referrals may include, but need not be limited to, 143 treatment services, comprehensive early intervention services for infants and toddlers with disabilities 144 and their families pursuant to Part H of the Individuals with Disabilities Education Act, 20 U.S.C. 145 § 1471 et seq., and family-oriented prevention services. The discharge planning process shall involve, to 146 the extent possible, the other parent of the infant and any members of the patient's extended family who 147 may participate in the follow-up care for the mother and the infant. Immediately upon identification, 148 pursuant to § 54.1-2403.1, of any substance-abusing, postpartum woman, the hospital shall notify, 149 subject to federal law restrictions, the community services board of the jurisdiction in which the woman 150 resides to appoint a discharge plan manager. The community services board shall implement and manage 151 the discharge plan;

152 7. Shall require that each nursing home and certified nursing facility fully disclose to the applicant153 for admission the home's or facility's admissions policies, including any preferences given;

8. Shall require that each licensed hospital establish a protocol relating to the rights and responsibilities of patients which shall include a process reasonably designed to inform patients of such rights and responsibilities. Such rights and responsibilities of patients, a copy of which shall be given to patients on admission, shall be consistent with applicable federal law and regulations of the Centers for Medicare and Medicaid Services;

9. Shall establish standards and maintain a process for designation of levels or categories of care in neonatal services according to an applicable national or state-developed evaluation system. Such standards may be differentiated for various levels or categories of care and may include, but need not be limited to, requirements for staffing credentials, staff/patient ratios, equipment, and medical protocols;

163 10. Shall require that each nursing home and certified nursing facility train all employees who are
 164 mandated to report adult abuse, neglect, or exploitation pursuant to § 63.2-1606 on such reporting
 165 procedures and the consequences for failing to make a required report;

11. Shall permit hospital personnel, as designated in medical staff bylaws, rules and regulations, or 166 167 hospital policies and procedures, to accept emergency telephone and other verbal orders for medication 168 or treatment for hospital patients from physicians, and other persons lawfully authorized by state statute 169 to give patient orders, subject to a requirement that such verbal order be signed, within a reasonable 170 period of time not to exceed 72 hours as specified in the hospital's medical staff bylaws, rules and 171 regulations or hospital policies and procedures, by the person giving the order, or, when such person is 172 not available within the period of time specified, co-signed by another physician or other person 173 authorized to give the order;

174 12. Shall require, unless the vaccination is medically contraindicated or the resident declines the offer
175 of the vaccination, that each certified nursing facility and nursing home provide or arrange for the
administration to its residents of (i) an annual vaccination against influenza and (ii) a pneumococcal
177 vaccination, in accordance with the most recent recommendations of the Advisory Committee on
178 Immunization Practices of the Centers for Disease Control and Prevention;

179 13. Shall require that each nursing home and certified nursing facility register with the Department of
180 State Police to receive notice of the registration, reregistration, or verification of registration information
181 of any person required to register with the Sex Offender and Crimes Against Minors Registry pursuant
182 to Chapter 9 (§ 9.1-900 et seq.) of Title 9.1 within the same or a contiguous zip code area in which the
183 home or facility is located, pursuant to § 9.1-914;

184 14. Shall require that each nursing home and certified nursing facility ascertain, prior to admission,
185 whether a potential patient is required to register with the Sex Offender and Crimes Against Minors
186 Registry pursuant to Chapter 9 (§ 9.1-900 et seq.) of Title 9.1, if the home or facility anticipates the
187 potential patient will have a length of stay greater than three days or in fact stays longer than three
188 days;

15. Shall require that each licensed hospital include in its visitation policy a provision allowing each adult patient to receive visits from any individual from whom the patient desires to receive visits, subject to other restrictions contained in the visitation policy including, but not limited to, those related to the patient's medical condition and the number of visitors permitted in the patient's room simultaneously;

194 16. Shall require that each nursing home and certified nursing facility shall, upon the request of the 195 facility's family council, send notices and information about the family council mutually developed by 196 the family council and the administration of the nursing home or certified nursing facility, and provided 197 to the facility for such purpose, to the listed responsible party or a contact person of the resident's 198 choice up to six times per year. Such notices may be included together with a monthly billing statement 199 or other regular communication. Notices and information shall also be posted in a designated location 200 within the nursing home or certified nursing facility. No family member of a resident or other resident 201 representative shall be restricted from participating in meetings in the facility with the families or 202 resident representatives of other residents in the facility;

17. Shall require that each nursing home and certified nursing facility maintain liability insurance
coverage in a minimum amount of \$1 million, and professional liability coverage in an amount at least
equal to the recovery limit set forth in § 8.01-581.15, to compensate patients or individuals for injuries
and losses resulting from the negligent or criminal acts of the facility. Failure to maintain such
minimum insurance shall result in revocation of the facility's license;

18. Shall require each hospital that provides obstetrical services to establish policies to follow when a
stillbirth, as defined in § 32.1-69.1, occurs that meet the guidelines pertaining to counseling patients and
their families and other aspects of managing stillbirths as may be specified by the Board in its
regulations;

19. Shall require each nursing home to provide a full refund of any unexpended patient funds on
deposit with the facility following the discharge or death of a patient, other than entrance-related fees
paid to a continuing care provider as defined in § 38.2-4900, within 30 days of a written request for
such funds by the discharged patient or, in the case of the death of a patient, the person administering
the person's estate in accordance with the Virginia Small Estates Act (§ 64.2-600 et seq.);

217 20. Shall require that each hospital that provides inpatient psychiatric services establish a protocol 218 that requires, for any refusal to admit (i) a medically stable patient referred to its psychiatric unit, direct 219 verbal communication between the on-call physician in the psychiatric unit and the referring physician, 220 if requested by such referring physician, and prohibits on-call physicians or other hospital staff from 221 refusing a request for such direct verbal communication by a referring physician and (ii) a patient for 222 whom there is a question regarding the medical stability or medical appropriateness of admission for 223 inpatient psychiatric services due to a situation involving results of a toxicology screening, the on-call 224 physician in the psychiatric unit to which the patient is sought to be transferred to participate in direct 225 verbal communication, either in person or via telephone, with a clinical toxicologist or other person who 226 is a Certified Specialist in Poison Information employed by a poison control center that is accredited by 227 the American Association of Poison Control Centers to review the results of the toxicology screen and 228 determine whether a medical reason for refusing admission to the psychiatric unit related to the results 229 of the toxicology screen exists, if requested by the referring physician;

230 21. Shall require that each hospital that is equipped to provide life-sustaining treatment shall develop 231 a policy governing determination of the medical and ethical appropriateness of proposed medical care, 232 which shall include (i) a process for obtaining a second opinion regarding the medical and ethical 233 appropriateness of proposed medical care in cases in which a physician has determined proposed care to 234 be medically or ethically inappropriate; (ii) provisions for review of the determination that proposed 235 medical care is medically or ethically inappropriate by an interdisciplinary medical review committee 236 and a determination by the interdisciplinary medical review committee regarding the medical and ethical 237 appropriateness of the proposed health care; and (iii) requirements for a written explanation of the 238 decision reached by the interdisciplinary medical review committee, which shall be included in the patient's medical record. Such policy shall ensure that the patient, his agent, or the person authorized to 239

5 of 6

make medical decisions pursuant to § 54.1-2986 (a) are informed of the patient's right to obtain his 240 241 medical record and to obtain an independent medical opinion and (b) afforded reasonable opportunity to 242 participate in the medical review committee meeting. Nothing in such policy shall prevent the patient, 243 his agent, or the person authorized to make medical decisions pursuant to § 54.1-2986 from obtaining 244 legal counsel to represent the patient or from seeking other remedies available at law, including seeking 245 court review, provided that the patient, his agent, or the person authorized to make medical decisions 246 pursuant to § 54.1-2986, or legal counsel provides written notice to the chief executive officer of the 247 hospital within 14 days of the date on which the physician's determination that proposed medical 248 treatment is medically or ethically inappropriate is documented in the patient's medical record;

22. Shall require every hospital with an emergency department to establish protocols to ensure that
security personnel of the emergency department, if any, receive training appropriate to the populations
served by the emergency department, which may include training based on a trauma-informed approach
in identifying and safely addressing situations involving patients or other persons who pose a risk of
harm to themselves or others due to mental illness or substance abuse or who are experiencing a mental
health crisis;

255 23. Shall require that each hospital establish a protocol requiring that, before a health care provider 256 arranges for air medical transportation services for a patient who does not have an emergency medical 257 condition as defined in 42 U.S.C. § 1395dd(e)(1), the hospital shall provide the patient or his authorized 258 representative with written or electronic notice that the patient (i) may have a choice of transportation by 259 an air medical transportation provider or medically appropriate ground transportation by an emergency 260 medical services provider and (ii) will be responsible for charges incurred for such transportation in the 261 event that the provider is not a contracted network provider of the patient's health insurance carrier or 262 such charges are not otherwise covered in full or in part by the patient's health insurance plan;

263 24. Shall establish an exemption, for a period of no more than 30 days, from the requirement to 264 obtain a license to add temporary beds in an existing hospital or nursing home, *including beds located* in a temporary structure or satellite location operated by the hospital or nursing home, provided that 265 266 the ability remains to safely staff services across the existing hospital or nursing home, (i) for a period of no more than the duration of the Commissioner's determination plus 30 days when the Commissioner 267 268 has determined that a natural or man-made disaster has caused the evacuation of a hospital or nursing 269 home and that a public health emergency exists due to a shortage of hospital or nursing home beds or 270 (ii) for a period of no more than the duration of the emergency order entered pursuant to § 32.1-13 or 271 32.1-20 plus 30 days when the Board, pursuant to § 32.1-13, or the Commissioner, pursuant to 272 § 32.1-20, has entered an emergency order for the purpose of suppressing a nuisance dangerous to 273 public health or a communicable, contagious, or infectious disease or other danger to the public life 274 and health;

275 25. Shall establish protocols to ensure that any patient scheduled to receive an elective surgical
276 procedure for which the patient can reasonably be expected to require outpatient physical therapy as a
277 follow-up treatment after discharge is informed that he (i) is expected to require outpatient physical
278 therapy as a follow-up treatment and (ii) will be required to select a physical therapy provider prior to
279 being discharged from the hospital;

26. Shall permit nursing home staff members who are authorized to possess, distribute, or administer medications to residents to store, dispense, or administer cannabis oil to a resident who has been issued a valid written certification for the use of cannabis oil in accordance with subsection B of § 54.1-3408.3
283 and has registered with the Board of Pharmacy;

284 27. Shall require each hospital with an emergency department to establish a protocol for the 285 treatment and discharge of individuals experiencing a substance use-related emergency, which shall 286 include provisions for (i) appropriate screening and assessment of individuals experiencing substance 287 use-related emergencies to identify medical interventions necessary for the treatment of the individual in 288 the emergency department and (ii) recommendations for follow-up care following discharge for any 289 patient identified as having a substance use disorder, depression, or mental health disorder, as 290 appropriate, which may include, for patients who have been treated for substance use-related 291 emergencies, including opioid overdose, or other high-risk patients, (a) the dispensing of naloxone or 292 other opioid antagonist used for overdose reversal pursuant to subsection X of § 54.1-3408 at discharge 293 or (b) issuance of a prescription for and information about accessing naloxone or other opioid antagonist 294 used for overdose reversal, including information about accessing naloxone or other opioid antagonist 295 used for overdose reversal at a community pharmacy, including any outpatient pharmacy operated by the 296 hospital, or through a community organization or pharmacy that may dispense naloxone or other opioid 297 antagonist used for overdose reversal without a prescription pursuant to a statewide standing order. Such 298 protocols may also provide for referrals of individuals experiencing a substance use-related emergency to peer recovery specialists and community-based providers of behavioral health services, or to providers of 299 300 pharmacotherapy for the treatment of drug or alcohol dependence or mental health diagnoses;

28. During a public health emergency related to COVID-19, shall require each nursing home and 301 302 certified nursing facility to establish a protocol to allow each patient to receive visits, consistent with guidance from the Centers for Disease Control and Prevention and as directed by the Centers for 303 304 Medicare and Medicaid Services and the Board. Such protocol shall include provisions describing (i) the 305 conditions, including conditions related to the presence of COVID-19 in the nursing home, certified 306 nursing facility, and community, under which in-person visits will be allowed and under which in-person visits will not be allowed and visits will be required to be virtual; (ii) the requirements with which 307 in-person visitors will be required to comply to protect the health and safety of the patients and staff of 308 309 the nursing home or certified nursing facility; (iii) the types of technology, including interactive audio or 310 video technology, and the staff support necessary to ensure visits are provided as required by this subdivision; and (iv) the steps the nursing home or certified nursing facility will take in the event of a 311 312 technology failure, service interruption, or documented emergency that prevents visits from occurring as required by this subdivision. Such protocol shall also include (a) a statement of the frequency with 313 314 which visits, including virtual and in-person, where appropriate, will be allowed, which shall be at least 315 once every 10 calendar days for each patient; (b) a provision authorizing a patient or the patient's 316 personal representative to waive or limit visitation, provided that such waiver or limitation is included in the patient's health record; and (c) a requirement that each nursing home and certified nursing facility 317 318 publish on its website or communicate to each patient or the patient's authorized representative, in 319 writing or via electronic means, the nursing home's or certified nursing facility's plan for providing visits 320 to patients as required by this subdivision;

321 29. Shall require each hospital, nursing home, and certified nursing facility to establish and 322 implement policies to ensure the permissible access to and use of an intelligent personal assistant 323 provided by a patient, in accordance with such regulations, while receiving inpatient services. Such 324 policies shall ensure protection of health information in accordance with the requirements of the federal Health Insurance Portability and Accountability Act of 1996, 42 U.S.C. § 1320d et seq., as amended. For the purposes of this subdivision, "intelligent personal assistant" means a combination of an 325 326 electronic device and a specialized software application designed to assist users with basic tasks using a 327 328 combination of natural language processing and artificial intelligence, including such combinations known as "digital assistants" or "virtual assistants"; and 329

330 30. During a declared public health emergency related to a communicable disease of public health 331 threat, shall require each hospital, nursing home, and certified nursing facility to establish a protocol to 332 allow patients to receive visits from a rabbi, priest, minister, or clergy of any religious denomination or 333 sect consistent with guidance from the Centers for Disease Control and Prevention and the Centers for 334 Medicare and Medicaid Services and subject to compliance with any executive order, order of public 335 health, Department guidance, or any other applicable federal or state guidance having the effect of 336 limiting visitation. Such protocol may restrict the frequency and duration of visits and may require visits to be conducted virtually using interactive audio or video technology. Any such protocol may require the 337 338 person visiting a patient pursuant to this subdivision to comply with all reasonable requirements of the 339 hospital, nursing home, or certified nursing facility adopted to protect the health and safety of the 340 person, patients, and staff of the hospital, nursing home, or certified nursing facility.

341 C. Upon obtaining the appropriate license, if applicable, licensed hospitals, nursing homes, and 342 certified nursing facilities may operate adult day care centers.

343 D. All facilities licensed by the Board pursuant to this article which provide treatment or care for 344 hemophiliacs and, in the course of such treatment, stock clotting factors, shall maintain records of all lot 345 numbers or other unique identifiers for such clotting factors in order that, in the event the lot is found to 346 be contaminated with an infectious agent, those hemophiliacs who have received units of this 347 contaminated clotting factor may be apprised of this contamination. Facilities which have identified a lot 348 that is known to be contaminated shall notify the recipient's attending physician and request that he 349 notify the recipient of the contamination. If the physician is unavailable, the facility shall notify by mail, 350 return receipt requested, each recipient who received treatment from a known contaminated lot at the 351 individual's last known address.

E. Hospitals in the Commonwealth may enter into agreements with the Department of Health for the provision to uninsured patients of naloxone or other opioid antagonists used for overdose reversal.
