2022 SESSION

	22103305D
1	SENATE BILL NO. 248
2	Offered January 12, 2022
3	Prefiled January 11, 2022
4	A BILL to amend and reenact § 3.2-3600 of the Code of Virginia, relating to composting; anaerobic
5	digestion.
6	II
-	Patron—Surovell
7	Deferred to Committee on Agriculture, Concernation and Natural Decourses
8 9	Referred to Committee on Agriculture, Conservation and Natural Resources
10	Be it enacted by the General Assembly of Virginia:
11	1. That § 3.2-3600 of the Code of Virginia is amended and reenacted as follows:
12	§ 3.2-3600. Definitions.
13	As used in this chapter, unless the context requires a different meaning:
14	"AAPFCO" means the Association of American Plant Food Control Officials.
15	"Anaerobic digestion" means the controlled anaerobic biological decomposition of organic waste
16	material to produce biogas and digestate.
17	"AOAC International" means the Association of Analytical Communities, formerly the Association of
18	Official Analytical Chemists.
19 20	"Brand" means a term, design, trademark or product name under which a regulated product is
20 21	distributed. "Bulk" means in nonpackaged form.
22	"Bulk fertilizer" means a fertilizer distributed in a nonpackaged form.
23	"Commercial fertilizer" means a fertilizer distributed for farm use, or for any other use, other than
24	any specialty fertilizer use.
25	"Compost" means a biologically stable material derived from the composting process.
26	"Composting" means the biological decomposition of organic matter through a process that inhibits
27	pathogens, viable weed seeds, and odors, accomplished by mixing and piling so as to promote aerobic
28	decay, anaerobic decay, or both aerobic and anaerobic decay. "Composting" includes anaerobic
29 20	digestion.
30 31	"Contractor-applicator" means any person required to hold a permit to apply any regulated product pursuant to § 3.2-3608.
31 32	"Custom medium" means a horticultural growing medium that is prepared to the exact specifications
33	of the person who will be planting in the medium and delivered to that person without intermediate or
34	further distribution.
35	"Deficiency" means the amount of nutrient found by analysis to be less than that guaranteed, which
36	may result from a lack of nutrient ingredients, or from lack of uniformity.
37	"Distribute" means to import, consign, manufacture, produce, compound, mix, blend, or in any way
38	alter, the chemical or physical characteristics of a regulated product, or to offer for sale, sell, barter,
39	warehouse or otherwise supply regulated product in the Commonwealth.
40 41	"Distributor" means any person who distributes.
41 42	"Fertilizer" means any substance containing one or more recognized plant nutrients, which is used for its plant nutrient content, and which is designed for use, or claimed to have value, in promoting plant
43	growth. Fertilizer does not include unmanipulated animal and vegetable manures, marl, lime, limestone,
44	and other products exempted by regulation.
45	"Fertilizer material" means a fertilizer that: (i) contains important quantities of no more than one of
46	the primary plant nutrients: nitrogen (N), phosphate (P205) and potash (K20); (ii) has 85 percent or
47	more of its plant nutrient content present in the form of a single chemical compound; or (iii) is derived
48	from a plant or animal residue, a by-product, or a natural material deposit that has been processed or
49	conditioned in such a way that its content of plant nutrients has not been materially changed, except by
50 51	purification and concentration.
51 52	"Grade" means the percentage of total nitrogen (N), available phosphate (P205) and soluble potash (K20), stated in whole numbers in the same terms, order, and percentages as in the guaranteed analysis,
53	except that fertilizer materials, specialty fertilizers, bone meal, manures and similar raw materials may
54	be guaranteed in fractional units.
55	"Guaranteed analysis" means the minimum percentage of plant nutrients claimed as required by this
56	chapter to be displayed on the label of a regulated product.
57	"Guarantor" means the person whose name appears on the label of a regulated product.
58	"Horticultural growing medium" means any substance or mixture of substances that is promoted as or

107

59 is intended to function as an artificial soil for the managed growth of horticultural crops.

"Industrial co-product" means any industrial waste or byproduct, including exceptional quality biosolids and waste treatment residuals, that can be beneficially recycled for its plant nutrient content or 60 61

62 soil amendment characteristics, that meets the definition of fertilizer, soil amendment, or horticultural 63 growing medium.

64 "Investigational allowance" means an allowance for variations, inherent in the taking, preparation, 65 and analysis of an official sample.

"Label" means the display of all written, printed, or graphic matter, upon the immediate container, or 66 67 a statement accompanying a regulated product, including an invoice.

68 "Labeling" means all written, printed, or graphic matter, upon or accompanying any regulated product, including invoices, advertisements, brochures, posters, television and radio announcements, and 69 70 internet content used in promoting the sale of the regulated product.

"Lawn fertilizer" means any fertilizer intended for nonagricultural use on newly established turf areas 71 from sod or seed during the first growing season, turf areas being repaired or renovated, and turf areas 72 where soil tests performed within the past three years indicate a nutrient deficiency. 73

74 "Lawn maintenance fertilizer" means any fertilizer intended for the nonagricultural routine 75 maintenance of turf.

76 "Licensee" means the person who receives a license to distribute any regulated product under the 77 provisions of this chapter.

78 "Lot" means an identifiable quantity of produced material that can be sampled officially according to 79 AOAC International procedures, up to and including a freight car load or 50 tons maximum, or that 80 amount contained in a single vehicle, or that amount delivered under a single invoice.

"Manipulated manure" means animal or vegetable manure that is ground, pelletized, mechanically 81 dried, packaged, supplemented with plant nutrients or other substances other than phosphorus, or 82 otherwise treated in a manner to assist with the sale or distribution of the manure as a fertilizer or soil 83 84 or plant additive.

85 'Manufacturer'' means any person who manufactures, produces, compounds, mixes, blends, or in any 86 way alters the chemical or physical characteristics of any regulated product.

87 "Mixed fertilizer" means a fertilizer containing any combination or mixture of fertilizer materials.

88 "Official analysis" means the analysis of an official sample, made by the Commissioner. 89

"Official sample" means the sample of regulated product taken by the Commissioner.

90 "Percent" or "percentage" means the percentage by weight.

91 "Primary nutrient" includes total nitrogen (N), available phosphate (P205), and soluble potash (K20).

92 "Quantity statement" means the net weight (mass), net volume (liquid or dry), count or other form of 93 measurement of a commodity.

"Registrant" means the person who registers regulated products, under the provisions of this chapter. 94

"Regulated product" means any product governed by this chapter, including any fertilizer, specialty 95 fertilizer, soil amendment, and horticultural growing medium. 96

"Soil amendment" means any substance or mixture of substances intended to improve the physical, 97 98 chemical, biochemical, biological, or other characteristics of the soil. The following are exempt from the 99 definition of "soil amendment": fertilizer, unmanipulated or composted animal and vegetable manures, 100 horticultural growing media, agricultural liming materials, unmixed mulch and unmixed peat.

101 "Specialty fertilizer" means a fertilizer distributed for nonfarm use, including use on home gardens, 102 lawns, shrubbery, flowers, golf courses, municipal parks, cemeteries, greenhouses and nurseries.

"Stop sale, use, removal, or seizure order" means an order that prohibits the distributor from selling, 103 relocating, using, or disposing of a lot of regulated product, or portion thereof, in any manner, until the 104 Commissioner or the court gives written permission to sell, relocate, use or dispose of the lot of 105 106 regulated product or portion thereof.

"Ton" means a unit of 2000 pounds avoirdupois weight.

108 "Turf" means nonagricultural land that is planted as closely mowed, managed grass and includes golf courses, parks, cemeteries, publicly owned lands, and residential, commercial, or industrial property. 109

"Unmanipulated manure" means substances composed of the excreta of domestic animals, or 110 domestic fowls, that has not been processed or conditioned in any manner including processing or 111 conditioning by drying, grinding, pelleting, shredding, addition of plant food, mixing artificially with any 112 113 material or materials (other than those that have been used for bedding, sanitary or feeding purposes for

114 such animals or fowls), or by any other means.
