35

Approved

Be it enacted by the General Assembly of Virginia:

7 1. That §§ 2.2-222.4, 10.1-602, 10.1-658, and 10.1-659 of the Code of Virginia are amended and 8 reenacted as follows: 9

§ 2.2-222.4. Chief Resilience Officer.

10 A. The Governor shall designate a Chief Resilience Officer. The Chief Resilience Officer shall serve as the primary coordinator of resilience and adaptation initiatives in Virginia and as the primary point of 11 12 contact regarding issues related to resilience and recurrent flooding. The Chief Resilience Officer shall 13 be equally responsible for all urban, suburban, and rural areas of the Commonwealth.

14 B. The Chief Resilience Officer, in consultation with the Special Assistant to the Governor for 15 Coastal Adaptation and Protection, shall:

1. Identify and monitor those areas of the Commonwealth that are at greatest risk from recurrent 16 17 flooding and increased future flooding and recommend actions that both the private and public sectors 18 should consider in order to increase the resilience of such areas;

19 2. Upon the request of any locality in the Commonwealth in which is located a substantial flood 20 defense or catchment area, including a levee, reservoir, dam, catch basin, or wetland or lake improved or 21 constructed for the purpose of flood control, review and comment on plans for the construction or 22 substantial reinforcement of such flood defense or catchment area; and

23 3. Initiate and assist with the pursuit of funding opportunities for resilience initiatives at both the 24 state and local levels and help to oversee and coordinate funding initiatives of all agencies of the 25 Commonwealth.

26 4. Beginning July 1, 2023, and every two years thereafter, report to the Governor and the General 27 Assembly on the status of flood resilience in the Commonwealth. The report shall serve as an evaluation of flood protection for critical infrastructure, including human and natural infrastructure. The report 28 29 shall identify risks to critical transportation, energy, communication, water and food supply, waste 30 management, health, and emergency services infrastructure. The report shall also include the status of 31 flood resilience planning. In preparing the report, the Chief Resilience Officer shall also coordinate with 32 the Director of Diversity, Equity, and Inclusion and shall be assisted by all relevant Secretariats and 33 agencies. 34

§ 10.1-602. Powers and duties of Department.

The Department shall:

36 1. Develop a flood protection plan Virginia Flood Protection Master Plan (the Plan) for the 37 Commonwealth. This plan Plan shall be a place-specific plan for mitigating severe and repetitive flooding and shall, at a minimum, (i) base decision making on the best-available science; (ii) identify 38 39 and address socioeconomic inequities and strive to enhance equity through the adaptation and 40 protection measures by considering all areas of recurrent flooding; (iii) recognize the importance of 41 protecting and enhancing natural infrastructure and nature-based approaches to flood mitigation, when 42 possible; (iv) utilize community and regional scale planning to the maximum extent possible, seeking 43 region-specific approaches tailored to the needs of individual communities; and (v) include an 44 understanding of fiscal realities and focus on cost-effective solutions for the protection and adaptation of 45 communities, businesses, and critical infrastructure. The Plan shall include, at a minimum:

a. An inventory of flood-prone areas; 46

47 b. An inventory of flood protection studies;

48 c. A record of flood damages;

d. Strategies to prevent or mitigate flood damage; and 49

50 e. The collection and distribution of information relating to flooding and flood plain management.

The flood protection plan Plan shall be reviewed and updated by the Department on a regular basis, 51 52 but at least once every five years, and for each of the items listed in provisions a through e, the plan 53 shall state when that provision was last updated and when the next update is planned. The plan shall be 54 maintained in an online format so as to be easily accessed by other government entities and by the 55 public. The online plan shall contain links to the most current information available from other federal, 56 state, and local sources. All agencies of the Commonwealth shall provide assistance to the Department

[S 551]

SB551ER

57 upon request.

58 2. Serve as the coordinator of all flood protection programs and activities in the Commonwealth, including the coordination of federal flood protection programs administered by the United States Army Corps of Engineers, the United States Department of Agriculture, the Federal Emergency Management 59 60 61 Agency, the United States Geological Survey, the Tennessee Valley Authority, other federal agencies 62 and local governments.

63 3. Make available flood and flood damage reduction data to localities for planning purposes, in order 64 to assure necessary local participation in the planning process and in the selection of desirable alternatives which will fulfill the intent of this article. This shall include the development of a data base 65 66 to include (i) all flood protection projects implemented by federal agencies and (ii) the estimated value 67 of property damaged by major floods.

4. Assist localities in their management of flood plain activities in cooperation with the Department 68 69 of Housing and Community Development.

70 5. Carry out the provisions of this article in a manner which will ensure that the management of 71 flood plains will preserve the capacity of the flood plain to carry and discharge a hundred year flood.

72 6. Make, in cooperation with localities, periodic inspections to determine the effectiveness of local 73 flood plain management programs, including an evaluation of the enforcement of and compliance with 74 local flood plain management ordinances, rules and regulations.

75 7. Coordinate with the United States Federal Emergency Management Agency to ensure current 76 knowledge of the identification of flood-prone communities and of the status of applications made by 77 localities to participate in the National Flood Insurance Program.

78 8. Establish guidelines which will meet minimum requirements of the National Flood Insurance 79 Program in furtherance of the policy of the Commonwealth to assure that all citizens living in flood-prone areas may have the opportunity to indemnify themselves from flood losses through the 80 purchase of flood insurance under the regular flood insurance program of the National Flood Insurance 81 82 Act of 1968 as amended.

83 9. Subject to the provisions of the Appropriations Act, provide financial and technical assistance to 84 localities in an amount not to exceed fifty percent of the nonfederal costs of flood protection projects.

10. Serve as the lead administrator for the Virginia Coastal Resilience Master Plan and the Virginia 85 86 Flood Protection Master Plan.

87 11. Implement the Virginia Coastal Resilience Master Plan and the Virginia Flood Protection Master Plan. 88

89 12. Ensure that the Virginia Coastal Resilience Master Plan and the Virginia Flood Protection 90 Master Plan are integrated. 91

§ 10.1-658. State interest in resilience and flood control.

92 A. The General Assembly declares that storm events and rising tidal waters cause recurrent flooding 93 of Virginia's land resources and result in the loss of life, damage to property, unsafe and unsanitary 94 conditions and the disruption of commerce and government services, placing at risk the health, safety and welfare of those citizens living in flood-prone areas of the Commonwealth. Flood waters disregard 95 96 jurisdictional boundaries, and the public interest requires the management of flood-prone areas in a 97 manner which prevents injuries to persons, damage to property and pollution of state waters.

98 B. The General Assembly, therefore, supports and encourages those measures which prevent, 99 mitigate, and alleviate the effects of sea level rise, stormwater surges, and all causes of recurrent flooding, and declares that the expenditure of public funds and any obligations incurred in the 100 development of flood control and other civil works projects, the benefits of which may accrue to any 101 102 county, municipality, or region in the Commonwealth, are necessary expenses of local and state government. The General Assembly shall prioritize measures that use community-scale and 103 104 regional-scale planning, protect and enhance natural and nature-based approaches, address 105 socioeconomic inequities, and enhance equity through flood resilience and preparedness.

106 C. The General Assembly supports and encourages flood resilience through implementation of the 107 Virginia Coastal Resilience Master Plan and implementation of the Virginia Flood Protection Master Plan developed pursuant to § 10.1-602. 108

109 D. The Department shall be responsible for the implementation of the Virginia Coastal Resilience 110 Plan and Virginia Flood Protection Master Plan and shall serve as the lead administrator.

111 E. The Virginia Coastal Resilience Master Plan shall be updated at least every five years; shall, at a 112 minimum, be a place-specific plan for mitigating severe and repetitive flooding; and shall, at a 113 minimum, (i) base decision making on the best-available science; (ii) identify and address socioeconomic 114 inequities and strive to enhance equity through the adaptation and protection measures by considering all areas of recurrent flooding; (iii) recognize the importance of protecting and enhancing natural 115 infrastructure and nature-based approaches to flood mitigation, when possible; (iv) utilize community 116 and regional scale planning to the maximum extent possible, seeking region-specific approaches tailored 117

to the needs of individual communities; and (v) include an understanding of fiscal realities and focus on 118 119 cost-effective solutions for the protection and adaptation of communities, businesses, and critical 120 infrastructure.

§ 10.1-659. Flood protection programs; coordination.

121 122 A. The provisions of this chapter shall be coordinated with the Virginia Coastal Resilience Master 123 Plan, the Virginia Flood Protection Master Plan, and federal, state, and local flood prevention and water 124 quality programs to minimize loss of life, property damage, and negative impacts on the environment. 125 This program coordination shall include but not be limited to the following: flood prevention, flood 126 plain management, small watershed protection, dam safety, shoreline erosion and public beach 127 preservation, and soil conservation programs of the Department of Conservation and Recreation; the 128 construction activities of the Department of Transportation, including projects that result in hydrologic 129 modification of rivers, streams, and flood plains; the nontidal wetlands, water quality, Chesapeake Bay Preservation Area criteria, stormwater management, erosion and sediment control, and other water management programs of the State Water Control Board; the Virginia Coastal Zone Management 130 131 132 Program at the Department of Environmental Quality; forested watershed management programs of the 133 Department of Forestry; the agricultural stewardship, farmland preservation, and disaster assistance programs of the Department of Agriculture and Consumer Services; the statewide building code and 134 135 other land use control programs of the Department of Housing and Community Development; the habitat 136 management programs of the Virginia Marine Resources Commission; the hazard mitigation planning 137 and disaster response programs of the Department of Emergency Management; the fish and wildlife 138 habitat protection programs of the Department of Wildlife Resources; the mineral extraction regulatory 139 program of the Department of Energy; the flood plain restrictions of the Virginia Waste Management 140 Board; flooding-related research programs of the state universities; local government assistance programs of the Virginia Soil and Water Conservation Board; the Virginia Antiquities Act program of the Department of Historic Resources; the public health and preparedness programs of the Virginia 141 142 Department of Health; the State Council of Higher Education for Virginia; the State Corporation 143 *Commission;* and any other state agency programs deemed necessary by the Director, the Chief Resilience Officer of the Commonwealth, and the Special Assistant to the Governor for Coastal 144 145 146 Adaptation and Protection. The Department shall also coordinate with soil and water conservation 147 districts, Virginia Cooperative Extension agents, and planning district commissions, and shall coordinate 148 and cooperate with localities in rendering assistance to such localities in their efforts to comply with the planning, subdivision of land, and zoning provisions of Chapter 22 (§ 15.2-2200 et seq.) of Title 15.2. 149

150 B. The Director and either, in coordination with the Special Assistant to the Governor for Coastal 151 Adaptation and Protection of and the Chief Resilience Officer, shall jointly hold meetings of 152 representatives of these the programs, entities, and localities described in subsection A at least annually 153 in order to determine, coordinate, and prioritize the Commonwealth's efforts and expenditures to increase 154 flooding resilience and flood preparedness and to implement the Virginia Coastal Resilience Master 155 Plan and the Virginia Flood Protection Master Plan. The Department shall review any revisions to the 156 Virginia Flood Protection Master Plan and provide an update on the progress of the implementation of 157 the Virginia Coastal Resilience Master Plan at any such meetings. The Department shall cooperate with 158 other public and private agencies having flood plain management programs and shall coordinate its 159 responsibilities under this article and any other law. These activities shall constitute the Commonwealth's 160 flood *resilience*, *preparedness*, prevention, and protection program.

C. 1. The Chief Resilience Officer, in coordination with the Special Assistant to the Governor for 161 162 Coastal Adaptation and Protection and the Director, shall establish the Virginia Coastal Resilience Technical Advisory Committee (the Committee) to assist with developing, updating, and implementing 163 164 the Virginia Coastal Resilience Master Plan.

165 2. The Committee shall be comprised of representatives of state agencies, coastal planning district commissions, regional commissions, academic advisors, and any other representatives as needed. 166 Members shall serve at the pleasure of the Governor and shall include the following individuals or their 167 168 designees: the executive directors of coastal planning district commissions and regional commissions; 169 the Special Assistant to the Governor for Coastal Adaptation and Protection; the Director; the Director 170 of the Virginia Department of Emergency Management; the Director of the Virginia Department of Housing and Community Development; the Executive Director of the Virginia Resources Authority; the 171 172 Director of the Department of Environmental Quality; the Commissioner of the Virginia Department of 173 Transportation; the Director of the Virginia Transportation Research Council; the Commissioner of the 174 Virginia Marine Resources Commission; the Director of the Institute for Coastal Adaptation and 175 Resilience; the Associate Dean for Research and Advisory Services at the Virginia Institute of Marine Science; the Director of the William and Mary School of Law Coastal Policy Center; the Director of the 176 177 Virginia Tech Center for Coastal Studies; the Director of the Environmental Resilience Institute at the University of Virginia; the Director of Virginia Sea Grant; the Director of Diversity, Equity, and 178

- 179 Inclusion; and the Chief Data Officer of the Commonwealth. The Chief Resilience Officer shall serve as180 chairman of the Committee.
- 181 3. The Chief Resilience Officer shall invite participation by the Commander of the U.S. Army Corps
 182 of Engineers, Norfolk District; the Commander of the Navy Region Mid-Atlantic; and representatives of
 183 the seven federally recognized Tribal Nations indigenous to the Commonwealth of Virginia.
- **184** *4.* Appointed members shall serve in an advisory role without compensation.
- **185** 5. The Committee shall meet at least quarterly.
- 186 6. The Department, the Special Assistant to the Governor for Coastal Adaptation and Protection, and
 187 the Coastal Zone Management Program shall provide staff support to the Committee.
- 188 7. The Committee shall ensure that (i) risk evaluations and project prioritization protocols are 189 regularly updated and are informed by the best applicable scientific and technical data; (ii) statewide and regional needs are addressed using the best applicable science and long-term resilience approaches; and (iii) the Virginia Coastal Resilience Master Planning Framework is adhered to in the 190 191 development and updating of the Virginia Coastal Resilience Master Plan. The Committee shall also 192 review updates to the Virginia Coastal Resilience Master Plan and receive updates about the progress 193 194 of the Virginia Flood Protection Master Plan at each meeting. Additionally, the Committee may be 195 called upon to assist the Department with the development and updating of the Virginia Flood 196 Protection Master Plan.
- 197 2. That the Special Assistant to the Governor for Coastal Adaptation and Protection, in 198 coordination with the Director of the Department of Conservation and Recreation, shall update the 199 Virginia Coastal Resilience Master Plan in accordance with § 10.1-658 of the Code of Virginia, as 200 amended by this act, no later than December 31, 2024, to incorporate all major flood hazards, 201 including precipitation-driven flooding; a list of all projects considered and an update of the status 202 of all projects previously implemented; and a comprehensive risk assessment of critical human and 203 natural infrastructure.
- 204 3. That the Director of the Department of Conservation and Recreation (the Department), jointly with the Director of Diversity, Equity, and Inclusion, and in coordination with the Chief Resilience 205 206 Officer and the Special Assistant to the Governor for Coastal Adaptation and Protection, shall prepare a Community Outreach and Engagement Plan for updates to the Virginia Coastal 207 208 Resilience Master Plan and for development and updates to the Virginia Flood Protection Master Plan (the Plans) no later than December 31, 2022. The outreach and engagement plan shall strive 209 for meaningful involvement by ensuring that (i) affected and vulnerable community residents have 210 access and opportunity to participate in the full cycle of the decision-making process about the 211 212 development of and updates to the Plans, and (ii) decision-makers shall seek out and consider such 213 participation, allowing the views and perspectives of community residents to shape and influence decisions. The Department shall seek input to the Community Outreach and Engagement Plan 214 215 from representatives of Virginia Indian tribes, community-based organizations, the public health sector, nongovernmental organizations, civil rights organizations, communities impacted by 216 recurring flooding, and the Emergency Management Equity Working Group established pursuant 217 218 to subdivision B 19 of § 44-146.18 of the Code of Virginia.
- 4. That the Director of the Department of Conservation and Recreation is authorized to use funds from the Community Flood Preparedness Fund, established pursuant to § 10.1-603.25 of the Code of Virginia, for studies of statewide or regional significance, including the development of or updates to the Virginia Coastal Resilience Master Plan, the Virginia Flood Protection Master Plan, and the Community Outreach and Engagement Plan described in the third enactment of this act.
- 224 5. That the Director of the Department of Conservation and Recreation shall prepare the Virginia
- 225 Flood Protection Master Plan using a watershed-based approach no later than December 31, 2026.
