Referred to Committee on Education and Health

**Be it enacted by the General Assembly of Virginia:****1. That § 32.1-42.1 of the Code of Virginia is amended and reenacted as follows:****§ 32.1-42.1. Administration and dispensing of necessary drugs, devices and vaccines during a declared disaster or emergency.**

A. The Commissioner, pursuant to § 54.1-3408, may authorize persons who are not authorized by law to administer or dispense drugs or devices to administer or dispense all necessary drugs or devices in accordance with protocols established by the Commissioner when (i) the Governor has declared a disaster or a state of emergency or, the United States Secretary of Health and Human Services has issued a declaration of an actual or potential bioterrorism incident or other actual or potential public health emergency, or when the Board has made an emergency order pursuant to § 32.1-13 for the purpose of suppressing nuisances dangerous to the public health and communicable, contagious, and infectious diseases and other dangers to the public life and health and for the limited purpose of administering vaccines as an approved countermeasure for such communicable, contagious, and infectious diseases; (ii) it is necessary to permit the provision of needed drugs or devices; and (iii) such persons have received the training necessary to safely administer or dispense the needed drugs or devices. Such persons shall administer or dispense all drugs or devices under the direction, control, and supervision of the Commissioner. For purposes of this section, "administer," "device," "dispense," and "drug" shall have the same meaning as provided in § 54.1-3401. The Commissioner shall develop protocols, in consultation with the Department of Health Professions, that address the required training of such persons and procedures for such persons to use in administering or dispensing drugs or devices.

B. Where the Commissioner, pursuant to subsection A, authorizes persons who are not otherwise authorized by law to administer vaccines, such persons shall include any of the following who, due to their education and training, are qualified to administer drugs: (i) any person licensed by a health regulatory board within the Department of Health Professions whose license is in good standing, or was in good standing within the 20 years immediately prior to lapsing; (ii) any emergency medical services provider licensed or certified by the Department whose license or certification is in good standing, or was in good standing within the 20 years immediately prior to lapsing; and (iii) any health professions student enrolled in an accredited program in the Commonwealth who is in good academic standing with such student's school and provided that the school certifies that the student has been properly trained in the administration of vaccines. A health professions student who administers vaccines pursuant to this section shall be supervised by any eligible health care provider who holds a license issued by a health regulatory board within the Department of Health Professions, and the supervising health care provider shall not be required to be licensed in the same health profession for which the student is studying. A person who is licensed as a nurse practitioner by the Boards of Medicine and Nursing or licensed as a physician assistant by the Board of Medicine who administers vaccines pursuant to this section may administer such vaccine without a written or electronic practice agreement. In the absence of gross negligence or willful misconduct, any such person authorized by the Commissioner or entity overseeing any such person who administers the vaccine pursuant to this section shall not be liable for (a) any actual or alleged injury or wrongful death or (b) any civil cause of action arising from any act or omission arising out of, related to, or alleged to have resulted in the contraction of or exposure to the communicable, contagious, and infectious disease or to have resulted from the administration of the vaccine.
