§ 15.2-2306. Preservation of historical sites and architectural areas.

A. 1. Any locality may adopt an ordinance setting forth the historic landmarks within the locality as established by the Virginia Board of Historic Resources, and any other buildings or structures within the locality having an important historic, architectural, archaeological or cultural interest, any historic areas within the locality as defined by § 15.2-2201, and areas of unique architectural value located within designated conservation, rehabilitation or redevelopment districts, amending the existing zoning ordinance and delineating one or more historic districts, adjacent to such landmarks, buildings and structures, or encompassing such areas, or encompassing parcels of land contiguous to arterial streets or highways (as designated pursuant to Title 33.2, including § 33.2-319 ~~of that title~~) found by the governing body to be significant routes of tourist access to the locality or to designated historic landmarks, buildings, structures or districts therein or in a contiguous locality. A governing body may provide in the ordinance that the applicant must submit documentation that any development in an area of the locality of known historical or archaeological significance will preserve or accommodate the historical or archaeological resources. An amendment of the zoning ordinance and the establishment of a district or districts shall be in accordance with the provisions of Article 7 (§ 15.2-2280 et seq.) ~~of this chapter~~. The governing body may provide for a review board to administer the ordinance and may provide compensation to the board. The ordinance may include a provision that no building or structure, including signs, shall be erected, reconstructed, altered or restored within any such district unless approved by the review board or, on appeal, by the governing body of the locality as being architecturally compatible with the historic landmarks, buildings or structures therein.

2. Subject to the provisions of subdivision 3 ~~of this subsection~~ the governing body may provide in the ordinance that no historic landmark, building or structure within any district shall be razed, demolished or moved until the razing, demolition or moving thereof is approved by the review board, or, on appeal, by the governing body after consultation with the review board.

3. The governing body shall provide by ordinance for appeals to the circuit court for such locality from any final decision of the governing body pursuant to subdivisions 1 and 2 ~~of this subsection~~ and

shall specify therein the parties entitled to appeal the decisions, which parties shall have the right to appeal to the circuit court for review by filing a petition at law, setting forth the alleged illegality of the action of the governing body, provided the petition is filed within ~~thirty~~ 30 days after the final decision is rendered by the governing body. The filing of the petition shall stay the decision of the governing body pending the outcome of the appeal to the court, except that the filing of the petition shall not stay the decision of the governing body if the decision denies the right to raze or demolish a historic landmark, building or structure. The court may reverse or modify the decision of the governing body, in whole or in part, if it finds upon review that the decision of the governing body is contrary to law or that its decision is arbitrary and constitutes an abuse of discretion, or it may affirm the decision of the governing body.

In addition to the right of appeal hereinabove set forth, the owner of a historic landmark, building or structure, the razing or demolition of which is subject to the provisions of subdivision 2 ~~of this subsection~~, shall, as a matter of right, be entitled to raze or demolish such landmark, building or structure provided that: (i) he has applied to the governing body for such right, (ii) the owner has for the period of time set forth in the same schedule hereinafter contained and at a price reasonably related to its fair market value, made a bona fide offer to sell the landmark, building or structure, and the land pertaining thereto, to the locality or to any person, firm, corporation, government or agency thereof, or political subdivision or agency thereof, which gives reasonable assurance that it is willing to preserve and restore the landmark, building or structure and the land pertaining thereto, and (iii) no bona fide contract, binding upon all parties thereto, shall have been executed for the sale of any such landmark, building or structure, and the land pertaining thereto, prior to the expiration of the applicable time period set forth in the time schedule hereinafter contained. Any appeal which may be taken to the court from the decision of the governing body, whether instituted by the owner or by any other proper party, notwithstanding the provisions heretofore stated relating to a stay of the decision appealed from shall not affect the right of the owner to make the bona fide offer to sell referred to above. No offer to sell shall be made more than one year after a final decision by the governing body, but thereafter the owner may renew his request to the governing body to approve the razing or demolition of the historic landmark, building or structure. The time schedule for offers to sell shall be as follows: three months when the offering price is less than \$25,000; four months when the offering price is \$25,000 or more but less than \$40,000; five months when the offering price is \$40,000 or more but less than \$55,000; six months when the offering price is \$55,000 or more but less than \$75,000; seven months when the offering price is \$75,000 or more but less than \$90,000; and ~~twelve~~ 12 months when the offering price is \$90,000 or more.

4. The governing body is authorized to acquire in any legal manner any historic area, landmark, building or structure, land pertaining thereto, or any estate or interest therein which, in the opinion of the governing body should be acquired, preserved and maintained for the use, observation, education, pleasure and welfare of the people; provide for their renovation, preservation, maintenance, management and control as places of historic interest by a department of the locality or by a board, commission or agency specially established by ordinance for the purpose; charge or authorize the charging of compensation for the use thereof or admission thereto; lease, subject to such regulations as may be established by ordinance, any such area, property, lands or estate or interest therein so acquired upon the condition that the historic character of the area, landmark, building, structure or land shall be preserved and maintained; or to enter into contracts with any person, firm or corporation for the management, preservation, maintenance or operation of any such area, landmark, building, structure, land pertaining thereto or interest therein so acquired as a place of historic interest; however, the locality shall not use the right of condemnation under this subsection unless the historic value of such area, landmark, building, structure, land pertaining thereto, or estate or interest therein is about to be destroyed.

The authority to enter into contracts with any person, firm or corporation as stated above may include the creation, by ordinance, of a resident curator program such that private entities through lease or other contract may be engaged to manage, preserve, maintain, or operate, including the option to reside in, any such historic area, property, lands, or estate owned or leased by the locality. Any leases or contracts entered into under this provision shall require that all maintenance and improvement be conducted in accordance with established treatment standards for historic landmarks, areas, buildings, and structures. For purposes of this section, leases or contracts that preserve historic landmarks, buildings, structures, or areas are deemed to be consistent with the purposes of use, observation, education, pleasure, and welfare of the people as stated above so long as the lease or contract provides for reasonable public access consistent with the property's nature and use. The Department of Historic Resources shall provide technical assistance to local governments, at their request, to assist in developing resident curator programs.

B. Notwithstanding any contrary provision of law, general or special, in the City of Portsmouth no approval of any governmental agency or review board shall be required for the construction of a ramp to serve ~~the handicapped individuals with disabilities~~ at any structure designated pursuant to the provisions of this section.

C. Any locality that establishes or expands a local historic district pursuant to this section shall

identify and inventory all landmarks, buildings, or structures in the areas being considered for inclusion within the proposed district. Prior to adoption of an ordinance establishing or expanding a local historic district, the locality shall (i) provide for public input from the community and affected property owners in accordance with § 15.2-2204; (ii) establish written criteria to be used to determine which properties should be included within a local historic district; and (iii) review the inventory and the criteria to determine which properties in the areas being considered for inclusion within the proposed district meet the criteria to be included in a local historic district. Local historic district boundaries may be adjusted to exclude properties along the perimeter that do not meet the criteria. The locality shall include only the geographical areas in a local historic district where a majority of the properties meet the criteria established by the locality in accordance with this section. However, parcels of land contiguous to arterial streets or highways found by the governing body to be significant routes of tourist access to the locality or to designated historic landmarks, buildings, structures, or districts therein, or in a contiguous locality may be included in a local historic district notwithstanding the provisions of this subsection.

D. Any locality utilizing the urban county executive form of government may include a provision in any ordinance adopted pursuant to this section that would allow public access to any such historic area, landmark, building, or structure, or land pertaining thereto, or providing that no subdivision shall occur within any historic district unless approved by the review board or, on appeal, by the governing body of the locality as being compatible with the historic nature of such area, landmarks, buildings, or structures therein with regard to any parcel or parcels that collectively are (i) adjacent to a navigable river and a national park and (ii) in part or as a whole subject to an easement granted to the National Park Service or Virginia Outdoors Foundation granted on or after January 1, 1973.

§ 36-98.1. State buildings; exception for certain assets owned by the Department of Transportation.

A. The Building Code shall be applicable to all state-owned buildings and structures, and to all buildings and structures built on state-owned property, with the exception that §§ 2.2-1159 through 2.2-1161 shall provide the standards for ready access to and use of state-owned buildings by ~~the physically handicapped individuals with physical disabilities~~.

Any state-owned building or structure, or building or structure built on state-owned property, for which preliminary plans were prepared or on which construction commenced after the initial effective date of the Uniform Statewide Building Code, shall remain subject to the provisions of the Uniform Statewide Building Code that were in effect at the time such plans were completed or such construction commenced. Subsequent reconstruction, renovation or demolition of such building or structure shall be subject to the pertinent provisions of the Building Code.

Acting through the Division of Engineering and Buildings, the Department of General Services shall function as the building official for any state-owned buildings or structures and for all buildings and structures built on state-owned property. The Department shall review and approve plans and specifications, grant modifications, and establish such rules and regulations as may be necessary to implement this section. It may provide for the (i) inspection of state-owned buildings or structures and for all buildings and structures built on state-owned property and (ii) enforcement of the Building Code and standards for access by ~~the physically handicapped individuals with physical disabilities~~ by delegating inspection and Building Code enforcement duties to the State Fire Marshal's Office, to other appropriate state agencies having needed expertise, and to local building departments, all of which shall provide such assistance within a reasonable time and in the manner requested. State agencies and institutions occupying buildings shall pay to the local building department the same fees as would be paid by a private citizen for the services rendered when such services are requested by the Department of General Services. The Department of General Services may alter or overrule any decision of the local building department after having first considered the local building department's report or other rationale given for its decision. When altering or overruling any decision of a local building department, the Department of General Services shall provide the local building department with a written summary of its reasons for doing so.

B. Notwithstanding the provisions of subsection A and § 27-99, roadway tunnels and bridges owned by the Department of Transportation shall be exempt from the Building Code and the Statewide Fire Prevention Code Act (§ 27-94 et seq.). The Department of General Services shall not have jurisdiction over such roadway tunnels, bridges, and other limited access highways; provided, however, that the Department of General Services shall have jurisdiction over any occupied buildings within any Department of Transportation rights-of-way that are subject to the Building Code.

Roadway tunnels and bridges shall be designed, constructed, and operated to comply with fire safety standards based on nationally recognized model codes and standards to be developed by the Department of Transportation in consultation with the State Fire Marshal. Emergency response planning and activities related to the standards shall be developed by the Department of Transportation and coordinated with the appropriate local officials and emergency services providers. On an annual basis the Department of Transportation shall provide a report on the maintenance and operability of installed fire protection and detection systems in roadway tunnels and bridges to the State Fire Marshal.

C. Except as provided in subsection E of § 23.1-1016, and notwithstanding the provisions of subsection A, at the request of a public institution of higher education, the Department, as further set forth in this subsection, shall authorize that institution of higher education to contract with a building official of the locality in which the construction is taking place to perform any inspection and

certifications required for the purpose of complying with the Uniform Statewide Building Code (§ 36-97 et seq.). The Department shall publish administrative procedures that shall be followed in contracting with a building official of the locality. The authority granted to a public institution of higher education under this subsection to contract with a building official of the locality shall be subject to the institution meeting the conditions prescribed in subsection A of § 23.1-1002.

D. This section shall not apply to the nonhabitable structures, equipment, and wiring owned by a public service company, a certificated provider of telecommunications services, or a franchised cable operator that are built on rights-of-way owned or controlled by the Commonwealth Transportation Board.

§ 36-99. Provisions of Code; modifications.

A. The Building Code shall prescribe building regulations to be complied with in the construction and rehabilitation of buildings and structures, and the equipment therein as defined in § 36-97, and shall prescribe regulations to ensure that such buildings and structures are properly maintained, and shall also prescribe procedures for the administration and enforcement of such regulations, including procedures to be used by the local building department in the evaluation and granting of modifications for any provision of the Building Code, provided the spirit and functional intent of the Building Code are observed and public health, welfare and safety are assured. The provisions of the Building Code and modifications thereof shall be such as to protect the health, safety and welfare of the residents of the Commonwealth, provided that buildings and structures should be permitted to be constructed, rehabilitated and maintained at the least possible cost consistent with recognized standards of health, safety, energy conservation and water conservation, including provisions necessary to prevent overcrowding, rodent or insect infestation, and garbage accumulation; and barrier-free provisions for ~~the physically handicapped individuals with physical disabilities~~ and aged *individuals*. Such regulations shall be reasonable and appropriate to the objectives of this chapter.

B. In formulating the Code provisions, the Board shall have due regard for generally accepted standards as recommended by nationally recognized organizations, including, but not limited to, the standards of the International Code Council and the National Fire Protection Association. Notwithstanding the provisions of this section, farm buildings and structures shall be exempt from the provisions of the Building Code, except for a building or a portion of a building located on a farm that is operated as a restaurant as defined in § 35.1-1 and licensed as such by the Board of Health pursuant to Chapter 2 (§ 35.1-11 et seq.) of Title 35.1. However, farm buildings and structures lying within a flood plain or in a mudslide-prone area shall be subject to flood-proofing regulations or mudslide regulations, as applicable.

C. Where practical, the Code provisions shall be stated in terms of required level of performance, so as to facilitate the prompt acceptance of new building materials and methods. When generally recognized standards of performance are not available, such provisions shall provide for acceptance of materials and methods whose performance has been found by the local building department, on the basis of reliable test and evaluation data, presented by the proponent, to be substantially equal in safety to those specified.

D. The Board, upon a finding that sufficient allegations exist regarding failures noted in several localities of performance standards by either building materials, methods, or design, may conduct hearings on such allegations if it determines that such alleged failures, if proven, would have an adverse impact on the health, safety, or welfare of the citizens of the Commonwealth. After at least 21 days' written notice, the Board shall convene a hearing to consider such allegations. Such notice shall be given to the known manufacturers of the subject building material and as many other interested parties, industry representatives, and trade groups as can reasonably be identified. Following the hearing, the Board, upon finding that (i) the current technical or administrative Code provisions allow use of or result in defective or deficient building materials, methods, or designs, and (ii) immediate action is necessary to protect the health, safety, and welfare of the citizens of the Commonwealth, may issue amended regulations establishing interim performance standards and Code provisions for the installation, application, and use of such building materials, methods or designs in the Commonwealth. Such amended regulations shall become effective upon their publication in the Virginia Register of Regulations. Any amendments to regulations adopted pursuant to this subsection shall become effective upon their publication in the Virginia Register of Regulations and shall be effective for a period of 24 months or until adopted, modified, or repealed by the Board.

The insurer shall be allowed to charge a premium at the insurer's then customary rate applicable to such group policy for such extended coverage.

E. 1. Upon termination of such group coverage of a child, the child shall be entitled to have issued to him by the insurer, without evidence of insurability, an individual life insurance policy without disability or other supplementary benefits, if:

a. An application for the individual policy is made, and the first premium paid to the insurer, within 31 days after such termination; and

b. The individual policy, at the option of such person, is on any one of the forms then customarily issued by the insurer at the age and for the amount applied for, except that the group policy may exclude the option to elect term insurance;

c. The individual policy is in an amount not in excess of the amount of life insurance which ceases because of such termination, less the amount of any life insurance for which such person becomes eligible under the same or any other group policy within 31 days after such termination, provided that any amount of insurance which has matured on or before the date of such termination as an endowment payable to the person insured, whether in one sum or in installments or in the form of an annuity, shall not, for the purposes of this provision, be included in the amount which is considered to cease because of such termination; and

d. The premium on the individual policy is at the insurer's then customary rate applicable to the form and amount of the individual policy, to the class of risk to which such person then belongs, and to the individual age attained on the effective date of the individual policy.

2. Subject to the same conditions set forth above, the conversion privilege shall be available (i) to a surviving dependent, if any, at the death of the group member, with respect to the coverage under the group policy which terminates by reason of such death, and (ii) to the dependent of the group member upon termination of coverage of the dependent, while the group member remains insured under the group policy, by reason of the dependent ceasing to be a qualified family member under the group policy.

§ 38.2-3409. Coverage of dependent children.

A. Any group or individual accident and sickness insurance policy or subscription contract delivered or issued for delivery in ~~this the~~ Commonwealth which provides that coverage of a dependent child shall terminate upon that child's attainment of a specified age, shall also provide in substance that attainment of the specified age shall not terminate the child's coverage during the continuance of the policy while the dependent child is and continues to be both: (i) incapable of self-sustaining employment by reason of intellectual ~~disability~~ or physical ~~handicap~~, *disability* and (ii) chiefly dependent upon the policyowner for support and maintenance.

B. Proof of incapacity and dependency shall be furnished to the insurer by the policyowner within 31 days of the child's attainment of the specified age. Subsequent proof may be required by the insurer but not more frequently than annually after the two-year period following the child's attainment of the specified age.

C. The insurer may charge an additional premium for any continuation of coverage beyond the specified age. The additional premium shall be determined by the insurer on the basis of the class of risks applicable to the child.

3. Automobiles, except those described in subdivisions 7, 8, and 9 of this subsection and in subdivision A 8 of § 58.1-3504, which shall be valued by means of a recognized pricing guide or if the model and year of the individual automobile are not listed in the recognized pricing guide, the individual vehicle may be valued on the basis of percentage or percentages of original cost. In using a recognized pricing guide, the commissioner shall use either of the following two methods. The commissioner may use all applicable adjustments in such guide to determine the value of each individual automobile, or alternatively, if the commissioner does not utilize all applicable adjustments in valuing each automobile, he shall use the base value specified in such guide which may be either average retail, wholesale, or loan value, so long as uniformly applied within classifications of property. If the model and year of the individual automobile are not listed in the recognized pricing guide, the taxpayer may present to the commissioner proof of the original cost, and the basis of the tax for purposes of the motor vehicle sales and use tax as described in § 58.1-2405 shall constitute proof of original cost. If such percentage or percentages of original cost do not accurately reflect fair market value, or if the taxpayer does not supply proof of original cost, then the commissioner may select another method which establishes fair market value.

4. Trucks of less than two tons, which may be valued by means of a recognized pricing guide or, if the model and year of the individual truck are not listed in the recognized pricing guide, on the basis of a percentage or percentages of original cost.

5. Trucks and other vehicles, as defined in § 46.2-100, except those described in subdivisions 4, and 6 through 10 of this subsection, which shall be valued by means of either a recognized pricing guide using the lowest value specified in such guide or a percentage or percentages of original cost.

6. Manufactured homes, as defined in § 36-85.3, which may be valued on the basis of square footage of living space.

7. Antique motor vehicles, as defined in § 46.2-100, which may be used for general transportation purposes as provided in subsection C of § 46.2-730.

17. Computer equipment and peripherals used in a data center, as defined in subdivision A 43 of § 58.1-3506, which shall be valued by means of a percentage or percentages of original cost, or by such other method as may reasonably be expected to determine the actual fair market value.

20. All other tangible personal property.

B. Methods of valuing property may differ among the separate categories, so long as each method used is uniform within each category, is consistent with requirements of this section and may reasonably be expected to determine actual fair market value as determined by the commissioner of revenue or other assessing official; however, assessment ratios shall only be used with the concurrence of the local governing body. A commissioner of revenue shall upon request take into account the condition of the property. The term "condition of the property" includes, but is not limited to, technological obsolescence of property where technological obsolescence is an appropriate factor for valuing such property. The commissioner of revenue shall make available to taxpayers on request a reasonable description of his valuation methods. Such commissioner, or other assessing officer, or his authorized agent, when using a recognized pricing guide as provided for in this section, may automatically extend the assessment if the

pricing information is stored in a computer. For any locality in which the commissioner of revenue or other assessing official adjusts the valuation of property described in subdivision A 3 to account for the amount of mileage on such vehicles, such adjustment shall also be provided to motorcycles described in subdivision A 10.
