

LD8201753

SENATE BILL NO. 340

Offered January 25, 1994

A *BILL to amend and reenact § 22.1-253.13:1 of the Code of Virginia and to amend the Code of Virginia by adding sections numbered 22.1-199.1 and 22.1-276.01, relating to increasing educational opportunities.*

Patrons—Schewel, Andrews, Gartlan, Holland, C.A. and Walker

Referred to the Committee on Education and Health

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-253.13:1 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding sections numbered 22.1-199.1 and 22.1-276.01 as follows:

§ 22.1-199.1. Program for improving educational opportunities.

In recognition of the importance of setting long-term educational improvement goals and the significance of early childhood education, educational technology, and parental and community involvement, the General Assembly establishes the following objectives:

1. By the year 2000, the General Assembly shall seek to ensure that licensed instructional personnel shall be assigned by each school board in a manner that produces divisionwide ratios of students in average daily membership to full-time equivalent teaching positions in grades kindergarten through three, excluding special education teachers, principals, assistant principals, counselors, and librarians, that are not greater than the following: a statewide ratio of twenty to one and a targeted ratio of sixteen to one in schools with high concentrations of at-risk students.

2. Effective July 1, 1994, the availability of voluntary programs for at-risk four-year-old children shall be increased as provided in the appropriation act.

3. Effective July 1, 1994, access to educational technology shall be expanded as set forth in the appropriation act. "Educational technology" means distance learning, integrated learning systems (ILS), multimedia library packages, laptop computer loan programs, vocational technology/diversified technology laboratories (DTL), or other electronic techniques designed to enhance education and teacher training in the use of instructional technology.

4. Effective July 1, 1994, with such funds as are appropriated for this purpose, incentives for parental and community involvement shall be strengthened as set forth in § 22.1-276.01.

§ 22.1-253.13:1. Standard 1. Basic skills, selected programs, and instructional personnel.

A. The General Assembly and the Board of Education believe that the fundamental goal of the public schools of this Commonwealth must be to enable each student to develop the skills that are necessary for success in school and preparation for life, and find that the quality of education is dependent upon the provision of the appropriate working environment, benefits, and salaries necessary to ensure the availability of high quality instructional personnel and adequate commitment of other resources.

B. The Board of Education shall establish educational objectives to implement the development of the skills that are necessary for success in school and for preparation for life in the years beyond. The current educational objectives, known as the Standards of Learning, shall not be construed to be regulations as defined in § 9-6.14:4; however, the Board of Education may, from time to time, revise these educational objectives. In order to provide appropriate opportunity for input from the general public, teachers, and local school boards, the Board of Education shall conduct public hearings prior to establishing new educational objectives. Thirty days prior to conducting such hearings, the Board shall give written notice by mail of the date, time, and place of the hearings to all local school boards and any other persons requesting to be notified of the hearings and publish notice of its intention to revise these educational objectives in the Virginia Register of Regulations. Interested parties shall be given reasonable opportunity to be heard and present information prior to final adoption of any revisions of these educational objectives.

The Board shall seek to ensure that any revised educational objectives are consistent with the world's highest educational standards. However, no revisions shall be implemented prior to July 1, 1994. These objectives shall include, but not be limited to, basic skills of communication, computation and critical reasoning including problem solving and decision making, and the development of personal qualities such as self-esteem, sociability, self-management, integrity, and honesty. School boards shall implement these objectives or objectives specifically designed for their school divisions that are equivalent to or exceed the Board's requirements. Students shall be expected to achieve the educational objectives utilized by the school division at appropriate age or grade levels. With such funds as are available for

INTRODUCED

SB340

60 this purpose, the Board of Education may prescribe assessment methods to determine the level of
61 achievement of these objectives by all students.

62 C. Local school boards shall develop and implement a program of instruction for grades K through
63 12 which emphasizes reading, writing, speaking, mathematical concepts and computations, and scientific
64 concepts and processes; essential skills and concepts of citizenship, including knowledge of history,
65 economics, government, foreign languages, international cultures, health, environmental issues and
66 geography necessary for responsible participation in American society and in the international
67 community; fine arts and practical arts; knowledge and skills needed to qualify for further education and
68 employment or, in the case of some handicapped children, to qualify for appropriate training; and
69 development of the ability to apply such skills and knowledge in preparation for eventual employment
70 and lifelong learning.

71 Local school boards shall also develop and implement programs of prevention, intervention, or
72 remediation for students who are educationally at risk including, but not limited to, those whose scores
73 are in the bottom national quartile on Virginia State Assessment Program Tests, or who do not pass the
74 literacy test prescribed by the Board of Education. Division superintendents may require such students to
75 take special programs of prevention, intervention, or remediation which may include attendance in public
76 summer school sessions. Students required to attend such summer school sessions shall not be charged
77 tuition. Based on the number of students attending and the Commonwealth's share of the per pupil costs,
78 additional state funds shall be provided for summer remediation programs as set forth in the
79 appropriation act.

80 D. Local school boards shall also implement the following:

81 1. Programs in grades K through 3 which emphasize developmentally appropriate learning to enhance
82 success.

83 2. Programs based on prevention, intervention, or retrieval designed to increase the number of
84 students who earn a high school diploma or general education development (GED) certificate. As
85 provided in the appropriation act, state funding, in addition to basic aid, shall be allocated to support
86 programs grounded in sound educational policy to reduce the number of students who drop out of
87 school.

88 3. Career education programs infused into the K through 12 curricula that promote knowledge of
89 careers and all types of employment opportunities including but not limited to, apprenticeships, the
90 military, and career education schools, and emphasize the advantages of completing school with
91 marketable skills. School boards may include career exploration opportunities in the middle school
92 grades.

93 4. Competency-based vocational education programs, which integrate academic outcomes, career
94 guidance and job-seeking skills for all secondary students including those identified as handicapped that
95 reflect employment opportunities, labor market needs, applied basic skills, job-seeking skills, and career
96 guidance. Career guidance shall include employment counseling designed to furnish information on
97 available employment opportunities to all students, including those identified as handicapped, and
98 placement services for students exiting school. Each school board shall develop and implement a plan to
99 ensure compliance with the provisions of this subsection.

100 5. Academic and vocational preparation for students who plan to continue their education beyond
101 secondary school or who plan to enter employment.

102 6. Early identification of handicapped students and enrollment of such students in appropriate
103 instructional programs consistent with state and federal law.

104 7. Early identification of gifted students and enrollment of such students in appropriately
105 differentiated instructional programs.

106 8. Educational alternatives for students whose needs are not met in programs prescribed elsewhere in
107 these standards. Such students shall be counted in average daily membership (ADM) in accordance with
108 the regulations of the Board of Education.

109 9. Adult education programs for individuals functioning below the high school completion level.
110 Such programs may be conducted by the school board as the primary agency or through a collaborative
111 arrangement between the school board and other agencies.

112 10. A plan to make achievements for students who are educationally at risk a divisionwide priority
113 which shall include procedures for measuring the progress of such students.

114 E. Each local school board shall employ with state and local basic, special education, gifted, and
115 vocational education funds a minimum number of licensed, full-time equivalent instructional personnel
116 for each 1,000 students in average daily membership (ADM) as set forth in the appropriation act.
117 Calculations of kindergarten positions shall be based on full-day kindergarten programs. Beginning with
118 the March 31 report of average daily membership, those school divisions offering half-day kindergarten
119 shall adjust their average daily membership for kindergarten to reflect eighty-five percent of the total
120 kindergarten average daily memberships.

121 F. In addition to the positions supported by basic aid and in support of regular school year remedial

programs, state funding, pursuant to the appropriation act, shall be provided to fund certain full-time equivalent instructional positions for each 1,000 students in grades K through 12 estimated to score in the bottom national quartile on Virginia State Assessment Program Tests and those who fail the literacy tests prescribed by the Board. State funding for remedial programs provided pursuant to this subsection and the appropriation act may be used to support programs for educationally at-risk students as identified by the local school boards.

The Board of Education shall establish criteria for identification of educationally at-risk students, which shall not be construed to be regulations as defined in § 9-6.14:4; however, the Board of Education may, from time to time, revise these identification criteria. In order to provide appropriate opportunity for input from the general public, teachers, and local school boards, the Board of Education shall conduct public hearings prior to establishing or revising such identification criteria. Thirty days prior to conducting such hearings, the Board shall give written notice by mail of the date, time, and place of the hearings to all local school boards and any other persons requesting to be notified of the hearings and publish notice of its intention to establish or revise such identification criteria in the Virginia Register of Regulations. Interested parties shall be given reasonable opportunity to be heard and present information prior to final adoption of any such identification criteria or revisions thereto.

G. Licensed instructional personnel shall be assigned by each school board in a manner that produces divisionwide ratios of students in average daily membership to full-time equivalent teaching positions, excluding special education teachers, principals, assistant principals, counselors, and librarians, that are not greater than the following ratios: (i) twenty-five to one in kindergarten with no class being larger than thirty students; if the average daily membership in any kindergarten class exceeds twenty-five pupils, a full-time teacher's aide shall be assigned to the class; (ii) twenty-four to one in grade one with no class being larger than thirty students; (iii) twenty-five to one in grades two and three with no class being larger than thirty students; (iv) twenty-five to one in grades four through six with no class being larger than thirty-five students; and (v) twenty-four to one in English classes in grades six through twelve.

In addition, instructional personnel shall be assigned by each school board in a manner that produces schoolwide ratios of students in average daily memberships to full-time equivalent teaching positions of twenty-five to one in middle schools and high schools.

H. Effective July 1, 1995, and as set forth in the appropriation act, licensed instructional personnel shall be assigned by each school board in a manner that produces divisionwide ratios of students in average daily membership to full-time equivalent teaching positions in grades kindergarten through three, excluding special education teachers, principals, assistant principals, counselors, and librarians, that are not greater than the following: a statewide ratio of twenty-two to one and a targeted ratio of eighteen to one in schools with high concentrations of at-risk students. The ratios established in (iv) and (v) of subsection G above shall be maintained.

§ 22.1-276.01. Parental responsibility and involvement requirements.

A. Within three weeks of the beginning of the school year, school boards shall send, simultaneously with any other materials customarily distributed at that time, to the parents, guardians, or other persons having control or charge of each enrolled student, a notice of the requirements of this section.

B. Within one calendar month of the opening of school, every parent, guardian, or other person having control or charge of an enrolled student shall:

1. Meet with the child's homeroom teacher or the school's principal, assistant principal, or other designated licensed school personnel to review the school board's standards of student conduct and discuss the parent's and the teacher or other school official's expectations of the child. The teacher or other school official shall explain the school board's disciplinary policies and inform the parent of the parent's responsibility to assist the school in disciplining the student and maintaining order; and

2. Sign an statement acknowledging the requirements of the school board's standards of student conduct and recognizing his responsibility to assist the school in disciplining the student and maintaining order.

C. A school board shall notify the parents, guardians or other persons having control or charge of any student who violates a school board policy and is assigned a penalty of in-school or out-of-school suspension of the date and particulars of the violation, of the requirement that the parent accompany the student to meet with school officials, and of the obligation of the parent to take actions to improve the student's behavior.

No suspended student shall be admitted to the regular school program until such student and his parent have met with school officials to discuss improvement of the student's behavior.

D. Upon the failure of any parent to accompany a suspended student to meet with school officials, or upon the student receiving a second suspension or being expelled, the attendance officer shall make compliant in the name of the Commonwealth before the juvenile and domestic relations district court or any successor in interest of that court. Any child suspended twice or more times during a single school

183 *year shall be deemed to be a "child in need of supervision" who is habituallly and without justification*
184 *absent from school pursuant to Chapter 11 of Title 16.1, and the child and his parent shall be subject*
185 *to the provisions of § 16.1-278.5.*
186 *E. A school board shall provide opportunities for parental and community involvement in every*
187 *school in the school division.*
