A. *The Superintendent of Public Instruction shall include in the educational performance criteria developed pursuant to § 22.1-253.13:3 standards for determinations of substantial impairment of quality education. The Superintendent of Public Instruction shall provide a statement of these standards to each school division.*

§ 22.1-253.15. *Opportunity for hearing and comment to address determination of impairment.*

Pursuant to regulations to be promulgated by the Board of Education, those schools that have demonstrated a substantial impairment of quality of education shall be afforded a comment and hearing procedure to address the determination of impairment. § 22.1-253.16. *Designation as a school in crisis.*

Upon a determination by the Superintendent of Public Instruction that the recommendations to address impairment of quality of education have not been satisfactorily implemented by the beginning of the academic year following the determination of substantial impairment or that the impairment will not be remedied within the academic year following such determination, the Superintendent of Public Instruction shall declare the affected school to be a school in crisis. From such funds as may be appropriated, the Department of Education shall provide technical assistance, additional educational resources, and funding to such school and may place personnel in the school to assist and monitor the implementation of an emergency plan to meet the educational needs of pupils enrolled in the school.
