

VIRGINIA ACTS OF ASSEMBLY -- 1996 SESSION

CHAPTER 625

An Act to amend and reenact § 51.1-142 of the Code of Virginia, relating to prior service credit in the Virginia Retirement System.

[H 901]

Approved April 5, 1996

Be it enacted by the General Assembly of Virginia:

1. That § 51.1-142 of the Code of Virginia is amended and reenacted as follows:

§ 51.1-142. Prior service or membership credit for certain members.

A. Any member in service may purchase credit for service lost as a result of the following:

1. Rejection of membership in the retirement system.
2. Cessation of membership under this chapter because of the withdrawal of his accumulated contributions.
3. Exclusion from membership because of being a member of the General Assembly or other state officer elected by the people.

4. Termination of service as an officer or employee of a political subdivision in a position which subsequently became covered by the retirement system and for which prior service credit was granted.

In order to receive credit for the service, the member must pay an amount equal to the contributions that he would have made during the entire period to be credited, assuming that the member contribution rate specified in this chapter as of the date of payment had been in effect during the entire period and that the higher of the member's creditable compensation or average final compensation as of the date of payment had been received during the entire period.

When a member requests credit for a portion of the period, the most recent portion shall be credited. Payment may be made in a lump sum or by an additional payroll deduction. Only one additional deduction shall be permitted at any time. Should the additional deduction be terminated prior to purchasing the entire period which might otherwise be credited, the member shall be credited with the number of additional months of service for which payments are made. If the additional deduction is continued beyond the point at which the entire period has been purchased, the member shall be credited with no more than the entire period which might otherwise have been credited and the excess amount deducted shall be refunded to the member.

B. Any vested member in service with at least twenty-five years of creditable service in the Retirement System may purchase prior service credit for (i) active duty military service in the armed forces of the United States, provided that the discharge from the armed forces was not dishonorable and the member has not withdrawn his accumulated contributions or (ii) certified creditable service in the retirement system of another state or (iii) both. For purposes of this subsection, "active duty military service" means full-time service of at least 180 consecutive days in the United States Army, Navy, Air Force, Marines, Coast Guard, or reserve components thereof.

Such prior service credit shall be calculated at the ratio of one year of prior service credit to one year of active duty military service or certified creditable service in the retirement system of another state, up to a maximum of three years of prior service credit. The member must pay an amount equal to five percent of his present annual compensation for each year to be credited or five percent of his average annual creditable compensation during his thirty-six highest consecutive months of creditable service, whichever is greater. Such prior service credit shall not be otherwise creditable as prior service in the calculation of any retirement benefit by another retirement system, but shall be creditable as prior service under this chapter and, if applicable, shall be considered in determining the actuarial equivalent for early retirement. Prior service credit for more than three years of service may be purchased by the member pursuant to § 51.1-143.

~~B.~~ C. Any member granted a leave of absence for any of the following reasons may purchase limited service on the basis set forth in subsection A of this section:

1. Up to four years of service for any leave of absence for educational purposes or for temporary employment with the General Assembly.

2. Up to four years of service subsequent to January 1, 1964, for any leave of absence due to illness or disability or service which was temporarily terminated due to illness or disability.

~~C.~~ D. Any member in service who was denied membership because of having attained age sixty when first employed or reemployed may purchase all or any portion of service lost as a result of denial upon payment in a lump sum of the amount the member would have contributed had he been allowed to participate in the system.

~~D.~~ E. Service may be credited at no cost under the following circumstances:

1. Any member who was a member of the abolished system and who was in service on March 1,

1952, shall receive credit for service rendered as a state employee or teacher prior to July 1, 1942, provided the member has not received a refund of accumulated contributions since becoming a member of the abolished system.

2. Any member in service who is credited with five or more years of membership service who rendered full-time salaried service as a state employee or teacher prior to July 1, 1942, may receive credit for same.

3. Any member who is a teacher may receive credit for service rendered as a nonprofessional employee of a school board provided the school board has extended coverage to its nonprofessional employees and granted credit for service rendered prior to the effective date of coverage.

4. Any vested member who is a teacher shall receive up to two years of service credit for any involuntary leave of absence, without pay, required by local school division policies related to pregnancy or childbirth provided (i) the member was on such leave from a covered position prior to July 1, 1974, (ii) the member has not withdrawn all accumulated contributions, and (iii) the member reenters service in a covered position. In such instances, the employer, or its successors, which had such policies in place and applied same to the teacher seeking additional service credit shall be liable for the cost of providing such service credit.

5. Any member may receive credit for service rendered in the armed forces of the United States provided (i) the member was on leave of absence from a covered position, (ii) the discharge from the armed forces was not dishonorable, (iii) the member has not withdrawn his accumulated contributions, and (iv) the member reenters service in a covered position within one year after discharge from the armed forces. No period of service rendered, through reenlistment, beyond the cessation of hostilities shall be creditable service.

~~E.~~ F. Any member of the abolished system may transfer accumulated contributions in that system to the Retirement System within one year after becoming a member of the Retirement System.

~~F.~~ G. Any vested member in service who (i) by virtue of an order of a court of this Commonwealth granting special police powers, enforced the laws of the Commonwealth at any time between 1964 and 1981 as a uniformed law-enforcement officer in any incorporated or unincorporated town in any county with a population between 55,000 and 60,000, as reported in the 1990 census of the population of the United States, and at the time of such member's law-enforcement service, such county participated in the Virginia Retirement System; (ii) reentered service in a covered position; and (iii) has not withdrawn his accumulated contributions, may purchase prior service credit pursuant to § 51.1-144.

~~G.~~ H. Any vested member in service who (i) prior to January 1, 1982, was employed by the Commissioner of Revenue in any city of this Commonwealth with a population greater than 200,000, as reported in the 1990 census of the population of the United States, and (ii) on January 1, 1982, became an employee of the Director of Finance in any city of this Commonwealth with a population greater than 200,000, as reported in the 1990 census of the population of the United States, which participated in the Virginia Retirement System; and (iii) has not withdrawn his accumulated contributions, may transfer his years of creditable service from the city's retirement plan to the Virginia Retirement System. The Virginia Retirement System shall compute the present value of the retirement benefit of service so transferred and the city's retirement plan shall pay in a manner prescribed by the Retirement System.

2. That the provisions of this act shall apply to employees of political subdivisions unless the employer notifies the Board of Trustees otherwise in writing on or before July 1, 1996.

3. That an emergency exists and this act is in force from its passage.
