§ 23-266. Exemptions.

A. The provisions of this chapter shall not be applicable to any institution named in § 23-9.5 or any institution of higher education (i) whose primary purpose is to provide religious training or theological education, (ii) which awards degrees, diplomas or certificates whose titles indicate such primary purpose plainly upon their face and which state that the institution is excluded from the requirement of state approval, and (iii) whose catalogs and other publications plainly state that the institution's primary purpose is to provide religious training or theological education, that the institution's degrees, diplomas or certificates are so titled and worded and that the institution is excluded from the requirement of state approval.

B. Upon a determination by the Council as provided in subsection D of this section, the following institutions, *schools*, programs, degrees, diplomas, and certificates shall be exempted from the provisions of this chapter:

1. Any institution not exempt under the provisions of subsection A of this section whose primary purpose is to provide religious training or theological education and whose degree, diploma, or certificate is limited to evidence of completion of that education; provided, however, that any such institution which also offers degrees, diplomas, or certificates that are not awarded for the completion of religious training or theological education shall, to the extent of such nonreligious, nontheological degrees, diplomas, or certificates, be subject to the provisions of this chapter.

2. An institution's conferring or awarding of an honorary degree, as long as the degree (i) does not represent the satisfactory completion of all or any part of the requirements of a program or course of study and (ii) is normally regarded as one which is intended to be commemorative in nature in recognition of an individual's contributions to society.

3. An institution's offering of (i) a nursing education program to the extent the program is regulated by the Board of Nursing or (ii) a professional program for professional or occupational training to the extent the program is subject to the approval by a regulatory board pursuant to Title 54.1.

4. Any ~~school~~ *postsecondary school* subject to the provisions of Chapter 16 (§ 22.1-319 et seq.) of Title 22.1 *that offers only certificate or diploma programs; however, the addition of a degree program by any such school shall require the approval of the Council pursuant to the provisions of this chapter.*

5. An institution's awarding of a certificate or diploma on the basis of continuing education unit credit, or the equivalent, provided that the certificate or diploma so awarded indicates that the award is not based on the successful completion of degree credit work.

6. Courses or programs of instruction given by or approved by any professional body, fraternal organization, civic club, or benevolent order principally for professional education or advancement or similar purpose and for which no degree or degree credit is awarded; and

7. Post-secondary educational courses or programs of instruction offered by institutions of higher education at United States military posts or reservations when all of the courses or programs so offered are open only to military personnel or civilians employed by such military posts or reservations.

C. The Council may approve institutions of higher education to offer courses or programs exempted from this chapter pursuant to subdivision 7 of subsection B of this section if requested to do so by the appropriate military officials.

D. Each institution of higher education *or school* which claims to be exempt under the provisions of subsection B hereof shall file with the Council such information as may be required by the Council to determine whether the institution *or school* is exempt or to ensure that the institution *or school* continues to be exempt. The information so required by the Council shall be strictly limited to that which is necessary and relevant for such purposes. If the Council determines that an institution *or school* is not exempt from the provisions of this chapter, it shall notify the institution *or school* in writing with the reasons for the determination, and the affected institution *or school* shall have the opportunity for proceedings before the Council pursuant to § 9-6.14:11. The Council shall, in each instance, determine the validity of the exemption as provided in this section and such regulations as may be prescribed by the Council; provided, however, that any institution which claims an exemption under subsection A of this section on the basis that its primary purpose is to provide religious training or theological education shall be entitled to a rebuttable presumption of the truth of that claim.

§ 23-267. When Council approval required for conferring of degrees, etc., or offering certain programs.

A. 1. No institution of higher education formed, chartered, or established in the Commonwealth prior to July 1, 1980, which has been approved or authorized prior to that date to confer or grant academic, professional or honorary degrees by the Council, by the Board of Education or by an act of the General Assembly shall be required to obtain approval of the Council as provided in this chapter to confer those degrees unless or until such approval or authorization is revoked as provided in § 23-271. No such institution shall confer degrees at a level other than that for which it holds such approval or in specific programs or program areas at a degree level other than that for which it holds such approval unless such institution receives approval from the Council in accordance with the provisions of this chapter.

2. No institution of higher education formed, chartered, or established in the Commonwealth to which the provisions of subdivision A 1 of this section are inapplicable may confer or award degrees at any level within the Commonwealth unless such institution receives approval from the Council in accordance with the provisions of this chapter.

3. No institution of higher education formed, chartered or established within the Commonwealth which has approval from the Council to confer or award degrees within the Commonwealth at a specified level or in specified programs or program areas at a particular degree level shall award or issue certificates or diplomas at or below the associate degree level unless the institution receives approval from the Council for each type or category of certificate or diploma so offered, as defined by

regulation of the Council.

4. Any school licensed or certified by the Board of Education prior to July 1, 1996, to confer certificates or diplomas shall continue to be subject to the provisions of Chapter 16 (§ 22.1-319 et seq.) of Title 22.1; however, the addition of a degree program by any such school shall require the approval of the Council pursuant to this chapter. On and after July 1, 1996, any school seeking to confer diplomas and certificates, but not degrees, shall be subject only to the authority of the Board upon a determination by the Council. Institutions of higher education approved by the Council before July 1, 1996, to confer degrees shall not be subject to the provisions of Chapter 16 (§ 22.1-319 et seq.) of Title 22.1 for the purposes of adding any diploma or certificate programs.

5. No institution of higher education formed, chartered, or established within the Commonwealth which is approved by the Council to confer a degree at a specified level or to confer degrees in specified programs or program areas at a particular degree level shall enroll students into degree programs at a new or additional degree level or in specified programs or program areas at a new or additional degree level or into new or additional certificate or diploma programs unless the institution receives the approval of the Council in accordance with this chapter to confer degrees at the level or in the program or in program areas at the level or to award the certificates or diplomas or unless the Council authorizes the institution to do so upon such conditions as the Council may establish pending approval of the applicant's request to confer such degrees or to award such diplomas or certificates.

B. 1. No institution of higher education formed, chartered, or established outside the Commonwealth shall confer any degree or offer any program of study or course for degree credit or any diploma or certificate program within the Commonwealth unless the institution receives the approval of the Council in accordance with the provisions of this chapter or unless the Council authorizes the institution to do so upon such conditions as the Council may establish pending approval of the applicant's request to confer the degree or to offer the program or course for degree credit, or the diploma or certificate at or below the associate degree level.

2. No institution of higher education formed, chartered, or established outside the Commonwealth shall confer degrees or offer courses or programs of study within Virginia which may be either credited toward a degree at the institution's campus, branch or extension within the Commonwealth or transferred to a location within or outside the Commonwealth, including the institution's principal location, for application toward a degree without approval from the Council in accordance with the provisions of this chapter.

3. No institution of higher education formed, chartered or established outside the Commonwealth shall offer a certificate or diploma program at or below the associate degree level within the Commonwealth, regardless of whether the institution has approval from the Council to confer degrees or to offer a specified program or course within the Commonwealth, without approval from the Council to offer the certificate or diploma program.

4. No institution of higher education formed, chartered or established outside the Commonwealth and no branch or extension thereof shall, prior to receiving the appropriate approval by the Council, enroll students within the Commonwealth into a specified program or course providing degree credit or into a certificate or diploma program.

§ 23-268. Regulations.

The Council shall adopt, in accordance with the provisions of Chapter 1.1:1 (§ 9-6.14:1 et seq.) of Title 9, regulations to carry out the provisions of this chapter. The regulations shall state the procedures by which an institution or school shall make application for approval by the Council and shall contain standards designed (i) to insure that all institutions of higher education or postsecondary schools which are subject to the provisions of this chapter meet minimal academic standards and (ii) to be in the best interests of students who are expending time and money in obtaining post-secondary education and persons who rely on post-secondary degrees, diplomas and certificates in judging the competence of individuals. The areas to be dealt with in the standards shall include, but not be limited to, the following: adequacy of faculty training and experience, adequacy of present educational programs, adequacy of physical plant and structure, adequacy of finances, adequacy of maintenance of records, adequacy of personnel, adequacy of student services, adequacy of library, adequacy of research equipment and aids, adequacy of organization and administration, adequacy of procedures for student admission and graduation, consistency of an institution's stated purpose with proposed offerings, and any other relevant standards promulgated by the Southern Association of Colleges and Schools or other appropriate accrediting agencies recognized by the United States Department of Education as reliable authorities of the quality of education and training offered at institutions. The Council may by regulation prescribe the manner, condition and language to be used by an institution, person or agent thereof in making known that the institution has received approval from the Council pursuant to the provisions of this chapter.

§ 23-269. Approval procedures.

306 A. Each institution of higher education *or postsecondary school* which applies for approval to confer  
307 degrees under this chapter shall be evaluated by the Council according to the standards for approval  
308 adopted by the Council pursuant to § 23-268 before such institution is approved to confer or award  
309 degrees.

310 B. An institution of higher education formed, chartered or established within the Commonwealth may  
311 request approval (i) to confer degrees at a specified academic level; or (ii) limited approval to confer  
312 degrees limited to one or more programs or program areas at a specified degree level; or (iii) approval  
313 to award a certificate or diploma. In considering an institution's application, the Council shall not take  
314 into account duplication of effort by public and private institutions in the Commonwealth or other  
315 questions of need within the Commonwealth for degrees or programs of the kind for which approval is  
316 sought. In granting approval to an institution to confer degrees at a specified level or in specified  
317 programs or program areas at a particular degree level, the Council may establish the term or period of  
318 time for which such approval is granted or may specify certain conditions under which it is granted.  
319 Following a satisfactory evaluation of an institution, the Council shall grant provisional approval to an  
320 institution to confer degrees at a specified level or in specified programs or program areas at a particular  
321 degree level and, when the institution has obtained accreditation from an appropriate regional or  
322 professional accrediting organization, the Council may then grant conditional or full approval to the  
323 institution, depending upon whether the institution has fully satisfied the standards for approval, as  
324 determined by the Council. In evaluating an institution's request to award or issue a certificate or  
325 diploma, the Council shall use, as appropriate, its standards for approving institutions to confer degrees.

326 C. In evaluating an institution of higher education formed, chartered or established outside the  
327 Commonwealth in accordance with the standards prescribed by the Council pursuant to § 23-268, the  
328 Council shall determine in each instance whether the academic and support services provided or  
329 otherwise required for citizens who will be enrolled in a particular course or program are available and  
330 adequate at the institution's campus, branch, or extension located in Virginia or whether the institution  
331 has made bona fide contractual provision, acceptable to the Council, for the materials and resources to  
332 be available within the proximity of the institution's campus, branch, or extension located in Virginia. In  
333 evaluating the request of such an institution to offer degree programs in Virginia or to offer credit  
334 courses or programs for transfer to a location within or outside Virginia, including the applicant's  
335 principal location, the Council shall insure and require that the applicant institution also offer the degree  
336 and the particular degree program or course at its principal location and that the specified program or  
337 course is included within the institution's programs accredited by an accrediting body recognized by the  
338 United States Department of Education. In granting approval to such an institution to confer degrees or  
339 to offer a specified degree program or course for degree credit or to award or issue a certificate or  
340 diploma, the Council may establish the term or period of time for which such approval is granted. The  
341 Council may also establish, by regulation, the procedure whereby an institution already approved to  
342 confer degrees or to offer a specified program, course, certificate, or diploma shall apply for a renewal  
343 of its approval.

344 § 23-271. Refusal, suspension and revocation of approval.

345 A. The Council may, on its own motion, refuse to grant or may suspend ~~an institution's~~ *its* approval  
346 to confer a degree or to offer a specified program, course, certificate or diploma or to confer degrees at  
347 a specified level or in specified programs or program areas or to award certificates or diplomas,  
348 including any approval or authorization prior to July 1, 1980, referred to in subsection A of § 23-267, if  
349 the Council determines that any one of the following has occurred:

350 1. The institution *or postsecondary school* knowingly submits any material information to the  
351 Council in connection with its request for approval that is misleading or untrue;

352 2. The institution *or postsecondary school*, or its branch or extension, fails to meet or maintain the  
353 standards established by regulation of the Council pursuant to § 23-268;

354 3. The institution *or postsecondary school* publicly makes or causes any false or misleading  
355 representation that it has complied with any of the requirements of this chapter;

356 4. The institution *or postsecondary school* violates any regulation promulgated by the Council  
357 pursuant to its authority under this chapter; ~~or~~

358 5. The institution ~~willfully~~ *or postsecondary school willfully* refuses to furnish the Council with any  
359 requested information or records demonstrably necessary for the Council to carry out its responsibilities  
360 under this chapter; *or*

361 6. *In the case of a postsecondary school approved by the Council to offer degrees, the license or*  
362 *certificate of such school has been revoked by the Board of Education pursuant to § 22.1-329.*

363 B. An institution whose request to offer a degree, program, course, certificate, or diploma is denied  
364 or whose approval to offer such is suspended by the Council shall receive written notification, as  
365 prescribed in the Council's regulations, of the reasons therefor and shall have an opportunity for  
366 proceedings before the Council in accordance with § 9-6.14:11 or, upon the written request of the  
367 institution, § 9-6.14:12. An institution which elects proceedings in accordance with § 9-6.14:12 shall bear

the cost of such proceedings as shall be provided by Council regulation, the expenses of any court reporter and the normal site visitation committee and its testimony deemed necessary by the Council, and for the preparation of a transcript.

C. Following the opportunity for proceedings provided for in subsection B of this section, the Council shall make its determination as to whether an approval shall be granted or, in the case of suspension, reinstated or revoked and shall so advise the institution in writing. No approval may be revoked for failure to meet or maintain the Council's standards as provided in subdivision 2 of subsection A of this section unless there is clear and convincing evidence of such failure.

In order again to receive an approval that has been revoked by the Council, an institution shall make application for approval under the Council's regulations governing requests for approval.

§ 23-275. Applications pending on July 1, 1980/1996.

All institutional applications for approval to confer degrees, ~~diplomas, or certificates~~, or to offer degree programs in specific areas, or to offer specific programs or courses which are pending before the Council on July 1, 1980/1996, shall be determined according to the provisions of this chapter. *Postsecondary schools, as defined in § 22.1-319, not approved by the Council before July 1, 1996, and seeking to offer diplomas or certificates, but not degrees, shall not be subject to the provisions of this chapter. Institutions of higher education approved by the Council before July 1, 1996, to confer degrees shall not be subject to the provisions of Chapter 16 (§ 22.1-319 et seq.) of Title 22.1 for the purposes of adding any diploma or certificate programs.*
