Any local ordinance of any other locality providing optional increases in density for provision of low and moderate income housing adopted before December 31, 1988, shall continue in full force and effect.

§ 15.1-491.9. Affordable dwelling unit ordinances.

A. In furtherance of the purpose of providing affordable shelter for all residents of the Commonwealth, the governing body of any county, other than a county organized under the urban county executive form of government, city or town may by amendment to the zoning ordinances of such county, city or town provide for an affordable housing dwelling unit program. Such program shall address housing needs, promote a full range of housing choices, and encourage the construction and continued existence of moderately priced housing by providing for optional increases in density in order to reduce land costs for such moderately priced housing. Any local ordinance of any locality providing optional increases in density for provision of low and moderate income housing adopted before December 31, 1988, shall continue in full force and effect. Counties organized under the urban county executive form of government shall be governed by the provisions of § 15.1-491.8 for purposes of the adoption of an affordable dwelling unit ordinance.

1. For a definition of affordable housing and affordable dwelling units.

2. For application of the requirements of an affordable housing dwelling unit program to any site, as defined by the county, city or town, or a portion thereof at one location which is the subject of an application for rezoning or special exception or, at the discretion of the local governing body, site plan or subdivision plat which yields, as submitted by the applicant, fifty or more dwelling units at an equivalent density greater than one unit per acre and which is located within an approved sewer area.

3. For an increase of up to twenty percent in the developable density of each site subject to the ordinance and for a provision requiring up to twelve and one-half percent of the total units approved, including the optional density increase, to be affordable dwelling units, as defined in the ordinance. 4. For increases by up to twenty percent of the density or of the lower and upper end of the density range set forth in the comprehensive plan of such county, city or town applicable to rezoning and special exception applications that request approval of single family detached dwelling units or single family attached dwelling units, when such applications are approved after the effective date of a local affordable housing zoning ordinance amendment.

5. For a requirement that not less than twelve and one-half percent of the total number of dwelling units approved pursuant to a zoning ordinance amendment enacted pursuant to subdivision B 4 of this

section shall be affordable dwelling units, as defined by the local zoning ordinance unless reduced by the twenty to twelve and one-half percent ratio pursuant to subdivision B 3 of this section.

6. For increases by up to ten percent of the density or of the lower and upper end of the density range, whichever is appropriate, set forth in the comprehensive plan of such county, city or town applicable to rezoning and special exception or, at the discretion of the local governing body, site plan and subdivision plat applications that request approval of nonelevator multiple family dwelling unit structures four stories or less in height when such applications are approved after the effective date of a local affordable housing zoning ordinance. However, at the option of the applicant, the provision pursuant to subdivision B 4 shall apply.

7. In the event a ten percent increase is not achieved, the percentage of affordable dwelling units required shall maintain the same ratio of ten percent to six and one-quarter percent.

8. For reasonable regulations requiring the affordable dwelling units to be built and offered for sale or rental concurrently with the construction and certificate of occupancy of a reasonable proportion of the market rate units.

9. For standards of compliance with the provisions of an affordable housing dwelling unit program and for the authority of the local governing body or its designee to enforce compliance with such standards and impose reasonable penalties for noncompliance, provided that a local zoning ordinance provide for an appeal process for any party aggrieved by a decision of the local governing body.

D. Any ordinance adopted hereunder shall provide that the local governing body shall have no more than 280 days in which to process site or subdivision plans proposing the development or construction of affordable housing or affordable dwelling units under such ordinance. The calculation of such period of review shall include only the time that plans are in review by the local governing body and shall not include such time as may be required for revision or modification in order to comply with lawful requirements set forth in applicable ordinances and regulations.

E. A county, city, or town establishing an affordable housing dwelling unit program in its zoning ordinance shall establish in its general ordinances, adopted in accordance with the requirements of § 15.1-504, reasonable regulations and provisions as to any or all of the following:

1. For administration and regulation by a local housing authority or by the local governing body or its designee of the sale and rental of affordable units.

4. For the establishment of jurisdiction-wide affordable dwelling unit sales prices by the local housing authority or local governing body or the latter's designee, initially and adjusted semiannually, based on a determination of all ordinary, necessary and reasonable costs required to construct the affordable dwelling unit prototype dwellings by private industry after considering written comment by the public, local housing authority or advisory body to the local governing body, and other information such as the area's current general market and economic conditions, provided that sales prices not include the cost of land, on-site sales commissions and marketing expenses, but may include, among other costs, builder-paid permanent mortgage placement costs and buy-down fees and closing costs except prepaid expenses required at settlement.

5. For the establishment of jurisdiction-wide affordable dwelling unit rental prices by a local housing authority or local governing body or its designee, initially and adjusted semiannually, based on a determination of all ordinary, necessary and reasonable costs required to construct and market the required number of affordable dwelling rental units by private industry in the area, after considering written comment by the public, local housing authority, or advisory body to the local governing body, and other information such as the area's current general market and economic conditions.

6. For a requirement that the prices for resales and rerentals be controlled by the local housing authority or local governing body or designee for a period of fifty years after the initial sale or rental
