The Board shall, however, conduct a public hearing prior to making amendments to the TPA-Formulary, the treatment guidelines or the determinations of diseases and abnormal conditions of the eye and its adnexa which may be treated by TPA-certified optometrists. Thirty days prior to conducting such hearing, the Board shall give written notice by mail of the date, time, and place of the hearing to all currently TPA-certified optometrists and any other persons requesting to be notified of the hearings and publish notice of its intention to amend the list in the Virginia Register of Regulations. During the public hearing, interested parties shall be given reasonable opportunity to be heard and present information prior to final adoption of any TPA-Formulary amendments. Proposed and final amendments of the list shall also be published, pursuant to § 9-6.14:22, in the Virginia Register of Regulations. Final amendments to the TPA-Formulary shall become effective upon filing with the Registrar of Regulations. The TPA-Formulary shall be the inclusive list of the therapeutic pharmaceutical agents that a TPA-certified optometrist may prescribe.

B. To assist in the specification of the TPA-Formulary, there shall be a seven-member TPA-Formulary Committee, as follows: three Virginia TPA-certified optometrists to be appointed by the Board of Optometry, one pharmacist appointed by the Board of Pharmacy from among its licensees, two ophthalmologists appointed by the Board of Medicine from among its licensees, and the chairman who shall be appointed by the Board of Optometry from among its members. The ophthalmologists appointed by the Board of Medicine shall have demonstrated, through professional experience, knowledge of the optometric profession. In the event the Board of Pharmacy or the Board of Medicine fails to make appointments to the TPA-Formulary Committee within thirty days following July 1, 1996, or within thirty days following any subsequent vacancy, the Board of Optometry shall appoint such members.

The TPA-Formulary Committee shall recommend to the Board those therapeutic pharmaceutical agents to be included on the TPA-Formulary for the treatment of certain diseases and abnormal conditions of the eye and its adnexa by TPA-certified optometrists.

§ 54.1-3224. Denial, etc., of TPA certification; disciplinary actions; summary suspension under certain circumstances.

A. The Board of Optometry may deny, refuse to renew, revoke, or suspend any TPA-certificate issued to a TPA-certified optometrist, or applied for by a licensed optometrist in accordance with the provisions of this article, or may discipline or reprimand any certificate holder for violations of this chapter or the Board's regulations.

B. The Board may take action summarily to suspend a TPA-certified optometrist's certification under this section by means of a telephone conference call if, in the opinion of a majority of the Board, (i) a good faith effort to convene a regular meeting of the Board has failed and (ii) there is an imminent danger to the public health or safety which warrants this action.

§ 54.1-3303. Prescriptions to be issued and drugs to be dispensed for medical or therapeutic purposes only.

A. A prescription for a controlled substance may be issued only by a practitioner of medicine, osteopathy, podiatry, dentistry or veterinary medicine who is authorized to prescribe controlled substances, or by a licensed nurse practitioner pursuant to § 54.1-2957.01, a licensed physician's assistant pursuant to § 54.1-2952.1, or a TPA-certified optometrist pursuant to Article 5 (§ 54.1-3222 et

429 *seq.) of Chapter 32 of this title.* The prescription shall be issued for a medicinal or therapeutic purpose  
430 and may be issued only to persons or animals with whom the practitioner has a bona fide  
431 physician-patient relationship.

432 For purposes of this section, a bona fide physician-patient-pharmacist relationship is one in which a  
433 physician prescribes, and a pharmacist dispenses, controlled substances in good faith to his patient for a  
434 medicinal or therapeutic purpose within the course of his professional practice. Any practitioner who  
435 prescribes any controlled substance with the knowledge that the controlled substance will be used  
436 otherwise than medicinally or for therapeutic purposes shall be subject to the criminal penalties provided  
437 in § 18.2-248 for violations of the provisions of law relating to the distribution or possession of  
438 controlled substances.

439 B. No prescription shall be filled which does not result from a bona fide physician-patient-pharmacist  
440 relationship. A prescription not issued in the usual course of treatment or for authorized research is not a  
441 valid prescription.

442 In order to determine whether a prescription which appears questionable to the pharmacist results  
443 from a bona fide physician-patient-pharmacist relationship, the pharmacist shall contact the prescribing  
444 physician or his agent and verify the identity of the patient and name and quantity of the drug  
445 prescribed. The person knowingly filling an invalid prescription shall be subject to the criminal penalties  
446 provided in § 18.2-248 for violations of the provisions of law relating to the sale, distribution or  
447 possession of controlled substances.

448 C. A pharmacist may dispense a controlled substance pursuant to a prescription of an out-of-state  
449 practitioner of medicine, osteopathy, podiatry, dentistry or veterinary medicine authorized to issue such  
450 prescription if the prescription complies with the requirements of this chapter and Chapter 34  
451 (§ 54.1-3400 et seq.) of this title, known as the "Drug Control Act."

452 D. A licensed nurse practitioner who is authorized to prescribe controlled substances pursuant to  
453 § 54.1-2957.01 may issue prescriptions for Schedule VI controlled substances and devices as set forth in  
454 Chapter 34 of this title in good faith to his patient for a medicinal or therapeutic purpose within the  
455 scope of his professional practice.

456 E. A licensed physician's assistant who is authorized to prescribe controlled substances pursuant to  
457 § 54.1-2952.1 may issue prescriptions for Schedule VI controlled substances and devices as set forth in  
458 Chapter 34 of this title in good faith to his patient for a medicinal or therapeutic purpose within the  
459 scope of his professional practice.

460 F. *A TPA-certified optometrist who is authorized to prescribe controlled substances pursuant to*  
461 *Article 5 (§ 54.1-3222 et seq.) of Chapter 32 of this title may issue prescriptions in good faith to his*  
462 *patients for medicinal or therapeutic purposes within the scope of his professional practice for the drugs*  
463 *specified on the TPA-Formulary, established pursuant to § 54.1-3223, which shall be limited to oral*  
464 *analgesics included in Schedules III and VI, as defined in §§ 54.1-3450 and 54.1-3455 of the Drug*  
465 *Control Act (§ 54.1-3400 et seq.), when appropriate to relieve ocular pain, and topically applied*  
466 *Schedule VI drugs, as defined in § 54.1-3455 of the Drug Control Act.*
